FLANNERY RESIGNS;  
WILL DEVOTE TIME  
TO HIS VINDICATION  
Leaves Police Commission Board So as Not  
to Embarrass Mayor McCarthy—Asserts  
Charges Are Groundless

SAN FRANCISCO, April 30.—Following his indictment on a charge of grand larceny in connection with the operations of an alleged "fake" pool room at Sausalito, Harry P. Flannery, president of the San Francisco board of police commissioners, resigned his office early today, the resignation being immediately accepted by Mayor McCarthy. Flannery, who has been confined to his home by illness, declared that he took this step for the best interests of the city and so as not to embarrass the administration. The charges against him, he asserted, were the result of a conspiracy, and entirely without foundation in fact.

No successor to the retiring commissioner is likely to be appointed until after the return of Mayor McCarthy from Washington, where he goes tomorrow to represent the city in the exposition and Hetch-Hetchy projects.

In the meantime, the mayor's secretary, Elmore Leffingwell, probably will act as head of the police board.

In his letter of resignation Mr. Flannery declares that he has been made the victim of a conspiracy and in the circumstances of his indictment he considers it to be his duty to relieve the pressure. It was only after Dr. Hall had received his resignation that he turned over to the mayor the charge in Marin county is thoroughly threshed out. When asked in regard to this matter Flannery said:

"When I shall have demonstrated that I am wrongfully accused and that the real culprits are the men now seeking my ruin, I shall present myself once again for your consideration, fully confident that you will aid, as a friend and official, to vindicate a man who is really charged."

It was not until an early hour this morning that Flannery indicated his intention to resign. He called up the Mayor and said it was his wish to tender his resignation. It was then too late for the Mayor to give the matter his personal attention and getting into touch with E. C. Leffingwell, his private secretary, he instructed the latter to see Flannery. It was well after 1 o'clock when Leffingwell reached the Flannery home, where he remained over half an hour and then drove directly to the Mayor's residence. Shortly after 2 o'clock Mayor McCarthy announced that the resignation had been accepted.

INDICTED YESTERDAY.

Flannery was indicted at noon yesterday on a charge of grand larceny and put up bail to the amount of \$5,000 in lieu of his arrest. He has so far recovered his health as to leave his home this morning at his downtown office in the Flannery building this morning. He left the house at 10 o'clock, and when interviewed by a TRIBUNE reporter, had the following to say as supplement to his official statement given out last night: "I think I've covered about all there is to it," he declared. "I've been very sick, but I feel a little better today. I think I must have had a slight touch of pneumonia, but I've decided that I'm better out attending to business. Of course this is the most outrageous thing that could possibly have been perpetrated."

HAS NO FOUNDATION.

"There is absolutely no foundation whatever for these charges. Why, way back in November I didn't know I was going to be a police commissioner. I didn't know anything about it. How could I have made such promises to Abbott, when it was not until January, a few hours before the official announcement of my appointment that I knew, for certain, that I was going to have a seat on the police commission?"

"Of course, I do not think it proper to criticize the actions of the Marin county grand jury. They probably knew what they were doing, and acted as they thought best on the evidence, but I understand that they were greatly divided and that they hesitated to bring in this true bill against me. I haven't heard, yet, when I am to go over there. I am anxious to assure all my friends that I will prove myself innocent and that I have nothing to fear."

"My orders to Captain Duke will show my feelings regarding bungo men, and before I am judge, I would like to have them read over carefully. This is exceedingly trying and a new experience for me, but I point to

OF POWERFUL  
POISON, IS  
CLAIMED

Dr. Ludwig Hektoen Testifies  
That Drug Aided Typhoid  
Fever.

HYDE IS CHEERFUL  
UNDER HEAVY FIRE

Declares They Can't Hang  
Prisoner on Statements  
Made by Dr. Hall.

KANSAS CITY, April 30.—Smiling and cheerful as he has been every day since his case was taken up almost three weeks ago, Dr. B. C. Hyde came into the courtroom from the jail this morning to face a grueling day, it being expected that Dr. Ludwig Hektoen of Chicago would take the stand. This did not seem to worry the physician.

Discussing the evidence of Dr. Hall given yesterday Dr. Hyde said:

"They never can bring a man on testi-

mony like that."

Mrs. Hyde, too, was pleased with the manner in which the defense combated the testimony of Dr. Hall. She said she felt it was a victory for her husband. Letters relating to the Swope analysis which passed between John G. Paxton and Dr. Hektoen were turned over to the defense today. A recess was taken to permit the defense to examine the letters.

Dr. Calvin Atkins, city physician of Independence, testified as to the condition of Colonel Swope's body. He did not believe the natural bodily ailments would have caused death.

HEKTOEN ON STAND.

Dr. Ludwig Hektoen followed Dr. Atkins. He was interviewed by Mr. Paxton and Thomas E. Snow Jr., of Chicago, on December 22, and he testified he received \$600 more from the "jack pot," a term applied to an alleged general corruption fund distributed at the close of each session of the Legislature. The \$600, White alleges, was paid him in St. Louis by Robert E. Wilson, also mem-

ber of the legislature.

WHITE IS APPROACHED.

According to White, he was first approached by Browne on May 4, 1908, while the voter was going on for a United States Senator. A deadlock had existed for some time. Browne asked White if he would vote for Lorimer, and White said he could and would.

On May 25 they met again, and Browne said he would pay \$1000

and a share of the "jack pot" for White's vote for Lorimer, according to the statement. On the next day Lorimer was elected on joint ballot, many Democrats voting for him, and White said one of them was Robert E. Wilson, also mem-

ber of the legislature.

On May 25 they met again, and Browne paid him \$40, and then \$50. At the time he received the last sum, White says that Browne had \$30,000 in a belt.

WHITE IS DISMISSED.

According to White, he was first approached by Browne on May 4, 1908, while the voter was going on for a United States Senator. A deadlock had existed for some time. Browne asked White if he would vote for Lorimer, and White said he could and would.

# Flannery Sends in His Resignation; Will Gather Proofs of His Innocence

## WRITES MAYOR DENOUNCING AUTHOR OF CHARGES

Says There Are No Founds for Allegations and He Will Establish Fact.

LEAVES POLICE BOARD TO AVERT EMBARRASSMENT

When His Name Is Cleared, He Says He May Seek Place Again.

Harry P. Flannery, head of the San Francisco Police commission, dictated yesterday by the Marin county grand jury, made the following statement last night:

I cannot understand why, at this time of my life, after having lived in California for thirty-three years, and having been engaged in active business all that time, it should have remained to this time to charge me with the offense of the character of the one based solely upon the word of man of Abbott's character. For seven years I had the concession from the Southern Pacific Company for the cafes on the ferry boats between San Francisco and Oakland, and during all that time conducted that business in such a manner that no discredit whatever of any character attached to my business or to my name.

I was engaged in the liquor business at the place where the Ries-Hau saloon now is, at the corner of Geary and Market streets, for five or six years before the fire of April 18, 1906, during the entire time I was in the business there no discreditable character attached to my business or my name. Within a week after that fire I was making arrangements for the lease of the property where the Flannery building now stands. The lease was secured, plans were drawn and that building—the first class A building after the fire—was erected by me at a cost of nearly \$90,000. I have been conducting business at that place ever since November, 1906, and no word of reprobation has ever been heard against my conduct or the conduct of my places of business.

**ADMITS AIDING McCARTHY.**

I did take an active interest in the McCarthy campaign. I did all in my power to assist his election, and thereby I undoubtedly created bitter political enemies. I did not seek the appointment of Police Commissioner, and did not want it, and I took it only at the urgent solicitation of Mayor McCarthy. Since that time it has been my one endeavor to refute the accusations that have been cast upon the Mayor and myself on account of his appointing me to the office. I now hold because of the fact that I was engaged in the saloon business. I firmly believe that during the time I was Police Commissioner there have been a larger percentage of licenses issued than during a like term under any administration for the past ten years.

I have at all times given the strictest instructions to the Chief of Police and the proper police officers to enforce the law as it is written. I have especially enjoined upon the proper officers of this city to drive out disreputable characters of all kinds, and have especially attracted their attention to bawdy men.

**ORDERS SUPPRESSION.**

In March, 1910, I gave specific instructions to Captain Duke of the Central station to suppress gambling at several places, as the following order will show:

Order No. 407  
San Francisco, March 3, 1910.  
Captain's Office,  
Police District No. 1.

A gentleman with high authority in the police department informs me that he has positive information that illegal gambling is being conducted at the following places: 1004 Kearny street, conducted by Brizzell;

1005 Kearny street, and sometimes, on Saturdays and Sundays, at a

## Writes Mayor McCarthy Letter of Resignation

SAN FRANCISCO, April 30.—The text of Harry P. Flannery's resignation as president of the board of police commissioners, received by the Mayor this morning is as follows:

"April 30, 1910.  
To the Hon. H. McCarthy, Mayor of San Francisco—Dear Sir:

As I do that your administration and yourself have been embarrassed and disgraced at the fact that an indictment has been placed upon me by a grand jury, I shall do my duty as a citizen who desires to have no oaths cast upon a commission or official of this local government, to relieve you at this time of the stress placed upon you by tendering my resignation as a member of the board of police commissioners of this city, the same to take effect immediately.

"I take this step at my earliest opportunity, while not yet recovered from a serious illness, and I submit this resignation without malice, with profound respect and with the interests of my city first at heart.

"I have been made the victim of the most dastardly conspiracy that could have been conceived by human fiend bent upon the ruin of an honest man. Editors have clasped hands with contemptible criminals, first to strike a blow at you, and next to encompass the downfall of a man whom they

could not blackmail and who is proud to have won their enmity.

"I prize your friendship and respect sufficiently to use every endeavor to relieve you of any embarrassment that might arise from this attack upon me, holding as I do, an office with which you honored me and which I filled conscientiously and as my best judgment dictated.

"I face my accusers without a tremor, and with no fear for the outcome of the trial. I am innocent, and I shall be glad, when this matter is fully threshed out, to prove the viciousness of my cowardly and lying accusers.

"When I shall have demonstrated that I am wrongfully accused and that the real culprit is the man now seeking my ruin, I shall present myself once again for your consideration, fully confident that you will aid as a friend and official to vindicate a man who is falsely charged.

"I thank you for your kindness and cordial friendship in the past, a continuance of which I shall strive to merit. I lay down my work as a police commissioner with a clear conscience, convinced that you will appreciate the motive with which I resign and the spirit in which it is tendered. I wish your administration every success, and I now turn my attention to the dogs barking at my heels. Yours very sincerely,

HARRY P. FLANNERY."

teller shop located at 2195 Powell street, Cassanova & Marshall, 930 Montgomery street, Sullivan's Club, at 35 Ellis street.

I am authorized to inform the sergeant-at-arms and patrolmen in this district that illegal gambling is now stopped immediately the officer of any rank responsible for the existence of these conditions will be charged with insolvency before the police commissioners.

"No further warning will be given and this order will be introduced as evidence to show that due notice was given.

"I have repeatedly issued instructions on this subject, but apparently without effect. If any officer thinks that this order is issued merely for effect, let him go ahead and serve the consequences. I now have obtained positive proof that illegal gambling has been conducted at some of these places which have never been reported to me.

"Wherever search warrants are required the officers will procure the same.

The platoon commanders will make careful note of all officers absent when this order is read and see that they are notified of its contents so that they return to duty. It will also be read to the gambling detail.

**SERENTAIS RESPONSIBLE.**

"The patrol sergeants will notify all officers having beats adjacent to any suspected gambling place that they will visit the place and will be held equally responsible with the officers on the beat and remain at such places as long as may be necessary and, lastly, will warn patrol sergeants that I will look to them for a strict enforcement of all the provisions in this order.

"The officers in this district are furthermore instructed to arrest Kid Sullivan or any of the rest of his kind on a charge of vagrancy if they are found hanging around this district.

"THOMAS DUKE, Captain of Police," San Francisco, March 21, 1910. Captain's Office, Police Dist. No. 1. Hon. Harry P. Flannery, President Board of Police Commissioners.

Dear Sir: On March 3, when I returned to the station from Judge Dunn's court, where I was called as a witness in the case of the police chief, Officer E. J. McNamara, informed me that you had telephoned that you desired to see me.

Proceeding to your office, I found you took a paper from your pocket, upon which was a list of six places where you stated illegal gambling was being conducted.

(For location of places see attached order.)

You informed me that you attempted to communicate this information to the chief of police, but as he was not in and as you desired immediate action, you referred the matter to me. You instructed me to do all in my power to prevent all violations of the law and to warn the public in regard to the officers found guilty of dereliction of duty who would be summarily dealt with.

"I remember that you particularly denounced one 'Kid' Sullivan and stated that he and his kind should be driven from the city.

**PROMISES ACTION.**

"After promising to do all in my power to carry out your instructions, proceeded at once to my office and handed over, April 10, the list of which is attached. This order was immediately read and is now in the central station.

"Respectfully submitted,

THOMAS DUKE, Captain of Police.

I have repeatedly instructed the proper officers of the police depart-

ment to suppress all gambling and drive out disreputable characters of all kinds. I have conducted my business all on an honorable basis.

"How can I be charged that with a record of this kind I am guilty of the shameless act of betraying my city in the hands of men of Abbott's character? His life, as recorded, shows him to be one of continual crime. He has lived clean and not otherwise, from his very youth. I intended to have him reinstated on the race-track, but I did not know how to get him off his true character and on an even keel. I did not know what to do for his character.

"The bringing of the indictment against me will be the Grand Jury of Marin County, who are the Grand Jury of a foul conspiracy, which I and my kind was nursed in this city. How these conspirators could find their way into the Grand Jury room of Marin County, I do not know.

"Snatching the purse from the hand of the girl, the man leaped down the steps and had disappeared on Oakland avenue before the frightened victim could scream for help.

Cowing found Miss Kackerei on the steps when she answered her screams and discovered that in her attempt to unlock the door and gain entrance she had broken her key in the lock.

**INJURIES NOT SEVERE.**

Other than a severe shock to her nerves and a slight confusion in her head where she was struck by the keys Miss Kackerei is none the worse for her thrilling experience this morning.

She was unable to give Lehnhardt, who reported the robbery to the police, any description of the man, as she explains she ran away from him as soon as she realized that he was following her and was not facing him when he struck her.

John McCarthy, the father, appeared at police headquarters this morning to perfect arrangements for the release of his other two sons on bail. Sobe choked his utterance and he could not speak. When asked what he thought of the affair he could only gasp:

"I blame no one."

T. Kreling, Moran's principal second; Spider Kelly, second to the dead; District Attorney Donahue and Sheriff Barnett, were seen this morning with the police taking into custody the two first named when they are located. After McCarthy's death Coroner Walsh was notified, and allowed the remains to go to the undertaking parlors. The autopsy will be held next Thursday, May 5, when all of those connected with the bout will be on hand to testify and a careful inquiry will be held.

**PLAYED FOR RECOVERY.**

Bernard Painter, who is also of the McCarthy camp, told of Moran's prayer for the recovery of his opponent.

"Moran feels awful about this. All through the night he prayed that Tommy might get better. He said then that he'd never enter the ring again if Tommy died from his injuries. It was an accident undoubtedly and nobody could help it, but it was terrible thing."

John McCarthy, the father, appeared at police headquarters this morning to perfect arrangements for the release of his other two sons on bail. Sobe choked his utterance and he could not speak. When asked what he thought of the affair he could only gasp:

After McCarthy's death Coroner Walsh was notified, and allowed the remains to go to the undertaking parlors. The autopsy will be held next Thursday, May 5, when all of those connected with the bout will be on hand to testify and a careful inquiry will be held.

**LIKE A PANDEMONIUM.**

Excitement, which increased until Drexland Pavilion resounded with a pandemonium and it seemed that the entire crowd was shouting for the bridge to one man, signalized the fatal injury of Tommy McCarthy last night. Under the auspices of the Jeffries-Johnson championship fight in view of the death of Tommy McCarthy, were non-committal, each of them saying that they would be governed by the State law governing glove contests.

"I have just heard of the death of McCarthy," said District Attorney Donahue, "but can say nothing at the present time with reference to its probable effect on the Jeffries-Johnson fight. So far as this office is concerned it will be regulated entirely by the State law. That is all I care to say about the matter at this time."

**WILL NOT AFFECT BIG FIGHT.**

"I do not know if McCarthy's death will have any material effect on the Jeffries-Johnson fight so far as my office is concerned," said Sheriff Barnett. "The State law seems to be explicit in regard to the holding of so-called 'no-holds-barred' contests."

"I do not care to say anything further on the subject at present, but will assure the people that if called upon I will perform my full duty and stop the fight if my legal advisor, who of course must be regulated by this law, as it is interpreted to me by the proper authorities."

## Let Us Have Peace and Progress.

Discussion regarding the sources and extent of the water supply, its purity, cost, etc., is always productive of good results provided it be conducted with reason and intelligence and with a sincere intent to enlighten and benefit the public. It is a subject with many angles and sides which touch the general interest at many points, and hence should be viewed in a comprehensive light and treated in a spirit of candor and fairness.

So far as water is concerned, the people of Oakland, and the people of Berkeley and Alameda as well, desire a number of things, but there are several things they do not want. They do not want political agitation, conflict, prolonged and expensive litigation and the consequent deterioration of facilities for supplying the public with water.

What they do want is peace, an assured abundance of pure water for both present and future needs, and a certainty that the extension of the distributing system will keep pace with the growth and expansion of the city. The first and chief requisite is the certainty that the supply is ample and healthful and that it shall be at all times ready for deliverance to every point of consumption as required. This is vital to municipal growth, to public comfort and convenience, to the general health and the safety of combustible property.

If this vital necessity is to be met there must be peace, not conflict between the consumers and the corporation supplying water. Peace argues security and mutual confidence; it induces harmony and co-operation, and a desire on one side to be fair and equitable and on the other to better the service and cheapen the cost of water to the consumers. It means working together on a community of interests basis, by which the public gains the very best possible results from private ownership. The schedule of rates gravitates downward and the standard of service gradually improves. It is a progression in both ways that is eminently desirable. The facilities for developing and purveying water are improved and extended as rapidly as public demands require, and there is full assurance that all demands will be met promptly and in good faith.

That is the condition today. It is a condition which should not be disturbed. Agitation to provoke a disturbance, no matter what the object, will inevitably result in putting in serious question all plans for increasing the water supply and extending the distributing system. The policy of equity and goodwill has vindicated itself signalily. So signalily, indeed, that no true friend of municipal progress should think of abandoning it. Unprecedented strides have been made while this policy has prevailed, and every sound business consideration dictates that it should be continued. It is for the public advantage.

## Efficiency of the Salt Water Plant.

The utility of the salt water plant was amply demonstrated at the fire at Third and Webster streets Thursday. In actual use the plant proved to be all that has been claimed for it. Proved, moreover, that it is worth many times what it cost as a conservator of property.

Because of its existence a disastrous conflagration was prevented. The saving in property probably exceeded the total cost of the plant. But for it the insurance companies would have a heavy bill of damages to pay. They can count a large direct money saving for themselves as a result of the expenditure of public money which the installation of the salt water plant entailed.

No more convincing argument could be presented in behalf of the demand for reduction of insurance rates. The plant protects the risks assumed by the underwriters, and the additional protection provided at public cost should be met by a corresponding reduction in rates of insurance. Such a reduction is only fair and just, and was what the people of Oakland were promised when the Council authorized the salt water plant.

As a matter of fact the underwriters urged the construction of the plant on the ground that a reduction in the cost of insurance would follow. On this understanding they were virtually allowed to specify the kind of a plant that should be installed and the people who should put it in. Now that the value and utility of the plant has been demonstrated beyond cavil, to the direct financial benefit of the insurance companies, the underwriters should redeem their promises without further delay. This city has been paying excessive rates ever since the San Francisco fire, and it is high time that there should be a reduction corresponding to the increased fire protection. The strength of the fire department has been largely increased at heavy expense to the taxpayers, the salt water plant installed and other facilities added to the equipment for extinguishing fires, and the rates should come down.

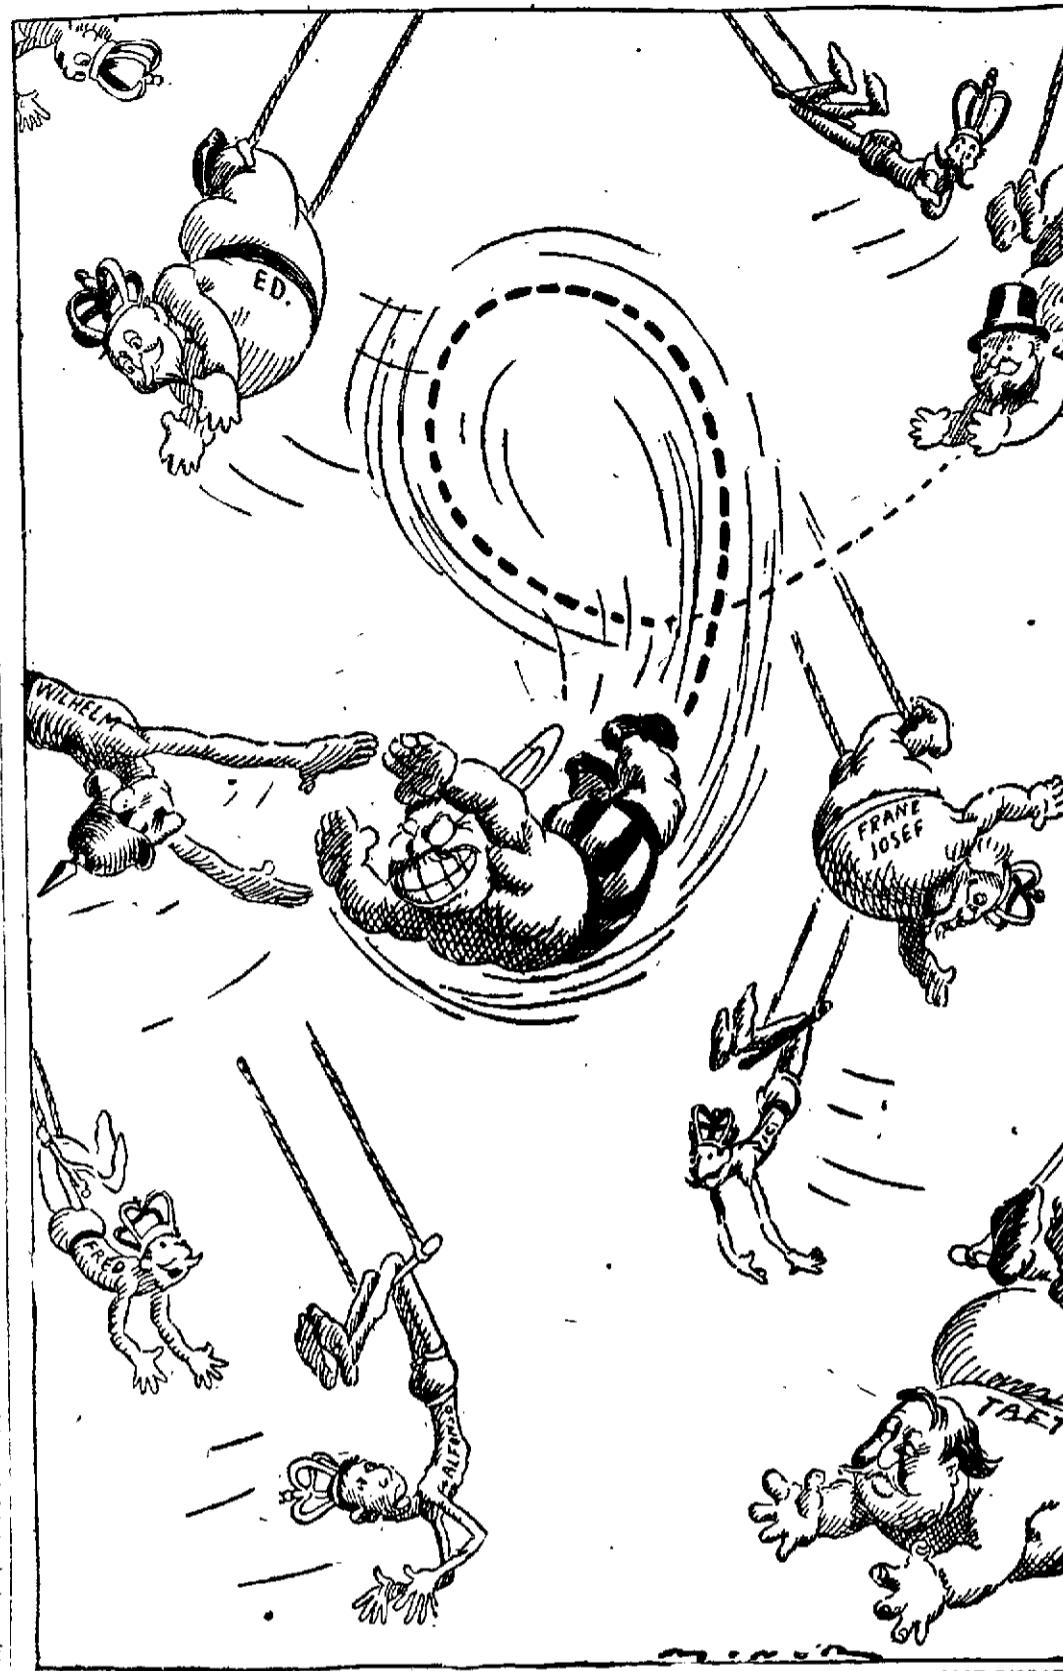

The reluctance of the underwriters to redeem their pledges is not creditable to their sense of right nor their conception of a square deal.

## The Old Black Mammy.

A movement has been inaugurated by the leading business men of Galveston to erect a monument to commemorate a unique and lovable type developed by slavery in the South, "the old black Mammy." It is a white man's movement exclusively, and has called forth many expressions of the affection still cherished by the older generation of Southern people for the faithful servant of the old plantation days. The black "Mammy" was as a household institution in the slave era. She suckled the children of her master, nursed them in illness and looked after them in health. She was the confidante of her mistress and the comforter of her children, and her white charges rewarded her devotion with an affection that has survived two generations of freedom. She looked after the household generally, rated the other servants for neglect of duty, sewed on buttons, mended stockings, and kept vigilant guard over the smokehouse and pantry. She was even more jealous of the honor of the family than members of the family often were themselves. She would lie and steal to shield them from want, harm or disgrace, but she was faithful to the death to any trust reposed in her. She had her faults, to be sure, but they were faults of which she was unconscious and which must be ascribed to her breeding, training and environment. No kinder or truer soul ever existed. Her life was one of service, her gospel loyalty and her practice constant abnegation. No other human creature ever possessed so many of the virtues of the dog and so few of the meannesses of men. The "old black Mammy" certainly deserves a monument, and the memorial should be raised by Southern hands alone. Only the people of the old South know the real worth of this fine product of a bad institution.

Governor Marshall of Indiana predicts that Senator Beveridge will be acting with the Democratic party as a Democrat inside of two years. Then, why did not the Democrats nominate him instead of putting up a man against him? They took his tariff plank from the Republican platform and landed his vote against the Payne-Aldrich tariff act. Still they are out to beat him.

## AT THE TOP OF THE TENT

—ST. LOUIS POST-DISPATCH.

## Timely and Interesting Topics

The Swiss Federal Railway has ordered four Pullman coaches specially fitted for the transportation of invalids. Each car, costing \$12,000, will be divided into seven compartments, the center compartment being provided for patients. There is to be an operating theater for urgent cases requiring immediate surgical treatment, and another compartment will be equipped as a pharmacy. Electric bed warmers and bath heaters will be provided. The rest of the compartments will be set apart for doctors, nurses and friends of the patients.

The Austrian government has granted a patent for "an automatic safety device for electric streetcars" to Josef G. Schuller, who is only 11 years old. The boy has been described as "unusually bright for his age, and so quick to grasp the ordinary school work that his parents have placed him in a private school where his tendency to overstudy may be overcome." From the time he has played in the nursery he has been interested in mechanics. He is a bright, wide awake boy, with a boy's love of play and fun, but his mechanical knowledge has for some time been a wonder in the eyes of the experts who have seen him.

MRS. ADA DOW CURRIER, who will take a prominent part in the performance of "As You Like It," to be given by local society people.  
—Schatz, Photo.

**E**VEN though the summer vacation is barely here, preparations are already under way to usher in the dances that are to mark the social activities of the coming season. Girls who are not to attend many dances this coming winter are saving their receptions for the cotillions, the leading ones of which will be given under the Greenway direction in San Francisco.

And in passing, it might be remarked that among the smart set there is no word more generally misspelled than this word "cotillon." As the French write it there is no "t" in the final syllable, and the word "cotillon" originally meant "petticoat" in French. "Cotillon" meant later a dance planned for women, and we have adopted the word "cotillon" from the French. So it really behoves us to spell it correctly.

It is the most popular dance for the young people in the New York smart set, and deservedly popular for married people are rarely included in the first set, or in any other set of the German, for that matter.

A new book appearing this month is called "The Politician" and the political side is offset by very sprightly sketches of society in the exclusive circles of New York. And a sketch of a cotillon carries a bit of wise advice to the younger girls:

"The hero of the story says: 'I can always tell a debutante from a girl who has been out a year or two by the way she treats her partner; if a cotillon carries a bit of wit and advice to the partner she is with, but spends it giving out over the sea of dances. Perhapswise in quest of flattery with a favor, proffered on the edge of her chair, all ready to spring. Men as individuals don't interest her, only collectively, as a means of pranking to the other debutantes how popular she is.'

"But the girls who have been out a season are different. They've got some sense! That's why I'd rather dance with them; they know their business better—stick to the bird in the hand, you know, and devote every energy to making him think he's the one and only real thing. And the result, dear child, is that her partner comes back for another dance and the debutante's partner doesn't."

All of which is specially good advice for the young girl whose debut is scheduled for the coming winter.

**WEST HAS DEBUTED ALONG ALL LINES.**

The West has developed along all lines in a most surprising fashion in the past few years. The center of political power has shifted to the Middle West—smart sets worth while are developed in all the large Western cities, successful writers come

from the West, and many of the fine novels of today have a Western environment. In Chicago, in the past week, many singers, who are well known here, have achieved a distinct success.

Madame Gadski, who has so many warm personal friends in Oakland, has been singing Aida in Chicago with great success. One reads of her, "Aida can be counted among her most remarkable undertakings. She sings the music with infinite charm and pathos with a tenderness and beauty of tone that make Johanna Gadski one of the three or four greatest singers of our time. She made a superb Aida."

Allen Nelsen is also singing in Chicago, and one reads of her,

"The opera was 'Martha.' Miss Nelsen won an ovation after her singing of 'The Last Rose of Summer,' the audience insisting upon a repetition. Applause continued during sixteen measures of orchestral playing, so the conductor and artist returned to 'The Last Rose,' and gave it all over again. It was beautifully sung."

It is inspiring to read also of Madame Schumann Heink, the superb singer, so popular on this coast;

"Madame Schumann Heink, after exceeding her own records on the Pacific Coast, which, according to the local impresario, were greater than any other artist, including Jenny Lind, is returning to New York and will arrive there late in April. Madame Schumann Heink has had a tour of four months, and during that time journeyed a greater number of miles, singing to a greater number of people and to larger audiences than ever before."

**GROWTH OF THE ARTIST SPIRIT HERE.**

It is interesting also to watch the growth of the artist spirit in the West, expressed nowhere so well as in its architectural expression. The building of the bungalow has been brought to such a high degree of excellence that the large Eastern cities are sending out skilled architects to study the problem in its various phases. We no longer build huge wooden barracks, with remarkable bay window excrescences for homes. Our homes are quite properly built for the climate, and they express in various ways artistic ideas of value.

Within the homes, one finds Chinese halls, wonderful wood paneling, and always a picture or two of unusual value. And there are mural decorations, such as those that adorned the walls of Pompeii and other palaces, in the wonderful early Italian days.

Mural decorations are planned as part of our many new homes. It is not such a very far cry to the days when instead of mural decorations there were the framed mottoes, in worsted work, which announced "Welcome to our home."

We have the mottoes, just the same, in our gardens, in our halls, in our dining rooms. The sentiments are in wonderful color tones, framed in exquisite designs, and the thoughts they express linger in one's memory. Over the fireplace in one of our new homes is to appear the following inscription:

"When you sit by the fire yourselves to warm,

Take care that your tongue do your neighbors no harm."

A Hindu couplet has an appropriate motto for a fireplace:

"In sumer a fan, and a tale, not too long,

In winter a fire, a friend, and a song."

A welcome in an old English hall-way is most heartily expressed:

"May ye live in cheer and mirth,  
Till a snail goes round the earth;  
May thy house protected be  
Till an ant drinks up the sea."

The hospitality which shares generously a home with friends is one of the finest things in the world, and the host who knows how to express a welcome heartily, and to bestow a god-speed is much loved by his friends.

**FORM PLANS FOR SUMMER ITINERARY.**

It is among members of the smart set that we meet those who can best afford to travel, and so many people are busy formulating plans for the summer's itinerary. And a paragraph in regard to one's plans is really illuminating:

"The shame of not knowing where one prefers going for the summer rapidly undermines all self-respect. To be entirely without preference is a state to confess to with confusion. Just amiable, calm friendship for all Europe, but not a leaving in any one direction which will settle one's summer, make up one's mind and establish one as a person of character.

It is a condition of mind which would leave one sitting on the end of the clock dangling one's legs in a lethargy of indecision until winter came and sent one scuttling towards home. If any one could conscientiously say that there was a single spot in all Europe one could afford to miss, that spot would be struck from the list and one's choice rendered so much easier. But every inch of ground has its claim on one's attention, so what, it may be asked, is there to do, except sit on the end of the pier and see if some outgoing steamer does not catch one's fancy?"

A greater exodus than usual to the country is in prospect this year. Times have been better for one thing, and many families can afford much longer trips than usual. Many people are choosing this summer for that longer

nado. He has spent much time also in Paris studying music.

The wedding at the home of the Moons was a quiet one and was attended only by relatives. There were present the Moons, the sisters of the groom, Mrs. Alexander Hamilton and Mr. Harry Holbrook, and the groom's mother, Mrs. Spreckels. Mr. Spreckels, who is ill, sent congratulations from Coronado.

Mr. and Mrs. Claus Spreckels Junior will make their home in Southern California.

**SUMMER PLANS FOR DEPENDENTS.**

It is most inspiring to watch the summer plans as they develop in New York, for unlike our own State, they all include plans for the dependent classes. It is true that we have not the exhausting summers characteristic of New York, nevertheless there are many whose only vacation days might be those provided by people of wealth.

One hears, of course, of individual cases, where friends are guests, in hospitable homes, generously shared.

Nearly all the Oakland travelers who are going abroad this year have chosen the Mediterranean trip. For one reason, the ocean trip is longer, and the ports reached are more convenient. The Southern season formerly lasted from November to the end of May. But it has been extended well into July. The outward rush in May and June this year will be very great indeed.

The Eversons, who are being entertained by friends on the Hudson, are to sail early in May, reaching Europe by way of the Mediterranean.

Mrs. W. C. Ralston and Mrs. Lucile Hays were among the passengers sailing for Genoa, by way of Gibraltar and Naples.

They sailed on the North German Lloyd steamer Barbarossa, and they will spend the next six months in a well planned tour of Europe.

Mrs. James Hume, who has been

for the past two years president of the California Federation of Women's Clubs, is among those planning to go abroad this year. Mrs. Hume will join her son, who has been spending this year in study in London.

Mrs. William K. Vanderbilt Jr. is going to Europe this summer, taking with her three children, and the retinue of servants which seems necessary to her comfort, and incidentally keep the children from having a good time.

Mrs. Jennie Blair, who is a great friend of Mrs. Vanderbilt's, is already in Europe. Mrs. Oelrichs and her son will go abroad with Mrs. Vanderbilt, and they will represent a large family party of Americans abroad.

**THE WEDDING OF MISS ELLIS MOON.**

The wedding of Miss Ellis Moon and Mr. Claus Spreckels Junior took place quietly at the bride's home in San Jose on Tuesday. The wedding is a matter of interest to many people here, where Miss Ellis Moon has many friends.

The bride was for many months a student at the Head School in Berkeley, and among her intimate friends have been the Clayes of Fruitvale and the Meeks of San Lorenzo. Mr. Claus Spreckels Junior has spent most of his life in Southern California, and for some years his parents have made their home at the Hotel Cor-

they are to entertain the latter at their studios on Le Roy avenue, and they announce "Glimpses of the World Beautiful," a charming announcement and sure to be the foreword of a delightful evening. Mr. and Mrs. Maurer

MRS. CLAUS SPRECKELS JR., who was, until her marriage this week, Miss Ellis Moon of San Jose.

have traveled far, all over the United States, out to Hawaii, all over Europe, and their travels have meant much to them. Mr. Maurer is a leading artist of the coast, whose fine work expresses rare artistic values. And he has a very sympathetic and appreciative helpmeet in his beautiful wife, who helps him along many lines of his life work.

**MISS ANNE MORGAN DISTINGUISHED WOMAN.**

Among the most distinguished women of the age is Miss Anne Morgan, the daughter of the greatest financier of the century, Pierpont Morgan. Mrs. Pierpont Morgan and her daughter, Miss Anne Morgan, has spent the early spring in California, having been guests in Pasadena, and having spent a week at the Fairmont. They were guests at the Crocker home in Burlingame on Wednesday and they left for their home in New York City on Thursday morning.

Probably no family in all the nation stands for better ideals than do the Morgans. Nothing is ever told to the general public of their benefactions, public and private, for there is nothing they dislike more than to have their generosity paraded. There is no ostentation about the Morgans; they are a most lovable family, simple to a degree.

Miss Anne Morgan is a splendid type of the forceful, energetic American young woman, with ideas of her own. She has a fine scorn of sham of pretense, one of the exceedingly fine women who is an honor to American womanhood.

Miss Morgan is chairman of the Junior League which aids the College Alumnae settlement work in New York. Last summer the settlement sent more than one thousand women and children to the country. Some of them were taken on day trips, others for one week or longer.

**ONE OF THE LARGEST RECESSIONS OF YEAR.**

One of the largest receptions of the year is planned for May 6, the hostesses of the day being Mrs. Arthur H. Breed and Mrs. Harlon Bancroft. They are to entertain in the large Foster residence on Orchard street, and it is an ideal place in which to entertain a large number of guests.

Mrs. Breed and Mrs. Bancroft have a wide circle of friends and they are planning for them a delightful afternoon at one of the elaborate teas of the year.

**UNIQUE EVENING BEING PLANNED.**

Mr. and Mrs. Oscar Maurer have sent out cards for Sunday evening, May 8, having planned a most unique Sunday evening gathering for their friends.

Leading people on both sides of the bay have been much in evidence at an exceedingly fine exhibition of paintings by Carl Oscar Borg. They are on exhibition at Helgesen's Galeries, 2229 Fillmore street, San

Francisco, and the dates are from April 23 to May 14.

The pictures are wonderfully picturesque, full of exceeding human interest, representing wonderful street life in Mexico, and also South American scenes.

In the collection on exhibition are three pictures owned by Mrs. P. A. Hearst, "Late Afternoon," "Street Corner, Tegucigalpa," "In the Cathedral Garden, Tegucigalpa," and "Puerta de la Recolección."

One of the pictures is also owned by Mrs. R. A. Clark, "Recuerdo de Guatemala."

The pictures are exceedingly beautiful, wonderful in tone and in color, showing the sure stamp of genius. The subjects of the pictures lend themselves to rare color effects, making the pictures vital with life, full of the charm of the old Spanish countries, and full also of that strength which is characteristic of the true creative spirit. Mr. Borg is an artist to be reckoned with, whose genius bids fair to win recognition from an appreciative public.

**MRS. ROSENFIELD TO GIVE LUNCHEON.**

Among the hostesses of the May time will be Mrs. Henry Rosenfield, who has sent out invitations for May 16, when she will entertain her friends at luncheon and bridge.

Mr. and Mrs. Rosenfield have been spending the winter at the Hotel St. Francis, and Mrs. Rosenfield will entertain her friends there. She is exceedingly thoughtful of her many Oakland acquaintances, and they thoroughly enjoy her generous and hospitable efforts for their entertainment. Many informal dates are planned during each season by Mrs. Rosenfield, and at the end of the season she often entertains at an unusually large bridge party many of her friends. Mrs. Rosenfield is so cordial always, so sweet and generous to her friends that very few regrets ever reach her in response to the invitations she sends out.

**INTERPRETATION OF THE OPERA.**

Last evening Professor and Mrs. John Galen Howard were hosts in their artistic Berkeley home, entertaining a large number of friends. The main event of the evening was the interpretation of Claude Debussy's opera, "Pelleas and Melisande."

Miss Kemble gave her impressions of the opera as she saw it in the French, and at the first London performance last May under Debussy's direction at Covent Garden. She is a most attractive speaker and the guests at the Howard home enjoyed an evening of most unusual interest.

**FIRST STEEL BOAT BUILT IN OAKLAND.**

Invitations of more than the usual degree of interest have been sent out to many prominent families this week. One reads that:

"The Moore and Scott Iron Works extends you a cordial invitation to be present at their shipyard, foot of Adeline street, Oakland, to witness the launching of the Associated Oil Company's oil carrying steamer, 'Coalinga,' at 6:15 o'clock p.m., Saturday April 30, 1910."

The invitation is a notable one marking as it does the launching of

# SOCIETY NEWS of the WEEK

MRS. LEROY B. HACKETT, a popular society matron of Oakland.

—Scharz, Photo

first steel boat in our city of Oakland and

The "Coalinga" is to be christened by Miss Elizabeth Orrick, the charming young daughter of Mr. and Mrs. S. Orrick of Vernon Heights. Mrs. Orrick is the only sister of the late Irving Scott, who was the pioneer of the ship building development on this coast.

Miss Orrick is a niece of the late Irving Scott, and it is specially appropriate that she should be chosen to christen this new steel boat, which is to further the wonderful oil interests which are rapidly bringing wealth and new laurels to our beloved California.

### MRS. HENRY TAYLOR GOES TO BOSTON.

Mrs. Henry W. Taylor and her daughter, Miss Bernece Taylor, left for the East last Saturday, going directly to Boston, where their stay will be indefinite. The Taylors have spent the entire winter at the Key Route Inn, and they have been most popular with a large circle of friends. Mr. and Mrs. Taylor and their daughter recently returned from an extended motor trip. They went first to Los Angeles, planning to motor from there into Mexico, but they found the Mexican roads in such poor condition that the motor trip was abandoned, and the party returned by rail to Oakland.

Among those who will leave early in the summer for New York will be Mrs. Grace Northrup Davis. Mrs. Davis will be away from California for a year, and during that time she will devote herself to musical study in the large Eastern centers.

### MRS. HORACE HUSSEY AND MISS EVELYN HUSSEY WILL SPEND THE SUMMER IN CALIFORNIA THIS YEAR, INSTEAD OF GOING ABOARD AS IS THEIR USUAL CUSTOM.

Business affairs will keep Mrs. Hussey home this year, so she is opening her picturesque country place at Rowardennan, which has been closed in recent years.

### MISS FLORENCE DUNHAM IS GUEST OF HONOR.

A number of prominent Oakland people went across the bay on Thursday to be guests of Mrs. C. O. G. Miller, who entertained at a large tea at her home on Pacific avenue. Mrs. Miller made her guest of honor Miss

Florence Dunham, who is having soon her generous and hospitable mother, for a long trip abroad. She will be among those this summer who will find their way to the little Bavarian village of Oberammergau. Since the Dunhams sold their Oakland home some years ago Miss Florence Dunham has spent a great deal of her time in Europe. She has many friends in Paris and in Florence, and has wandered far abroad.

Miss Mary Dunham has a very picturesque country home in Los Gatos and she spends a great deal of time with her sister and the latter's little girls.

Mrs. C. O. G. Miller was assisted in receiving her guests by her daughter, Miss Marian Miller, and among those invited to her hospitable home to meet Miss Dunham were:

Miss Mary Dunham, Mrs. Merrick, Mrs. H. M. A. Miller, Mrs. Edward Brayton, Mrs. Harry East, Mrs. Watt, Mrs. Miller, Mrs. William Watt, Mrs. Park Requa, Mrs. A. S. Macdonald, Mrs. Oscar Long, Miss Miller, Mrs. Bowles, Mrs. George Moore, Mrs. Moore.

### MISS HOLLAND'S DANCE A SUCCESS.

The dance planned by Miss Lois Holland for her young friends was one of the delightfully informal affairs of the late season. Miss Holland was assisted in receiving her guests by her mother, Mrs. Arthur Holland, and by her aunt, Mrs. Joseph Matthews, and all of them planned the details of the dance so perfectly that the young guests had the brightest and most enjoyable of good times.

The decorations were all suggestive of the springtime, and were beautifully planned. Some of them were brought from the Santa Cruz mountains, bringing with them also the spirit of spring. Beautiful Lady Banksia nodded a welcome and roses bloomed with fine effect in the heart of very artistic designs.

An orchestra played delightful music and dancing was enjoyed by the young people in the large drawing room and library. The wide veranda lent taste to very picturesque effects with hanging baskets, gay-colored lanterns and rugs and easy chairs. Late in the evening an elaborate supper was served under the able direction of Mary Hallahan.

It was an exceedingly attractive dance and nearly a hundred guests were entertained by Miss Holland, and

Mrs. George Baldwin, Miss Ruth Kales, Miss Rose Kales, Mrs. Everts, Miss Florinne Brown, Mrs. Henry Chase, Miss Alice Knowles.

**\* \* \***  
Miss Edith Warner is another bride-elect whose friends are glad to offer her graceful compliments, many and well-deserved. Miss Warner's engagement to Harold Burnside was recently announced and their wedding date is to be set for early in the summer. Miss Warner is a most accomplished girl, a fine violinist, and she has been a leading member of the well known Eudice Club.

On Thursday Mrs. George Williams gave an elaborate luncheon, entertaining a dozen guests at her East Oakland home in honor of Miss Warner. The delightful luncheon was followed by an interesting game of bridge.

### MRS. GEORGE CHASE LUNCHEON HOSTESS.

Mrs. George Chase was the hostess on Thursday at a most elaborate luncheon, planned in honor of Miss Helen Dornin. The Chases have returned recently to their picturesque bungalow in the higher Piedmont hills and with much skill and good taste, Mrs. Chase has made it one of the most attractive of the new homes on the hill slopes.

The luncheon was delightfully planned and Mrs. Chase presided at one of the most artistic tables seen here this year.

It was a fine study in pink effects, the color scheme elaborately carried out in pink roses, lilies of the valley and pink tulle. For each of the guests there were charming corsage bouquets of Cecil Bruner roses and lilies of the valley.

After the elaborate menu, there was a bridge game, for which the hostess had provided beautiful prizes, all adding to the charm of one of the most delightful luncheons given to any bride-elect this year.

Among Mrs. Chase's guests were: Miss Helen Dornin, Mrs. Traylor Bell, Miss Anita Thomson, Mrs. Edward Hume, Miss Jessie Craig, Mrs. Edison Adams, Mrs. Leon Bocqueraz, Miss Bessie Reed.

### PICTURES IN THE MEDDLER.

Mrs. Claus Spreckels, Jr., is a bride of this week, her marriage to the young scion of the wealthy pioneer Spreckels family being solemnized in San Jose at the home of her mother, Mrs. F. H. Moon. She was Miss Ellis Moon, one of the most beautiful girls in the State. She is the daughter of the late Dr. Frank Hall Moon, who retired from active business when he came to California several years ago. He had two beautiful homes in Santa Clara county, Rosclawn, on Alum Rock avenue, in the suburbs of San Jose, and Lacresta, on the ridge of the Santa Cruz Mountains above Saratoga Springs. He was the son of Delos Moon, the well-known millionaire lumberman of Wisconsin, where his three brothers are prominent in the same business.

Mrs. Spreckels received her early training in Notre Dame Convent and Washburn Preparatory School of San Jose, after which she attended Miss Mason's School in New York for two years. She continued her education in Miss Head's School in Berkeley, graduating two years ago.

The bridegroom is the son of John D. Spreckels and the grandson of the late Claus Spreckels Sr., and is now engaged in business in San Diego.

The young couple will make their home in Coronado.

Miss Frances Williamson is one of

the genuinely popular girls of the smart set, and is now being made the inspiration of much delightful entertaining, her engagement to George Franck, a well known and prominent young business man of this city, having been announced at a large tea recently given at the home of Mrs. Willard F. Williamson in Piedmont.

Miss Williamson resides now in San Francisco, but the family home was formerly in this city.

Mrs. Leroy B. Hackett is an attractive young matron, who frequently entertains and who is prominent also in the Oakland Club.

Mrs. Ada Dow Currier is one of the leading spirits in the projected production of "As You Like It," to be given in the Claremont foothills May 30. Her home in Durant avenue, Berkeley, is a sort of a modern salon where assemble the members of the literary, artistic and musical sets at most delightfully informal affairs.

Mrs. Currier is a most interesting raconteur, and her friends love to hear her reminiscences of Julia Marlowe, Joseph Jefferson, Sarah Bernhardt and other celebrities of her stage who were her friends.

### MISS HUFF GIVING BRIDGE PARTY SERIES.

Miss Jennie Huff is giving a series of bridge parties in these late spring days and is asking her friends to spend a pleasant afternoon at the old family home of the Huffs, on Estudillo avenue, San Leandro.

The rich receive hundreds of begging letters daily, and generally turn such appeals over to a secretary hired for the purpose. Now it has come to the point that the well-to-do are harassed at every turn until a man with an ordinary income—say, of a thousand dollars a month—is easily expected to give five hundred or a thousand a year to these miscellaneous charities. Some of them doubtless are worthy, but many of them are doing the work for which others were organized, and all are clamoring for building funds, endowments, or running expenses.

An amusing story is told of the way patronesses were secured for one of these charitable affairs which was in aid of a young ladies' seminary. The alumni of this particular school is a powerful body, and they were working tooth and nail for the success of the affair. They wished, naturally, to get a good list of patronesses—for each one of these charities is blissfully oblivious of the fact that any other charity has asked for anything at all this winter—and among the ladies asked was one who had removed her daughter from the school because, as she wrote to the principal, she had lost all confidence in the school. This particular lady was among those asked to sponsor the entertainment, but rather than go into all these naturally unpleasant details, she allowed the thing

to go by default and accepted the responsibility and the tickets.

Lately an appeal has gone out to music lovers on the other side of the bay—and possibly upon this side as well—to assist in giving a series of symphony concerts in San Francisco next year. The idea is to get a really excellent leader and build up a good symphony as was done years ago in Boston and afterward in Chicago with the Thomas concerts. The orchestral material is here in abundance and the music-lovers are here, too, but it is necessary to give the thing a start—to put it on the level of an endowed theater or opera. The plan is to get three hundred subscribers to promise one hundred dollars a year for five years—in case there is any deficit. If the concerts pay there will be nothing for the subscribers to make up. If they do not pay, the subscribers will be called upon for a pro rata. The securing of thirty thousand dollars a year would ensure excellent concerts. So far only one hundred and thirty subscriptions have been secured. No previous symphony concerts have ever paid in San Francisco. Nor did there

met at one of the fashionable women's clubs. One was a charitable woman who serves on innumerable boards of directors and the other as a woman who is found almost every afternoon at the bridge table. The charitable woman reproached the other for her waste of time, and the bridge player replied: "If you would learn bridge and spend your time that way you would do far less harm. Then you would be, at least, hurting only yourself."

The professional director looked her amazement at anyone holding this Philistine point of view. But on thinking it over a good many of those who had heard the passage at tongue decided that the bridge-playing woman was right. There is far too much duplication of charity work, and we are pauperizing the communities about us. Never in the history of San Francisco have there been so many appeals for charity as this year, and yet the community is prosperous and there are now few out of work. Excessive and undue charity is the form in which we are giving away to socialism.

The rich receive hundreds of begging letters daily, and generally turn such appeals over to a secretary hired for the purpose. Now it has come to the point that the well-to-do are harassed at every turn until a man with an ordinary income—say, of a thousand dollars a month—is easily expected to give five hundred or a thousand a year to these miscellaneous charities. Some of them doubtless are worthy, but many of them are doing the work for which others were organized, and all are clamoring for building funds, endowments, or running expenses.

An amusing story is told of the way patronesses were secured for one of these charitable affairs which was in aid of a young ladies' seminary. The alumni of this particular school is a powerful body, and they were working tooth and nail for the success of the affair. They wished, naturally, to get a good list of patronesses—for each one of these charities is blissfully oblivious of the fact that any other charity has asked for anything at all this winter—and among the ladies asked was one who had removed her daughter from the school because, as she wrote to the principal, she had lost all confidence in the school. This particular lady was among those asked to sponsor the entertainment, but rather than go into all these naturally unpleasant details, she allowed the thing

### NEW YORK'S NEW THEATER IS A SUCCESS.

Contrary to expectation, New York's New Theater, which is an endowed house, not run on merely commercial principles, has been a success. The place has made money despite certain architectural disadvantages, for the auditorium, it seems, is too large for dramatic offerings. The house is to be (Continued on Next Page.)

## FINE, NEW TRACT OPENS TOMORROW

Every Indication of a Big Demand for This Moderately Priced Property.

"Eastlawn," the magnificent subdivision of forty-foot residential lots on East Fourteenth street and Seminary avenue, Oakland, is to be formally opened tomorrow by the Frank K. Mott Co.

The sale of this property has attracted attention throughout the entire State and hundreds of buyers are arranging to secure holdings. It is the only place that was ever offered in Oakland at moderate prices, furnished with high class street and tract improvements and protected by building restrictions. Lots are to be sold at an average price of \$12 a front foot while the improvements are of the character generally supplied with property selling at \$30 and \$50 a foot.

All of the street work is being done under the supervision of the city superintendent of streets, five foot cement sidewalks, gutters, curbs, sanitary sewers, cross walls, man holes, lamp posts, storm towers, gas, water and electricity are all provided and included in the price.

"Eastlawn" is destined to break all the records in the State from a standpoint of popularity, said E. B. Bull, manager of The Frank K. Mott Co., today. "Never before have such splendid and costly improvements been furnished at such low prices per front foot. The tract is right on the car line with fare to Oakland, Alameda or Berkeley. It is within two blocks of the Southern Pacific railroad and arrangements are now being made for a station for commuters to San Francisco. It is within the city limits of Oakland, enjoys fine police and health protection and is close to good schools, stores, etc."

"The great feature, aside from the low prices and the splendid quality of the improvements is the building restrictions which we incorporate on each deed," continued Mr. Bull. "Every house must cost at least \$1500. There will be no garages, no sheds or out buildings. In fact we have planned "Eastlawn" for a portion of the city plan which is to follow us in Los Angeles. In making our prices so low we leave the buyer margin enough to build, and building is what we wish to encourage."

Mr. Bull stated that hundreds of people were calling at both the San Francisco and Oakland offices for information and that he expected the sale today and tomorrow to be the greatest that was ever held in this part of the State.

### Urge Recovery of Railroad Lands

WASHINGTON, April 30.—Senator Chamberlain yesterday introduced a resolution calling upon the Attorney-General to exercise dispatch in prosecuting suits to recover lands in Oregon granted to railroads and disposed of or offered for sale in violation of law. The resolution recites that in one year there are 2,300,000 acres unsold and in another 100,000 acres sold in violation of the law.

Proceedings were begun under a recent resolution to recover the lands, and the resolution states the suits have been allowed to drags through the lack of attention by the Government agents. It recites also that no suits have been brought for the recovery of lands under military road concessions, and that all of these lands under the several grants are now controlled by the Harriman railroads.

**ONE CONDUCTOR WHO WAS CURED.** Mr. Wiford Adams is his name, and he writes about it: "Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and the third bottle put me on my feet and I resumed work as conductor on the Lexington Ky. street railway. It gave me much relief and strength. I have never used it and it will do all you claim in case of rheumatism." Foley's Kidney Remedy cures rheumatism by eliminating the uric acid from the blood. Wishart's Drug Store.

### Many Accept Bids for Novel "Shirtwaist" Dance Tonight

NELLIE HATCHER, one of the pretty girls who worked hard for the success of "Shirt Waist" dance.

A novel "shirtwaist" dance was given by the members of the So-Tuna Club at Maple Hall last night. The organization which is composed exclusively of young ladies is one of the most popular of the younger social bodies.

Miss Ethel Hatcher, president of the club, who is chairman of the entertainment committee, opened the dance, leading the grand march with George Schmitt. She was assisted as hostess by Miss Teresa Schmitt, secretary of the club, and Miss Helen Petersen, who holds the office of treasurer, and by Miss Nellie Hatcher.

The hall was effectively decorated in spring foliage and flowers for the occasion and the dancers made merry beneath a bower of incandescent lights which were artfully concealed in the decorations overhead. The music was furnished by a stringed orchestra.

by Miss Teresa Schmitt, secretary of the club, and Miss Helen Petersen, who holds the office of treasurer, and by Miss Nellie Hatcher.

(Continued from Preceding Page.)

changed to make the auditorium smaller and to provide a greater number of cheap seats for the intelligent New York populace also wishes to see the offerings at this theater.

The first play billed was Shakespeare's "Antony and Cleopatra," with Sothern and Marlowe, which does not seem, from all that one can hear, to have been a success, either artistically or financially, though the piece was beautifully staged and it must have been a treat for lovers of Shakespeare. The

next thing is an American play—

which is a play written by an American called "The Cottage in the Air," and based on the charming book by the author of "Elizabeth and Her German Garden," and called "The Princess Priscilla's Foothnight." The play was not a success.

Subsequent offerings, however, including a piece called "The Nigger," and another called "Strife," have been great successes, and the latest play in which Edith Wynne Mathison appeared, has created a furor, and has ended in the permanent detention of Miss Mathison as one of the actresses of the theater.

**SALOME NOT POPULAR IN SAN FRANCISCO.**

Despite San Francisco's reputation as a wide-open town, the "Vision of Salome" was not popular there, and almost everyone who had raved over Maud Allan the week before, regretted sincerely that she had done the dance. Many blamed her for giving it in San Francisco, under the circumstances.

That, it seems to me, is doing the

dancer an injustice. Miss Allan did not wish to do Salome there. She said she feared she might be misunderstood, and during her first engagement she steadfastly refused to give the famous dance. But the public demanded it. The box office was besieged by people who wished to see the dance, and everyone was demanding to know where and when it would be given. The result as that the opposition of the dancer was borne down, and she was induced to give the dance.

Now people don't like it. Well, they have seen it, and they have no one to blame but themselves. Everyone says

that the dance is horrible, and yet they say that it is the most wonderful bit of pantomimic work they have ever seen. Miss Allan gave the dance at two evening performances, and again at the matinees at the Orpheum on Friday morning. She will not, however, include it in her farewell to her home city on Sunday afternoon. I am told that Miss Allan receives four thousand dollars a week for her dancing.

**SOCIAL EVENTS OF THE WEEK.**

There has been very little socially this week. Last week end Mr. and Mrs. Andrew Welsh entertained Mr. and Mrs. Henry Foster Dutton and Mr. and Mrs. John Drum, at their San Mateo home.

Mr. and Mrs. H. M. A. Miller are going on with their series of dinner parties at their home in Ross, most of them taking place on Wednesday evenings.

Bishop and Mrs. William Ford Nichols gave a small reception at the Episcopal residence in Webster street on Wednesday evening, the guests of honor being Dean and Mrs. J. Wilmer Gresham of Grace pro-cathedral. The invited guests included the members of the chapter and their wives and the members of the committee of the pro-Cathedral, which corresponds to a vestry, and a few of the leading Episcopalians about the bay. The affair was very charming and informal, and acquainted the Greshams with some of their new friends. Miss Claire Nichols and Mrs. Lonsdale assisted in receiving the guests.

**CARDS ARE OUT FOR LUNCHEON.**

Cards are out for a large luncheon and bridge which Mrs. Henry Rosenfeld will give at the St. Francis Monday, May 16. The luncheon is at half past twelve, to give a long afternoon for bridge afterward. Mrs. Rosenfeld's large party last spring was a delightful affair, and, as she is a clever and thoughtful hostess, this one will be no less enjoyable.

**MISS SIMPSON'S ENGAGEMENT.**

The engagement announced this week of Miss Edith Simpson and Roy Pike, while it did not occasion a great deal of surprise, not being unexpected, has caused a pleasurable flutter of excitement. She is charming, handsome, talented and very independent.

Her father is the lumberman, and her mother died a year or so ago. Miss

Simpson is the close friend of Mrs. Larry Harris (Uncle King), and is her bridesmaid. Miss Simpson is at present in New York with Mrs. Fuller, Mr. Pike's sister, whose engagement was also recently announced.

### CROCKER IS BUSY; CAN'T TAKE TRIP

Trustee of Hillsborough Is Tied Down by His Political Duties.

SAN FRANCISCO, April 30.—The burdens of political warfare have fallen heavily upon the shoulders of Charles Templeton Crocker, city trustee of Hillsborough, millionaire, clubman and motor enthusiast, who is prevented from taking a trip to Europe until such time as he can gain the consent of the board of trustees of the town to do so.

Being an office holder has already curtailed the plans of the young clubman who wants to be mayor of the "Municipality of Millionaires" and at the same time make his usual tour abroad.

Crocker has consulted his political counsel to ascertain whether his constituents would object if he neglected the duties of office for several months.

But opposition to Crocker's departure comes from a different source.

His trustees have informed the chairman that they are opposed to granting him a leave of absence at this early date in the history of the model town, and that he should devote his energy to governing Hillsborough and formulating laws looking toward the betterment of the community.

Henry T. Scott, the Rev. W. A. Brewster, George A. Howard and Norris Davis, members of the Hillsborough board of trustees, are said to have advised Crocker against taking a vacation.

Under the law, the millionaire trustee can absent himself from the city for a period of less than sixty days without the consent of the city trustees.

The Hillsborough trustees will probably hold their first meeting next week at the El Cerrito Clubhouse, when a mayoralty will be selected.

### MILLS TO CLOSE UP Pending Stock Deal

SAN FRANCISCO, April 30.—Oscar Mills, as executor of the estate of J. O. Mills, was granted permission by Judge Carroll yesterday to complete the purchase of two blocks of shares his father had contracted to buy. The stocks in question and the amounts due are: On 1937 shares of the Bellington Terminal Railway Company, \$39,110, on 56,250 shares of the Nevada Petroleum Company, \$1,157, again by John Flinnoy for \$175 for legal services was also allowed by the court.

## Woman to Impersonate Venus

Hazel Cox to Lead Cast  
in Production of  
"The Skylark."

NEW YORK.—Hazel Cox, one of this city's most beautiful women, has been chosen to impersonate Venus in "The Skylark." When that play is staged it is expected the worshippers of the peerless marble that has awakened the fires of art inspection for centuries, will increase threefold in numbers.

Here is what Auguste Rolin has to say of Venus:

"The sea source of all primeval powers, formed thee. Thou leadest us and rulest us in thy charm and by that repose which alone exerts true power."

From the furthest ends of the earth the crowds stream forth to admire their wondrous marble in the enveloping twilight of the hall. Still dost thou hear our weeping cries of applause, oh, undying Venus! Once beloved of all the contemporaries now dost thou belong to us, to the Universe.

From amid the rear of great cities, poets, designers, the greatest artists thank the for many moments of happy refuge. All bewildered, thou standest before their eyes as the unclothed. Time has merely shown its helplessness.

Time has merely shown its helplessness.

Thou art no useless, fruitless statue, picture of some imaginary goddess of the empyrean. Ready for action thou breathest, thou art WOMAN—and that is thy glory.

Venus de Milo, the wonder-working sculptor who fashioned thee endoweth thee with their breath of generous Nature, giving thee the axe of life itself—thine, Venus, triumphal gate of Truth, Crown of Grace! What beauty is in thy shaped torso so firm upon thy strong limbs and in the half shadows that shimmer over thy breasts and beauteous body broad like the sea. True, thou art really Mother of Gods and Men.

To Venus de Milo is reflected in all the others of antiquity, each one has taken from her this or the other immortal beauty.

In one, that is bare of all clothing, the deepening shadows make the flesh pulsate the more voluptuously, the blush a real pillar of life is in the fullest sense of the word vibrant with warmth.

The shadow as worked out by the artist is like a tunic, which covers some features and reveals others. When more closely studied it is seen that all those different shadow-tints are underscored by a single dark line, a line of strength.

It is to be noted that all the antique masterpieces are executed thus. For this reason they give us an impression of soft completeness and lasting power.

When I do place the effect of these shadows as an actual blasphemy against Nature. They are no longer elegant, but are merely hard and poor. Besides, broad effects are the greatest. The Venus de Milo especially owes its powerful effect to this breadth. There is no shock approach her step by step and you are convinced that she was modeled little by little as if by the ceaseless labor of the sea.

It is not what the ancients meant when they said that Aphrodite rose from the sea? And really their sculptures which were made according to the laws of Nature, and worked out under her guidance, have managed to express in faultless perfection the limitless majesty of life."

LADIES SEVEN-GORED SKIRT  
Tribune Pattern No. 3221

All Seams Allowed

The pictured model presents a design which will give to the figure the long slender lines which are now so fashionable, this effect being gained by the close-fitting seven gored which continue without fullness save at the center back, where an inverted box plait is formed, to below the knees; then a plated seam is attached, giving a flare at the foot. The front gore forms an unbroken panel from belt to hem. White cotton poplin is the material pictured, but the design is also suitable for development in Panama, brocade, organdy, muslin, voile, lace, duck, cotton, diamonds or Bedford cord. The pattern is in 5 sizes 22 to 30 inches waist measure. For 28 waist the skirt requires 54 yards of material 36 inches wide, with nap; or 4 yards 36 inches wide without nap. Width of lower edge about 4 yards.

Price of pattern, 10 cents.

HAZEL COX, selected as a model Venus of this century.

## SOCIETY

ORI than one hundred guests have been invited to the banquet to be held in the suite of Mr. Henry Parker, Jr., at the St. Francis Hotel San Francisco, May 16. The elaborate menu will be followed by a session of bridge.

### MRS. HIGH TO ENTERTAIN

Mrs. William H. High will preside at a luncheon to be given at her handsome new home in Van Buren avenue, May 11.

### BIRTHDAY PARTY

Little Miss Fannie Huntington celebrated her twelfth birthday anniversary Thursday at her home in Fifty-sixth street. The afternoon was spent with Miss Anna Tracy, Clarence C. Crum, and other friends. On Tuesday morning, April 26th, at St. Patrick's church, that music and games. Instrumental duets were given by Edith Thomas and Elsie Keefer, after which refreshments were served.

### VISITING IN DUNSMUIR

Miss Florence Blackington has gone on a short visit to Dunsborough, Northern California, to summer in Alaska.

### ENTERTAINS SEWING CLUB

Miss Ethel McKee entertained the members of a sewing club of twelve girls today at her home in Magnolia street.

### OAKLANDERS AT BALL

The grand ball of the California Lumber Association was held on Wednesday evening at the beautiful million dollar Hill Club just west of the

## WHAT WOMEN ARE DOING

The queen of Holland is one of the tallest of European queens. Like Queen Alexandra, she is an enthusiastic photographer, and wherever she goes she takes her camera with her. One day, a few months ago, her majesty saw a peasant woman carrying a pretty baby. She photographed them both, and on parting with them she shook hands with the mother and kissed the child. As head of the house of Orange Queen Wilhelmina possesses great wealth. Her large fortune was mainly acquired by King William—the first sovereign of the present dynasty—who was placed on the throne of the Netherlands by the Congress of Vienna, after the fall of Napoleon Bonaparte in 1815.

The clubwomen of Georgia are arranging to introduce a bill in the legislature asking for compulsory education through the primary grades. The clubwomen propose to establish more modern schools as fast as they can gather the necessary funds and thereby bring elementary education within the reach of all children in the State. They will also try to have the State establish more schools in the mountain districts.

Mrs. Margaret Solonka, widow of the Dutch scholar, Dr. Emili Solonka, has been chosen to lead a scientific expedition that will soon start for the island of Java. The expedition is backed by the Dutch government and the Berlin Academy of Science. Its object is to continue the researches of Dr. Dubois.

Even if you have been so careless as to let a small misunderstanding grow into a monster by neglecting to clear it up promptly, do not go around mourning over it. Be glad you have sufficient force of character left to rid yourself of the hobby.

"How shall I do it?" you say. Just lay aside your pride and your cowardice, walk right up bravely to your sweetheart with whom you have quarreled and have it out with him or her.

ANOTHER ANXIOUS GIRL.

Dear Phyllis—I am 19 years of age and am deeply in love with a young man two years my senior. He works in the same office that I do and comes to me every day to talk business to communicate to me. He always has a long talk with me. Several occasions he brought me flowers. I did not want what I accepted, but I did not want to offend him, but I did not know if he was proper. Now of late he has acted as though he wanted to call on me, but is afraid to do so. I am not afraid to go to him, but I am not sure that he is not. I do not know if he is still in love with me.

Just lay aside your pride and your cowardice, walk right up bravely to your sweetheart with whom you have quarreled and have it out with him or her.

ANXIOUS.

**Five Liveried Guards  
for This Prize Hen**

STOCKTON April 29.—Peng, a hen  
the owner values at \$1,000, is the  
big feature of a \$1,000 contest to  
be given next Nov. 10 by the San Joaquin  
Poultry Association, which has al-  
ready concluded arrangements and  
expects to post the largest sum ever  
offered for a hen in the West. This con-  
test is to be given at the fair grounds in  
Kansas City, Mo., Oct. 10, at the South West  
Canning Fair.

She has won a competition at a few  
shows in the West, and was the  
guard's "pet" for a while. At the last  
show, however, she was beaten by the  
show's champion hen, which was  
the show's "pet." Peng, however,  
and was unseated by the guard, who  
exhibited her in the crowd. Peng, who  
was blind in one eye, was the star.

# Six Gushers in the Midway Oil Field Increase April Production

## PACIFIC STATES HIT INTO BIG FLOW OF OIL

Well Under Beam Is Putting Up  
Five Hundred Barrels  
Per Day.

## MANY DRILLS ARE DOWN IN THE OIL SANDS

Coalinga District Is Making  
Great Showing in  
Production.

COALINGA, April 30.—No. 1 well  
of the Pacific States Petroleum Company  
on 6-21-15 is doing from 500 to  
600 barrels a day on the beam. It was  
brought in this week, and outside of  
the big performers it is one of the  
best wells in the district.

OTHER WELLS.

Reports from the other companies  
report great activity, and scores of  
drills are entering into the oil sands.

The Aztec Oil Company, 7-20-15,  
has completed well No. 1, and is now  
on the beam making 100 barrels per day.

The Arizona Petroleum Company,  
14-20-14, has completed well No. 6  
and will be on the beam Monday.

The St. Clair Oil Company, 12-20-14,  
has completed well No. 4 and performed  
casing. Will be on the beam  
Monday.

The New York Coalinga Oil Company,  
6-20-15, has completed well No.  
7, which is now on the beam and  
producing.

The Associated National Thirty Oil  
Company, 22-19-15, has rig up well  
No. 7 completed, is ringing up. There  
are seven wells now producing on  
this 30 acres.

## Santa Fe Plans to Build Own Pipe Line

SAN BERNARDINO (Cal.), April 30.—The Santa Fe Railroad plans to  
build a six-inch ruled pipe line de-  
signed to convey fuel oil from the  
Ondina fields to San Bernardino, ac-  
cording to an announcement here. The  
line will be forty-eight miles in  
length, and will involve an expenditure  
of \$300,000. The company now  
hails its oil in this city in tank cars.  
This method involves a heavy expense  
in view of the enormous quantity of  
oil transported annually.

## Forty-Eight Rigs in Devil's Den District

HANFORD, April 30.—S. D. Mont-  
gomery reports that he counted about  
forty-eight rigs in the oil fields in the  
vicinity of Devil's Den town. The  
wells are mostly capped, and average  
from 160 to 1500 feet in depth.  
The prospectors have found oil and  
proven the mineral character of the  
land. He says Devil's Den is a town  
of one good hotel, several other places  
and about forty houses, and is  
coming back to gather teams in  
the Sunflower Valley and on the Kest-  
rel Plains, hauling material for  
more rigs, also supplies.

## Cosmo Company Down in Oil Bearing Sands

HANFORD, April 30.—Judge Karr and  
C. L. Barron of Hanford report that  
the Cosmo in the Devil's Den country  
is gone into the oil sands at the 1000'. They are interested in several proposi-  
tions around the Den and declare that it  
will be the coming country.

## Aged Vatican Rector Dies in Pope's Arms

ROME, April 30.—A typical figure of  
the Vatican passed yesterday with the  
death of Monsignor Giuglielmo Pifferi,  
who had been the sacristan, or parish  
priest, of the papal apostolic palace since the  
time of Pius IX.

The aged rector died in the arms of  
the pope, who had come to the bedside  
yesterday, learning that the end was near.  
The monsignor had served for fifty years  
under three popes.

The post of sacristan has existed for  
several centuries and is always conferred  
upon an Augustinian.

## Charter Makers Are to Name Candidates

A meeting of the delegates to the  
Charter Convention is called for Mon-  
day night at the Hotel Assembly Hall.  
The important purpose of the convention  
is to nominate candidates for the  
ten franchises to be chosen at the  
election of June 6.

The convention adopted its platform  
and the pledge of its nominees last  
Wednesday night. A full attendance  
is urged.

Always  
have a tonic in your home

By using it consistently, a good tonic is the greatest  
insurance against the ravages of many diseases that often  
result fatally. This is where forewarned is forearmed.

## Pabst Extract The Best Tonic

is accepted in all parts of the world as the standard of malt tonic value  
—it is the essence of absolute purity and nature's greatest  
aid to health. It is a predigested food in liquid form,  
containing the tissue-building properties of rich barley  
malt and the rare toning elements of the hopulin from  
choice hops combined in most palatable form.

The United States Government specifically  
classifies Pabst Extract as an article of  
medicine—not an alcoholic  
beverage.

Order a dozen bottles from  
your local druggist.  
Insist upon it being Pabst

## DEEPER STRATA IN SUNSET FIELDS

Pacific Company's Operations  
Show Other Oil  
Sands.

## BORING FOR OIL IN VISALIA FIELD

John Frans' Ranch Bonded by  
Company for \$500 an  
Acre.

VISALIA, April 30.—It is stated on  
good authority that the ranch of some  
480 acres six miles southeast of Visalia  
belonging to John Frans has been bonded  
by a company for \$500 an acre, for the  
purpose of boring for oil.

BAKERSFIELD, April 30.—Developments  
now under way on the property of the  
Pacific Coast Oil Company have re-  
vealed the existence of a deeper strata  
of sand than heretofore known in the  
upper part of the Sunset district. This  
discovery was made on the south half  
of the southeast quarter of section 34,  
12-24. All the wells heretofore drilled in  
this neighborhood were from 500 to 800  
feet deep, but below that the drillers  
found water and did not venture farther.  
The Pacific Sunset Company has gone  
through the water sand and found another  
strata of oil sand at a depth of 1080 feet.

The second sand was explored to a  
depth of 200 feet, when the gas pressure  
was so strong that work on the well  
was stopped, owing to the danger of the  
reversal of the oil in case a gusher is  
developed. The immediate result of the  
strike has been to cause the Harford  
Santa Oil Company to start deeper  
drilling on its twenty-acre tract in the  
northeast quarter of section 3, 11-24, and  
on the southeast quarter of the same section.  
Other companies will drill on the west  
half of section 3, and on other lands  
which lie above the outcroppings of the  
first oil sand, and which according  
to the traces of the outcrop, outcrop  
at a mile or two farther back in the hills  
are the traces of the second outcrop, and it  
is now believed that this may be the  
upturned edge of the deepest strata to the  
Pacific Sunset. The Pacific Sunset  
well is about a mile and three-quarters  
southwest from the Lakeview well, which  
struck the gusher sand at 2255 feet.

Mr. Frans was not in town today, but  
it is understood that he has expressed  
himself as perfectly content with the ar-  
rangement whereby he may get a good  
water well if nothing is found of the  
lighter fluid.

Charles Gregory of Porterville, a borer,  
who has been doing some work in the  
Devil's Den, will do the drilling, it is  
stated. He recently obtained a device,  
patented to indicate on the surface the  
presence of oil underneath. This device  
used in the Frans place, it is said, has  
pointed strongly to oil below. Acting  
upon the advice of the apparatus the  
company will put down a well.

Mr. Frans was not in town today, but  
it is understood that he has expressed  
himself as perfectly content with the ar-  
rangement whereby he may get a good  
water well if nothing is found of the  
lighter fluid.

The company is not composed of Vi-  
gilia parties, but it is said that capital in  
some of the valley towns north has been  
interested.

The same parties, it is said, are plan-  
ning to do the same thing in some distance  
east of Bakersfield, where there are reported  
to be good surface indications. The well  
near Visalia may be commenced in the  
near future.

## UTAH FIELD HOLDS FORTH PROMISE

Oil Indications Are That It Is  
an Extensive District.

COALINGA, April 30.—H. A. Pitts,  
general manager of the Coalina Utah  
Exploration company, has located several  
sections in the fields of Eastern Utah.  
It has been recently discovered by Mr.  
Pitts and A. C. Dennis, geologist, whose  
reports show it to be a great field on account  
of there being two oil sands exposed  
on the anticline. The first being 400 feet  
below the surface, and the second sand  
is 110 feet thick and lies 600 feet below  
the first sand, both sands being highly  
impermeable with oil, showing previous  
seepage. Mr. Pitts has drilled a hole  
into the second sand, showing five oil  
samples as sound as a rock. I eat and enjoy my  
meals, and my general condition is greatly  
improved. I can honestly recommend  
Pope's Kidneys, as I know they have  
cured me. —Wright's Drug Store.

THE SOUND SLEEP OF GOOD  
HEALTH.

The restorative power of sound sleep  
cannot be overestimated, and any ailment  
that prevents it is a menace to health.  
After a long time I have been able to  
sleep soundly again, because of pains  
across my back and soreness of my kidneys.  
My appetite was very poor and my  
general condition was much run down.  
I now have a good appetite, and my  
general condition is greatly improved.  
I can honestly recommend Pope's  
Kidneys, as I know they have  
cured me. —Wright's Drug Store.

OIL NOTES

The Southern Pacific Railroad Company  
announces the construction of a ten-inch  
gas pipe line from Bakersfield through  
the Tehachapi mountains to Mojave, the cost  
of which will be in the neighborhood of  
\$1,000,000. There will be large numbers  
of tunnels covering the most rugged portions  
of the mountains, and the success-  
ful completion of the project will  
enable the company to pump oil  
from the wells along the line to the  
gas tanks over the steep mountain  
slopes.

The Santa Fe Railroad Company has  
also undertaken a similar line in the Kern river  
district. It is reported that the cost  
of the line will be \$1,000,000.

Several wells are now being drilled in the  
Kern river district, and the company has  
been engaged to furnish the equipment.  
The new line will be completed in July.

The Central Oil Company, in the Whit-  
tier field, is proving so successful that  
they are now engaged in the construction of  
a line to Los Angeles.

It is reported that the Ideal Oil Com-  
pany is also engaged in the construction of  
a line to Los Angeles.

It is reported that the Standard Oil  
Company is also engaged in the construction of  
a line to Los Angeles.

It is reported that the Standard Oil  
Company is also engaged in the construction of  
a line to Los Angeles.

It is reported that the Standard Oil  
Company is also engaged in the construction of  
a line to Los Angeles.

It is reported that the Standard Oil  
Company is also engaged in the construction of  
a line to Los Angeles.

# CHARTER PLATFORM IS READY FOR FREEHOLDERS

Officials Chosen at Polls All  
to Be Subject to the  
Recall.

## MUNICIPAL OWNERSHIP OF UTILITIES DEMANDED

Police and Fire Governors Will  
Be Under Rules of the  
Civil Service.

At a meeting of the Greater Oakland Charter Convention held Thursday night at Chabot observatory, the following freeholders' pledge of the charter convention was unanimously adopted:

"While this convention recognizes the fact that its action relative to the provisions of the charter must of necessity be advisory merely, its nominees for freeholders shall be pledged to submit to popular vote the adoption of the City of Oakland as a charter following in general the lines and principles enunciated in the general platform of this convention, and no frame of government of this convention, or any amendment thereto, shall be adopted unless it is agreed upon by a majority of the members of this convention, shall nevertheless be pledged to give due consideration to the recommendations of this convention, and to sustain such a proposal. In the proposed charter, among others, the following principles approved by this convention, to wit:

### COMMISSION BOARD.

The city to be governed by a board of commissioners elected at large by the people, and the commission to appoint all subordinate city officials. "The commissioners shall consist of an elected board chosen at large and not to be merely one of the departments of the commission government. All nominations to be made by non-partisan petition of at least one hundred (100) qualified electors and no party designation to appear upon the ballot at any election. The dual election plan to be followed substantially as outlined in the general platform of this convention. All elective officials, including the members of the board of education so far as it may be legally possible, to be subject to recall upon petition of a sufficient number of the voters to fifteen (15) per cent of the votes cast for auditor at the preceding general election. The board of commissioners and the board of education to be seated at one and only half (1/2) of the members of each board as nearly as possible, shall go out of office at the same time, thus insuring the fact that at all times practically one-half (1/2) of each board will be held over.

### MUNICIPAL OWNERSHIP.

"Proper provision to be made authorizing the commission the acquisition of all public utilities by the city either alone or in co-operation with other municipalities, and also insuring to the people an opportunity to either accept or veto the acquisition of all franchises by the city. The charter to contain appropriate provisions guaranteeing and safeguarding municipal ownership of the waterfront. The right of referendum to be exercised by the charter and to be exercised upon petition of qualified voters of the municipality equal in number to ten (10) per cent of the voters at the preceding municipal election.

"The improvement club and the police and fire commissions shall be under Civil Service rules."

Chairman Ingram announced at the opening of the meeting that debate would be confined to three minutes, if such were the will of the convention. The delegates agreed to this plan.

The platform committee recommended the addition of several sections to the tentative platform, as originally adopted. After some discussion, and with an amendment offered by Mr. Brooks to section twenty-one, the convention approved the following addition, as suggested by the committee:

Section 20—Suitable provision shall be made insuring the fact that no portion of the city's water front or the property appurtenant thereto shall ever be in any way alienated or disposed of, and the rights of the city in and to all water front and wharf property, including land, parks, highways and other places shall be inalienable.

Section 21—The charter shall provide for maximum limit upon the life of all franchises given by the city and for the reservation of the right to the city under proper limitations and conditions to re-purchase all franchises.

The amendment offered to the above motion by Mr. Brooks, and adopted, reads:

"That all franchises hereafter granted to transportation, water, gas, lighting, telephone and other public service corporations shall be subject to the right of the city to compel extensions of service in such directions and at such times as the needs of the city may require."

Section 22—Provision shall be made for the publication, either through the news papers or in pamphlet form for general distribution, or in other suitable manner, and not less frequently than annually of detailed reports of the finances and financial condition of the city and of all receipts and disbursements.

### EXCLUSIVE PRIVILEGES.

Section 23—No exclusive privileges shall ever be granted to any property lying beyond the line of mean low tide nor shall any structure be erected, so as to prevent the construction and operation of belt lines of railways along the water front. Proper provision shall be made whereby no franchises or permits of any kind or character shall be issued nor shall any transfers, agreements or any other action whatsoever by the city be taken which will in any way prevent or interfere with the construction and operation of belt lines of railroads along the water front of the city. All railroad franchises and permits over waterways lying beneath the waters of San Francisco Bay or arms thereof shall be subject to the rights of other railroads to use the same upon payment of reasonable compensation and subject to suitable regulations.

Section 24—Suitable provision shall be made for the exercise by the people of what is known as the rights of initiative and referendum and both the initiative and referendum shall be operative upon petition signed by qualified voters equal in number to ten (10 per cent) per cent of the electors who actually voted at the last preceding general municipal election, provided that a petition signed by electors equal in number to five (5 per cent) per cent of such voters shall be sufficient to exercise the initiative for the submission of any question to a vote of the people at a general election."

### ASKS FOR TIME.

The nominating committee did not submit a list of freeholders Thursday night, from which the convention will make selections, but asked for further time, stating that in all probability the report would be ready for the convention next Saturday evening.

# BERKELEY COUNCIL FIX WATER RATES

Same Charge to Be Levied as  
That of Last Year;  
Plant Inspected.

BERKELEY, April 29.—Despite protests on the part of a number of improvement clubs in Berkeley, and the threat on the part of two organizations to initiate proceedings under the powers granted in the Berkeley charter, the city council of Berkeley this morning instructed City Attorney F. D. Stringham to draw up an ordinance fixing the water rate at the same charge as that for the past year. The action follows an exhaustive inspection of the plant of the Peoples Water Company, and an investigation of the receipts and expenditures in the Berkeley system. It was hoped by many subscribers in Berkeley that the rate would be reduced by the Central Improvement Club that should be invoked against the company.

The action, however, is not final, as the company has not yet passed. It is considered that it indicates that a decision had been reached by the council not to reduce the rate, and that it will be passed in the form outlined this morning.

The old rate fixes the minimum at \$1.50 a month to each subscriber, the basis being \$2,000 gallons for the month, and the rest of the rate is charged for the first 35 cents for each 1000 gallons.

The hydrant rate remains the same, also, in accordance with the proposed ordinance.

"While this convention recognizes the fact that its action relative to the provisions of the charter must of necessity be advisory merely, its nominees for freeholders shall be pledged to submit to popular vote the adoption of the City of Oakland as a charter following in general the lines and principles enunciated in the general platform of this convention, and no frame of government of this convention, or any amendment thereto, shall be adopted unless it is agreed upon by a majority of the members of this convention, the nominees of this convention shall nevertheless be pledged to give due consideration to the recommendations of this convention, and to sustain such a proposal. In the proposed charter, among others, the following principles approved by this convention, to wit:

"The old rate fixes the minimum at \$1.50 a month to each subscriber, the basis being \$2,000 gallons for the month, and the rest of the rate is charged for the first 35 cents for each 1000 gallons.

The hydrant rate remains the same, also, in accordance with the proposed ordinance.

## MCARTHY NOT FITTED TO COPE WITH OWEN MORAN

Undeveloped Boy Should Not Have Been Pitted Against Veteran of Ring, Declares Critic

By EDDIE SMITH.

**O**VERMATCHED and incorrectly trained for a severe test of fighting power, Tommy McCarthy, one of the favorites of the San Francisco boxing fraternity, entered the ring to give battle to Owen Moran in a twenty-round boxing contest last night at the Dreamland Pavilion and the result of the contest is indeed a sad one. Although badly overmatched and out of practice, an opportunity to win, McCarthy was trying all times to turn the tide of battle with a left hook to the body. At no time was he in a bad way, however, and at the end of the contest he was in a comparatively fresh condition. That is, he was leg weary and his arms hung heavily at his side, but he had not received any severe punishment to speak of at the end of the contest there was little to be feared in the matter of a beating.

The early game of the beginning of the sixteenth round was brought about in the following manner. Both men walked to the center of the ring and raising their guard advanced within striking distance. Moran had been working with his left hand throughout most of the contest, with an occasional jab for the head with the right. Owing to the inexperience of McCarthy he had been at sea every time Moran feinted at him and with each feint he threw open his guard in such a manner that the shifty little Britisher had a clear way for the landing of a punch.

HOW THE PUNCH LANDED.

In the sixteenth round Tommy had tried noticeably and was none too lively on his feet. Moran feinted as the men came together and opened up his guard by throwing both hands up to the chest. McCarthy, swinging his fist and Moran using a straight counter from the shoulder.

MCARTHY SCORES KNOCKDOWN.

In the thirteenth round McCarthy received a peppering at the hands of the Englishman, but it just did not seem to fit in a regular manner. McCarthy let go with a right-hand swing that brought Moran to his knees. The Britisher was up in a moment and at his next was ready to go showing that the punch had little effect on him. At every angle of the boxing game Moran outdistanced his opponent, and it was save betting at any time after the tenth round that the Britisher would come to grief.

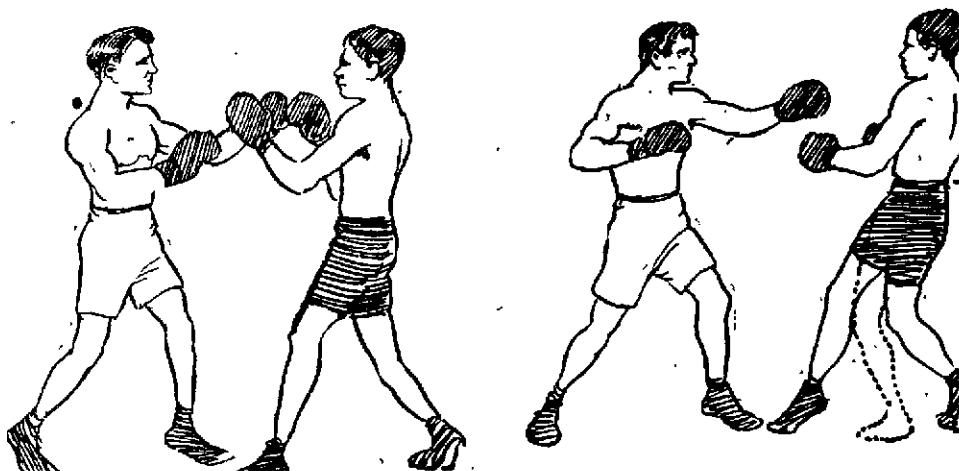

When the final blow did come McCarthy had been subdued by Moran and had apparently lost heart and several times when he had missed with his right swing would look like a drowning man in distress.

McCarthy acted in an amateurish manner at times and one again we are compelled to say that he was ill-advised when pitted against such a veteran boxer.

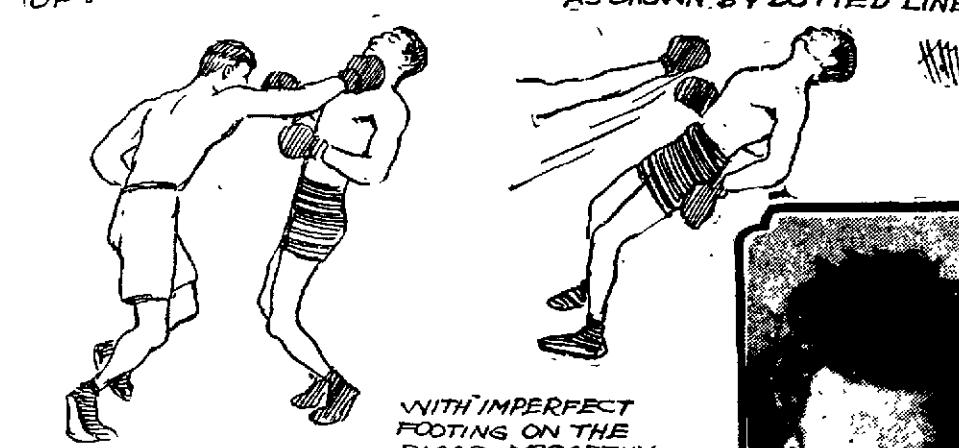

Moran should advance at the same time Tommy stepped back and in so doing he brought both hands up in a straight left lead to the head of the Britisher, but on the whole, he fought with his hands up with great success, this occasionally, McCarthy swinging his fist and Moran using a straight counter from the shoulder.

JACK JOHNSON ARRIVES AND PREDICTS A VICTORY

Jack Johnson arrived last night in San Francisco from Los Angeles and immediately went to the Seal Rock House, where he is to do his training for the Jeffries contest. When reached this morning on the phone, Jack seemed in the best of spirits and talked freely of his condition and chances in the contest.

"I shall start light work in a few days, but will not get down to hard training for some little time," said Jack. "I know just how much work I can stand and no one knows better than myself that two months of active training will send me into the ring stale. I do not want to reduce too much for Jeffries, and would like to go into the ring weighing about 200 pounds if I can. I have never trained more than three weeks in my life, and to put in more time than that at this time would be a bad move on my part."

"The public need not worry about my condition, for I have a great deal more at stake than they have, and I shall be ready to jump into the ring fit to defend the title. The people can judge for themselves from my showing in the ring tonight at Dreamland whether or not I shall be in good condition."

"I want to say that I am very sorry at the ending of the McCarthy-Moran contest, but feel that it is one of the sad endings that must come to contestants in all rough sports once in a while. Men are killed in football, baseball and polo games every once in a while, and the percentage of boxers killed is less than any other game."

Johnson says he will have his automobile here in a few days, and from then on will devote most of his time to riding about the country. Tonight at the Dreamland pavilion, Johnson is to appear with his sparring partners in a boxing exhibition during which the fans will have a chance to see him in action.

ST. MARY'S TRACK MEN SHOW WELL IN MEET

Athletes of Local College Figure Prominently at Gaelic Games.

Hobart, the Olympic Club sprinter, carried away honors in the mile race at the Original Gaelic Dancing Club-Sacred Heart College Athletic Association indoor meet at the Sun Francisco Auditorium last evening. The headliner of the second and third rounds was an interesting one, but it was easy to see that McCarthy was overmatched. Even the shouting of the incomparable Spud Kelly was not enough to bring him into the ring, though the lad he was seconding had been an amateur but highly trained. Moran was in the best condition he has been in since the Attell contest of some little time back, and was world's about the most experienced boxer with the greatest of ease and skill.

The contest was a battle of left hooks, both men using the punch most of the time for the body and head. At the

start of the race both the body and head were used to the steam of his punches seemed to have left him.

ACCIDENT A MERE CHANCE.

Hundreds of other boxers have fallen in the same manner that McCarthy did last night, but it had not been their fate to receive serious injury. In fact, Terry British, one who was trained, fell almost in the same manner that McCarthy did, hitting his head just as hard, but he came to a standstill in a minute and walked off a whole.

During the four years that has elapsed since the Twins affair the chances are that there have been two or three thousand boxers killed in the course of contests during that time. The ending of the contest last night was one of those unfortunate endings that must occasionally come to all rough sports, and can be attributed to the fact that hundreds of dollars were bet at almost even money on the so-called wise men of the ring.

McCarthy was trained by two brothers at the Seal Rock Hotel, San Francisco, neither of whom knew as much of the boxing game as he did, and when he entered the ring it was easy to see that he had left much of his training behind him. Powers and Terry Martin was knocked out in the second round by Jack Davis, who fought several heavy weights in Oakland a few years back. Davis showed well last night and may come to the front again.

The ending of the contest last night was one of those unfortunate endings that must occasionally come to all rough sports, and can be attributed to the fact that hundreds of dollars were bet at almost even money on the so-called wise men of the ring.

McCarthy was trained by two brothers at the Seal Rock Hotel, San Francisco, neither of whom knew as much of the boxing game as he did, and when he entered the ring it was easy to see that he had left much of his training behind him. Powers and Terry Martin was knocked out in the second round by Jack Davis, who fought several heavy weights in Oakland a few years back. Davis showed well last night and may come to the front again.

ST. MARY'S TRACK MEN SHOW WELL IN MEET

Athletes of Local College Figure Prominently at Gaelic Games.

Hobart, the Olympic Club sprinter, carried away honors in the mile race at the Original Gaelic Dancing Club-Sacred Heart College Athletic Association indoor meet at the Sun Francisco Auditorium last evening. The headliner of the second and third rounds was an interesting one, but it was easy to see that McCarthy was overmatched. Even the shouting of the incomparable Spud Kelly was not enough to bring him into the ring, though the lad he was seconding had been an amateur but highly trained. Moran was in the best condition he has been in since the Attell contest of some little time back, and was world's about the most experienced boxer with the greatest of ease and skill.

The contest was a battle of left hooks, both men using the punch most of the time for the body and head. At the

start of the race both the body and head were used to the steam of his punches seemed to have left him.

ACCIDENT A MERE CHANCE.

Hundreds of other boxers have fallen in the same manner that McCarthy did last night, but it had not been their fate to receive serious injury. In fact, Terry British, one who was trained, fell almost in the same manner that McCarthy did, hitting his head just as hard, but he came to a standstill in a minute and walked off a whole.

During the four years that has elapsed since the Twins affair the chances are that there have been two or three thousand boxers killed in the course of contests during that time. The ending of the contest last night was one of those unfortunate endings that must occasionally come to all rough sports, and can be attributed to the fact that hundreds of dollars were bet at almost even money on the so-called wise men of the ring.

# MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

No woman who bears children need suffer during the period of waiting, nor at the time of baby's coming, if Mother's Friend is used as a massage for the muscles, tendons and glands of the body. Mother's Friend is a penetrating, healthful liniment which strengthens the ligaments, lubricates and renders pliant those muscles on which the strain is greatest, prevents caking of the breasts by keeping the ducts open, and relieves nausea, backache, numbness, nervousness, etc. Its regular use will prepare every portion of the system for the safety of both mother and child and greatly reduce the pain and danger when the little one comes. Mother's Friend is sold at drug stores. Write for our free book, which contains valuable information for expectant mothers.

## BABY'S ITCHING SOOTHED AT ONCE

And Soon Cured Perfectly and Economically—Doctor Called it Eczema and Little Sufferer Rubbed and Twisted All the Time.

## CUTICURA AGAIN PROVED "THE GREAT SKIN CURE"

"My baby boy was about nine months old when he had a breaking out on his neck which was very annoying. It used to make him very fretful and cross because it seemed to worry him so much. In the meantime I was sick myself. I had my doctor look at the baby and he told me it was eczema and he wanted to treat it. But a friend of mine said she knew a doctor who could cure it cheaper than any doctor could do it for and in much less time. So I started using the Cuticura Soap and Cuticura Ointment which I soon found out was what I ought to have had before, for the eczema seemed to itch so the baby could not keep his head still. He was rubbing and twisting all the time. I used the Cuticura Soap and it went away in the first day and began to notice the good it was doing for his skin. It was dinging from rubbing his neck so I used three cakes of Cuticura Soap and two boxes of Cuticura Ointment and now no one could tell it. I have had many kind of breaking out and since then I have never been with out the Cuticura Soap nor the Cuticura Ointment. Mrs. Lula Dorsey 12 Brown St. S.W. Washington D.C. Oct 2 1909.

## SKINS ON FIRE

With torturing disfiguring eczema, rashes and other itching burning bleeding, scaly and cracked skin, and especially relieved and speedily cured in the majority of cases by warm baths with Cuticura Soap to cleanse the skin and gentle amountings with Cuticura Ointment, purest and sweetest emollients to soothe and heal the skin.

Cuticura Soap (25c), Cuticura Ointment (50c) and Cuticura Haircoat (60c) (or in the form of Chocolate Covered 25c) per yard of cloth and Cuticura Soap (25c) per box of Cuticura Soap. Price 15c cuticura Ave. Boston Mass. Mail free 32 page Cuticura Book an invaluable Guide to Treatment and Cure of the skin.

Escape From DeathHAYWARD, April 29—Adolbert  
Dealy, an employee of the Castro  
Street garage of this place had a nar-  
row escape from death when the machine  
he was driving Thursday night  
crashed over a forty-foot bank about  
eighteen miles from Livermore. Dealy's  
turn a double somersault, Dealy's  
descent being stopped when his loath-  
ing caught him under a large oak  
tree on the steep bank the machine  
descended upon him and pinning him  
to the wreckage and the tree.The accident occurred about 7:00  
o'clock at night, when Dealy was driv-  
ing a party consisting of W. E. Bowes,  
whose wife is the proprietor of the  
Carlton Hotel in Berkeley, and Earle  
Purdy, on a two day's fishing trip into  
the Livermore mountain country.  
Driving up a narrow road and the two  
men alighted when he attempted to  
cross the stream grade near Bayou  
creek. He was unable to keep the  
road and the machine went over the  
bank before the terrified driver  
could alight.Dealy was removed to his home on  
Main street yesterday. He is suffering  
from four broken ribs, a badly  
crushed abdomen and internal inju-  
ries. The party was accompanied by M.  
Baldwin, manager of the Baldwin  
Realty Company of Oakland, and H.  
G. Dunning, his business associate,  
who is the owner of a large ranch  
near Hayward.HAIR GOODS

Here are some of the reasons why  
**The Kurtzmann Piano**  
at \$335  
is one of the greatest values  
among pianos to-day

BECAUSE the durability of its beautiful mellow tone is unsurpassed by no other piano near its price.

BECAUSE it is built of choicest materials by skilled workmen.

BECAUSE the Kurtzmann—before the public since 1848—is so excellent a piano that the demand has necessitated constant enlargement of the factories.

We make a liberal allowance for used Pianos.

Easy terms of payment if desired.

in Show: Mothers to  
Exhibit Infants.

With a spectacular parade which is to be replete with revelry, the Eagles' Carnival at Fruitvale will open Monday morning, and after the sounding of the first gun of revelry joy is to reign supreme for six long days. There are no breaks in the elaborate program which has been prepared by an entertainment committee of upwards of a hundred of the town's more progressive business men and with baby shows, doll shows, booths, dancing, May fets, and all the hundred and one other modes of entertainment which have been provided, there will be completely supplied for a time at least.

A great deal of effort has been expended in the effort to make the Eagles' carnival a notable one. The six days of merrymaking will be under the supervision of Supervisor W. B. Bridges who has been selected grand marshal and director.

**PARADE TO BE LONG.**

Led by a band of fifty pieces and composed of two large divisions, the parade will start from the corner of Fifty-second street and East Fourteenth and, moving thence toward Fruitvale avenue as far as Putnam avenue and counter marching to East Fourteenth street and Fruitvale avenue.

**Excursion Santa Rosa and Return.**

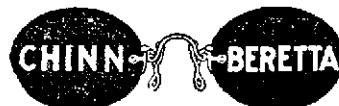

The coronation of Miss Ada Barry, a pretty girl who has been chosen queen of the carnival, sharing the honor by popular vote over a score of competitors, will take place immediately following the pageant. The maidens of honor will be assigned their positions and duties at the same time. Miss Barry's royal robes are extremely beautiful, being made of heavy white satin with roses on a crown. Her head will be surmounted by a crown.

The keys of the suburban district will be handed over to the carnival committee and under flags and flower festoons which have been strung up along the streets the popular will frolic undisturbed by graver cares.

**BABY SHOW FEATURE.**

The baby show is to be one of the features of the big festival and one-hundred little entries will be whirled up and down the streets in official style while the respective merits of each and every dimpled cherub is judged. The contestants will gather at the corner of Lette avenue, each babe appearing in a gauze wheeled by its mother. The judges' stand will be located at the corner of Franklin avenue.

Prizes will be awarded for the most handsome younglings, one for the best all-around babe under one year, another for one between one and two years; one

The only opticians in California manufacturing, in its entirety, the genuine Kryptok lens.

**DEMANDS FORTUNE  
IN DAMAGE SUIT**

Horton Charges Remillard  
Brick Company With  
Breach of Contract.

Claiming that he was discharged in violation of a contract, Edward Horton has brought suit in the Superior Court against the Remillard Brick Company to recover \$35,000 as damages.

In his complaint Horton alleges that in 1906 he and the company entered into a contract under which he was to be employed for a period of ten years, the salary to be \$300 at the beginning and to increase from time to time in stipulated amounts. In addition to the salary he was to receive a percentage of the profits of the business, he alleges.

Everything went well, according to Horton, until last May, when he was dismissed by the company and the amount for which he is suing is based upon what he claims he would have earned in salary and percentages if he had been allowed to continue with the company under the terms of the alleged contract.

**Big Production of  
Wells at Fullerton**

LOS ANGELES, April 30.—In the oil field of Fullerton, the Petroleum Company (Santa Fe) has seven strings of tools at work, one new rig is up, four locations have been selected and forty-five wells are being drilled. The output of oil a day, Denton says, is 2,700 to 3,000 barrels. No. 29 was sunk to a depth of 1,200 feet in the hope of increased production. The effort was a failure, no oil being found below the first production.

**FLANNERY RESIGNS;  
WILL DEVOTE TIME  
TO HIS VINDICATION**  
**Leaves Police Commission Board So as Not  
to Embarrass Mayor McCarthy—Asserts  
Charges Are Groundless**

SAN FRANCISCO April 30—Following his indictment on a charge of grand larceny in connection with the operations of an alleged "fake" pool room at Sausalito Harry P. Flannery, president of the San Francisco board of police commissioners, resigned his office early today, the resignation being immediately accepted by Mayor McCarthy. Flannery, who has been confined to his home by illness, declared that he took this step for the best interests of the city and so as not to embarrass the administration. The charges against him, he asserted were the result of a conspiracy, and entirely without foundation in fact.

No successor to the retiring commissioner is likely to be appointed until after the return of Mayor McCarthy from Washington, where he goes tomorrow to represent the city in the exposition and Hatch-Hetzel projects.

In the meantime the mayor's secretary, Elmore Leftingwell, probably will act as head of the police board.

In his letter of resignation Mr. Flannery declares that he has been made the victim of a conspiracy and in the circumstances of his indictment it is conceivable it is his duty to relieve the administration of the stress placed upon him. He expresses his regard and thanks to Mayor McCarthy and says:

"When I shall have demonstrated that I am wrongfully accused and that the real culprits are the men now seeking my ruin I shall present myself once again for your consideration fully confident that you will stand as a friend and official to vindicate a man who is falsely charged."

It was not until an hour this morning that Flannery indicated his intention to resign. He called up the Mayor and said it was his wish to tender his resignation. It was then too late for the Mayor to give the matter his personal attention and get into it with his private secretary. He instructed the latter to see Leftingwell. It was well after 1 o'clock when Leftingwell reached the Flannery home where he remained over half an hour and then drove directly to the Mayor's residence. Shortly after 2 o'clock Mayor McCarthy announced that the resignation had been accepted.

## INDICTED YESTERDAY

Flannery was indicted at noon yesterday on a charge of grand larceny and put in jail to the amount of \$3,000 on bail. He has so far refused to be able to leave his home and was at his downtown office in the Flannery building this morning. He left the house at 10 o'clock and when interviewed by a TRIBUNE reporter said the following to say as an supplement to his official statement given out last night:

"I think I've covered about all there is to say. I'm defenseless. I've been very sick but I feel a little better. I think I must have had a slight touch of pneumonia, but I'm feeling much better out, attending to business. Of course this is the most outrageous thing I could possibly have been perpetrated."

## HAS NO FOUNDATION

"There is absolutely no foundation whatever for these charges. Why, way back in November I didn't know I was going to be a police commissioner. I didn't know anything about it. How could I have made such promises to Abbott when it was not until January a few hours before the official announcement of my appointment that I knew, for certain that I was going to have a seat on the police commission?"

"Of course, I do not think it proper to criticize the actions of the Marin county grand jury. They probably knew what they were doing and acted as they thought best on the evidence—but I understand that they were greatly divided and that they hesitated to bring in this true bill against me. I haven't heard yet when I am to go over there. I am anxious to assure all my friends that I will prove my self innocent and I have nothing to fear."

"My orders to Captain Duke will show my attitude regarding a bungling man, and before I am judged I would like to have them read over there. This is exceedingly trying and a great annoyance for me, but I point to

the fact that the police commission is

not to be blamed for the accident."

Flannery was indicted at noon yesterday on a charge of grand larceny and put in jail to the amount of \$3,000 on bail. # Flannery Sends in His Resignation; Will Gather Proofs of His Innocence

## WRITES MAYOR DENOUNCING AUTHOR OF CHARGES

Says There Are No Founds for Allegations and He Will Establish Fact.

### LEAVES POLICE BOARD TO AVERT EMBARRASSMENT

When His Name Is Cleared, He Says He May Seek Place Again.

Harry P. Flannery, head of the San Francisco Police commission, in dictated yesterday by the Marin county grand jury, made the following statement last night:

I cannot understand why, at this time of my life, after having lived in California for thirty-three years, and having been engaged in active business all that time, it should have remained to this time to charge me with the offense of the character of this one, based solely upon the word of a man of Abbott's character. For seven years I had the concession from the Southern Pacific Company for the cables on the ferry boats between San Francisco and Oakland, and during all that time conducted that business in such a manner that no discredit whatever of any character attached to my business or to my name.

I was engaged in the liquor business at the place where the Richieu saloon now is, at the corner of Geary and Market streets, for five or six years before the fire of April 18, 1906, and during the entire time I was in the business there no discredit of any character attached to my business or my name. Within a week after that fire I was making arrangements for the lease of the property where the Flannery building now stands. The lease was secured, plans were drawn and that building—the first class A building after the fire—was erected by me at a cost of nearly \$30,000. I have been conducting business at that place ever since November, 1906, and no word of reprobation has ever been heard against my conduct or the conduct of my place of business.

#### ADMITS AIDING McCARTHY.

I did take an active interest in the McCarthy campaign. I did all in my power to assist his election, and thereby I undoubtedly created bitter political enemies. I did not seek the appointment of Police Commissioner, and did not want it, and I took it only at the urgent solicitation of Mayor McCarthy. Since that time it has been my one endeavor to refute the accusations that have been cast upon the Mayor and myself, and to vindicate his appointment to the office I now hold because of the fact that I was engaged in the saloon business. I firmly believe that during the time I was Police Commissioner there have been a larger percentage of licenses refused than during a like term under any administration for the past ten years.

I have at all times given the strictest instructions to the Chief of Police and the proper police officers to enforce the law as it is written. I have especially enjoined upon the proper officers of this city to drive out disreputable characters of all kinds, and have especially attracted their attention to bawdy men.

#### ORDERS SUPPRESSION.

In March, 1910, I gave specific instructions to Captain Duke of the Central station to suppress gambling at several places, as the following order will show:

Order No. 407.

San Francisco, March 3, 1910.

Captain O. J. Duke, President of Police Commissioners.

Dear Sir: On March 3, when I returned to the station from Judge Dunn's court, where I was a witness in the trial of the police commissioners, I informed you that I had telephoned to you that you had telephoned that you desired to see me.

I proceeded from your place of business and you gave me from a record book which was a list of six places where you stated illegal gambling was being conducted.

"After location of places see attached order."

I fully informed you that you attempted to communicate this information to the chief of police, but as he was not in, and as you desired immediate action taken, you requested that you do all in my power to prevent all violations of the law and to warn members of my command that any officer found guilty of neglect of duty shall be summarily dealt with.

"I remember that you particularly denounced one Kid Sullivan and stated that he and his kind should be driven from the city.

"Respectfully submitted,

THOMAS DUKE,

"Captain of Police"

San Francisco, March 3, 1910.

Captain O. J. Duke, President of Police Commissioners.

A gentleman with high authority in the police department informs me that he has positive information that the illegal gambling was being conducted at the following places:

1048 Kearny street, conducted by Brizzelart.

1066 Kearny street, and sometimes on Saturdays and Sundays, at a

### Writes Mayor McCarthy Letter of Resignation

SAN FRANCISCO, April 30.—The text of Harry P. Flannery's resignation as president of the board of police commissioners, received by the Mayor this morning, is as follows:

"April 30, 1910.

"To the Hon. P. H. McCarthy, Mayor of San Francisco—Dear Sir: Realizing as I do that your administration and yourself have been embarrassed and disgraced at the fact that an indictment has been placed upon me by a grand jury, I conceive it to be my duty as a citizen who desires to have no odium cast upon a commission or official of this local government, to relieve you at this time of the stress placed upon you by tendering my resignation as a member of the board of police commissioners of this city, the same to take effect immediately.

"I take this step at my earliest opportunity, and do not yet recover from a serious illness, and I submit this resignation without malice, with profound respect and with the interests of my city first at heart.

"It has been made the victim of the most dastardly conspiracy that could have been conceived by human fiend bent upon the ruin of an honest man. Editors have clasped hands with contemptible criminals, first to strike a blow at you, and next to encompass the downfall of a man whom they

could not blackmail and who is proud to won their enmity.

"I prize your friendship and respect sufficiently to use every endeavor to relieve you of any embarrassment that might arise from this attack upon me, holding as I do, an office with which you honored me and which I filled conscientiously and as my best judgment dictated.

"I face my accusers without a tremor, and with no fear for the outcome of the trial. I am innocent, and I shall be glad, when this matter is fully threshed out, to prove the viciousness of my cowardly and lying accusers.

"When I shall have demonstrated that I am wrongfully accused and that the real culprits are the men now seeking my ruin, I shall present myself once again for your consideration, fully confident that you will aid as a friend and official to vindicate a man who is falsely charged.

"I thank you for your kindness and cordial friendship in the past, a continuance of which I shall strive to maintain. I lay down my post as a police commissioner with clear conscience, convinced that you will appreciate the motive with which I resign and the spirit in which it is tendered. I wish your administration every success, and I now turn my attention to the dogs barking at my heels. Yours very sincerely.

HARRY P. FLANNERY."

taylor shop located at 2185 Powell street.

Cassas & Marshall, 336 Montgomery street.

Kid Sullivan's Club, at 35 Ellis street.

I have authorized to inform the servants and patrolmen in this district that if illegal gambling is not stopped immediately the offices of any rank responsible for the existence of these conditions will be closed with the police commissioners.

No further warning will be given and this order will be introduced as evidence to show that due notice was given.

I have repeatedly issued instructions on this subject, but apparently without effect. If any other officer would do the same merely for effect let him ignore it and observe the consequences. I now have obtained positive proof that illegal gambling has been conducted secretly of late, which have never been reported by any of the offices.

"Wherever search warrants are required the officers will procure the same.

The platoon commanders will make careful note of all officers absent when this order is read and see that they are notified of its contents when they return to duty. It will also be ready to the gambling detail.

**SERGEANTS RESPONSIBLE.**

The patrol sergeants will notify all officers having heads assigned to any suspected gambling place that they are responsible and will be held equally responsible with the officers on the beat and remain at such places as long as may be necessary, and lastly,

The worn patrol sergeants that I will look to them for a strict enforcement of all the provisions in this order.

The officers in this district are requested to arrest Kid Sullivan or any of the rest of his kind on a charge of vagrancy if they are found hanging around this district.

**THOMAS DUKE,**

"Captain of Police"

San Francisco, March 21, 1910.

Captain's Office, Police Dept., No. 1.

Hon. Harry P. Flannery, President of Police Commissioners.

Dear Sir: On March 3, when I returned to the station from Judge Dunn's court, where I was a witness in the trial of the police commissioners, I informed you that I had telephoned to you that you had telephoned that you desired to see me.

I proceeded from your place of business and you gave me from a record book which was a list of six places where you stated illegal gambling was being conducted.

"After location of places see attached order."

I fully informed you that you attempted to communicate this information to the chief of police, but as he was not in, and as you desired immediate action taken, you requested that you do all in my power to prevent all violations of the law and to warn members of my command that any officer found guilty of neglect of duty shall be summarily dealt with.

"I remember that you particularly denounced one Kid Sullivan and stated that he and his kind should be driven from the city.

"Respectfully submitted,

THOMAS DUKE,

"Captain of Police"

San Francisco, March 3, 1910.

# GOSSIP FROM SAN FRANCISCO WEEKLIES

## The Roosevelt Despotism.

According to Colonel Henry Watterson the people seem to be inclined to welcome Theodore Roosevelt on his return as "a benevolent despot." The Colonel is probably right. A very large percentage of the people would be willing to put Mr. Roosevelt in power with the privilege of going as far as he likes. Mr. Roosevelt has a firm hold on the imagination of the people. Through processes directed by the Chions of journalism and politics Mr. Roosevelt has come to be regarded as an ideal ruler much to be preferred to the constitution. Mr. Roosevelt himself has not neglected opportunities to foster this idea. Often has he flouted the constitution. Many are the imperfections that he has found in it. Never has he hesitated to censure the handiwork of the founders of this republic.

Defeat has propagated the sentiment that what this country needs is a strong man as its ruler, one who will not be constrained by tradition or old-fashioned principle, who will take the situation in hand regardless of consequences, imbued with the one beneficial purpose of building "this cracking, groaning, bad assembled world into a noble civic harmony" by the magic touch of his high statecraft. Great is the encouragement he has given to those who are impatient of slow remedy and would set all things topsy-turvy and create chaos that order might be evolved therefrom.

It is because of Mr. Roosevelt's subtle persuasions that men who know the danger of rashly disturbing the conserving forces of fundamental laws are disposed to question his patriotism and suspect him of sinister designs. In their opinion an unerring index to his character is the circumstance of his having made himself acceptable as a "benevolent despot" to his vast army of admirers. There would be no need of warning the people against a benevolent despotism with its inevitable consequences had not Mr. Roosevelt by cunning arts and shrewd devices undermined public confidence in the institutions of his country.

Mr. Roosevelt has brought about a situation similar to that which existed in Rome when Julius Caesar seized the opportunity for establishing his benevolent despotism. And despite the boasted enlightenment of the people of this country the author of the current state of the public mind is nevered as the greatest patriot of his generation. The people love him for his lawlessness. They worship him for the precedents he has established, giving no thought to the possibility of those precedents serving in another generation to justify the acts of somebody with no desire to earn a reputation for benevolence.—Town Talk

## When Twain Left Journalism.

Like a great many other literary men of abundant achievement Mark Twain was a failure as a newspaperman. He was on the Call in the early sixties and had the reputation of being a shirk. One night the city editor found him asleep on the stairs leading up to the local room. "I don't think you'll ever make a newspaperman," said the city editor. "I don't think so either," was the rejoinder, "and I think I'll quit trying right now." And Mark Twain threw up his job on the spot. As a matter of fact Twain's sense of humor had sadly interfered with his reportorial work. One morning he was assigned to the task of writing up the mysterious murder of a fallen woman in the Latin quarter. He wrote a tale that was thrillingly yellow. He stated that he had been the first to view the corpse and told of a theory that the murderer is sometimes reflected in the eyes of the victim for a brief period and gradually fades away. He solemnly declared that he had examined the eyes of the dead woman and saw reflected therein the image of a reported as a morning contemporary.—Town Talk

## One of His Experiences.

At a dinner in New York about ten years ago Mark Twain discoursed of his newspaper experience as follows: "I was a reporter in San Francisco years ago. I was willing to be scurvy but said how other people didn't seem to take the same amount of interest in it that I did. The pawnbrokers had charge of nearly all of my portable property. I met another literary character there in the same situation. He was a poet. He was one of a job. He believed there was some little love romance about it too. But I think I will spare your feelings about that part of it. Well, the poet came to me one day and said he thought his life was a failure, and asked me what I thought about it. I told him I thought it was. He spoke about suicide and thought probably it was the best thing he could do. Now I knew that if I could get what the newspapers call a "scor" I could probably get something to do. I did not discourage him in his suicide proposition. I kept it in my mind. He had his preference about the way suicide should be done. Most people have their preferences in suicide."

The poet wanted to shoot himself. But this meant a pistol. Now we could not afford a pistol. I told him we should always exercise a proper economy in all things, and that drowning would be economical. I kept close to him all these days. The drowning method seemed to have some attraction for him. But there was one drawback. He was a splendid swimmer. We thought, however, that if he got out into the sea far enough we could manage that. So we went down to the shore. And as he stood there on the beach there came rolling in something from the broad Pacific. It was something that was on an errand, it may have been travelling on that errand for three thousand miles. But it got there and it arrived on time, landing right at the poet's feet. It was a life preserver.

Of course he could live three weeks on a life preserver if he had capital enough to provision himself for such a long cruise. Then we had an idea, which was unusual. It was I who had the idea. This applied particularly when he was writing poetry. But I had an idea, and it was that the life preserver suggested a way to having a land suicide. We might pawn the life preserver and get a pistol. So we took it to a pawnshop. It was not a very good life preserver. It had been traveling a good while and

showed the wear and tear. But we dickered with the pawnbroker and got a pistol for it. But just before he gave the pistol the pawnbroker said to me: "But say, what does he want a pistol for?" I took the pawnbroker into the back room and told him how things stood. As man to man I told him my situation and the advantages that would accrue to me from a scoop. Then I said to him plainly: "That man out there is a poet and he wants to commit suicide." The pawnbroker fell in with my view that it would be a good thing, and we got the pistol. It was a derringer pistol—a single barrel affair. It carried a bullet about the size of a hickory nut—not one of the largest hickory nuts, but one that would make a good, big, honest hole and cause a lot of trouble. The poet wanted me to go and see him commit suicide, but I argued with him that it hardly seemed right for me to assist in a suicide in which I had a selfish business interest. I told him that, on the contrary, I ought properly to dissuade him. I argued with him in this way until I found that I was unsettling him, and then I told him that I would stick to him as a friend should, and go and see him get the thing through and off his hands. So he went out and put the pistol to his head, and oh, what awful moments those were as he stood there pressing the muzzle to his temple! It seemed as though my heart beat and thumped until it could do no more, and that then it stopped and that there was a vacuum where the heart ought to be. Finally my emotions could no longer control me, and I cried out to him: "Why don't you pull the trigger?" Then he did pull the trigger. The ball went straight through his head and took all the vital parts with it. It made a new man of him. The bullet hit his poetic faculty square in the center and dragged it out the back door. And I am glad to say that that man is alive to this day, and that ever since that pistol shot he has lived an upright, respectable and useful life."—Town Talk

## Jack Johnson's Women Admirers.

In the older times of Roman glory women vied with men in doing honor to the gladiators who bested their opponents in the arena and there were no caring critics to suggest unworthy motives for their enthusiasm. Times have changed since then, witness the exhibition of women from pugnacious spectators. And yet there is no doubt that women admire the exponents of the many art of self-defense, admire them with an admiration that does not wold the palm to the matrons of ancient Rome. I have received striking proof of this fact in a recent interview with the coming of Jack Johnson, the ebony fighter who is to do battle with Jeffries at Emeryville. Johnson, I am informed, is now on his way to this city and as becomes one of the foremost men of the world of sport, he is traveling in regal Pullman splendor. With him, I have been given to understand, are travelling three white women who are so keenly interested in his personality and prowess that they have accorded him the honor of their company for the dull trip across the continent. That Johnson appreciates the honor which these three white women are conferring on him; I make no doubt, for everything that I have heard of him indicates that he is the soul of devotion in his relations with the weaker sex.—Town Talk

## A Vanderbilt Reconciliation.

Many are the rumors which have flown abroad about the sudden departure for the East of Mrs. Willa Vanderbilt, and quite naturally it has been surmised that her swift change of plans has had some bearing on the whispered stories of an estrangement between herself and her husband. However, it seems to me a young show a shrewd ability to guess the truth. Mrs. Vanderbilt came to California with every intention of making an extended visit with her friends in San Francisco and Binghamton, and it could only have been a weighty consideration which induced her to change her plan. In this connection the departure of Lila Calvert, the Italian singer, for vacation in Europe after her more or less audience operate in New York takes on considerable importance.

The attention of Willa Vanderbilt to this striking beauty is regarded by many as the cause of the disturbance which has alienated Mrs. Willa from her erstwhile adored husband. That attention, I am told, will be forthcoming. The Calvert, it seems, has been induced to realize that it would be the course of wisdom no longer to exercise the power of her charms over Edith Fadie's husband. The arguments by which she was brought to this state of mind, I am told, were supplied by members of the Vanderbilt family and proved so cogent that the Calvert saw their force without much difficulty, and forthwith departed for Europe. Mrs. Vanderbilt's next meeting with her husband will take on the character of a reconciliation.—Town Talk

## She Is Making a Hit in Paris.

The latest San Francisco girl to make a decided hit in Paris is Miss Elsa Matthews, who is regarded by competent Parisian critics as a musical prodigy. Miss Matthews is associated with Miss Dorothy Tove of Minneapolis, a singer with a voice of two distinct qualities, tenor and soprano. With the unusual, nothing about her, she has conquered the Paris music halls. She is singing at the Boite a Fursy, a tiny theater in Montmartre where the prices are higher than anywhere else in Paris and where it is regarded as particularly "child" to spend an evening. Miss Tove's salary for an engagement of six months is said to be \$100 a month. Miss Matthews is quite as remarkable as Miss Tove. She has composed songs for Miss Tove on the piano. She knows nothing about the technique of music, yet during the past eight months she has published twenty-five songs, all of which have succeeded. Miss Matthews fears to take spontaneous composition. The Pierpont Morgan Family.

While Mrs. Pierpont Morgan and her daughter are in San Francisco the head of the family is in another part of the world, appraising and buying masterpieces of art for his splendid collection. Which serves to remind me that Mr. and Mrs. Pierpont Morgan are seldom together. Their tastes, it seems, are very different. The friends whom Mr. Morgan cultivates are not the friends whom Mrs. Morgan shows a predilection for. One of the friends of whom Mr. Morgan was particularly fond not so long ago was Miss Maxine Elliott. Yet I have never been given to understand that Mrs. Morgan improved the opportunity of becoming an intimate of the beautiful actress.

One aspect of the hotel men's entertainment could not but appeal forcibly to a San Franciscan. That was the continual use of the Chinese motive in the decorations. The official souvenir book of the affair is done in Chinese colors and tones with Chinese pictures and drawings. The banquet room at the Palace was decorated in the Chinese manner and there were many who said that they had never seen a more beautifully prepared room. Little Chinese boys and girls in gala dress sang the patriotic songs which they have learned in our public schools. Of course it was a wise thing to insist on the Oriental side of San Francisco life. While there are Chinese in other cities, there is nowhere else a Chinatown like ours with wealthy merchants, fine women and American children. To travelers nothing is more attractive, nothing lingers so long in memory as the Oriental riot of colors, the strange Oriental type of beauty and the effective Oriental schemes of decoration. The Chinese are a great asset in our city life and it seems strange that they should not have been appreciated until quite recently. On good authority I have been informed that to Mr. Alexander of the St. Francis Hotel, an Eastern man, is due more than to any other the popularity of the Chinese and their characteristic decorations in local entertainments.

The shortsighted may be inclined to think that the prodigality with which the visiting hotel men were entertained surpassed the demands of the occasion, but they are decidedly in the wrong. Every city makes special efforts to entertain the bonfires and in the case of San Francisco there were particularly cogent reasons why their guests will should be captured. If we are to have an exposition in this city in 1915 we need the assistance of the hotel men throughout the country in persuading people to come here. The hotel men do not control the course of travel, but they do more than any other set of men to enlarge its stream. If they are well equipped toward San Francisco and San Francisco's fair they will send thousands to us and put many a penny in our purse in exchange for the pennies which have been spent in entertaining them. It was very good business policy to give them the time of their lives.—Town Talk

## She Has Earned Dunphy Alimony.

Lydia Valencia-Dunphy, the woman whom "Jimmy" Dunphy married and endeavored to discard the day after as undesirable, is giving testimony before Judge Seawell's court to the effect that her pseudo-husband was of sound mind, aduced reasons why their union will should be captured. If we are to have an exposition in this city in 1915 we need the assistance of the hotel men throughout the country in persuading people to come here. The hotel men do not control the course of travel, but they do more than any other set of men to enlarge its stream. If they are well equipped toward San Francisco and San Francisco's fair they will send thousands to us and put many a penny in our purse in exchange for the pennies which have been spent in entertaining them. It was very good business policy to give them the time of their lives.—Town Talk

## San Francisco Chinese Editor.

Ng Poon Chew,

who is the editor of the first Chinese daily paper published in this city, was in New York recently and told the reporters some very interesting facts which San Franciscans ought to know but don't. He told them, for instance, that when he first established his paper here his Chinese friends put up money for it with the expectation that they would never get it back. The first year the paper paid a dividend of ten per cent; the second year, thirty per cent, another year, seventy-five per cent. In the first ten years the stockholders got back four hundred per cent on their investment.

The paper has a circulation of 3600

and does all over the United States. No effort is made to make it sensational, murders and other crimes being simply mentioned. In connection with the newspaper enterprise Mr. Chew conducts a book department, importing from China all sorts of literature. He says that there is quite a demand for Chinese translations of Shakespeare, Darwin, Spencer and other philosophical writers and that fiction, beginning with Robinson Crusoe, is extremely popular.

Mr. Chew states that there are only 65,000 Chinese in America and that the Chinese population of this State is only 65,000 Chinese in America and that the Chinese population of this State is only half of what it used to be. He says that there used to be 20,000 Chinese in this city but that the number has dwindled to 7000. "Twenty years from now," he says, "you will have to go to a museum to find a Chinaman in this country." One thousand of the Chinese in this city, he estimates, are Christians and for these there are five churches, Presbyterian, Congregational, Methodist and Salvation Army. Of the Americanized Chinese as found here Mr. Chew says: "Since the earthquake and fire the character of the Chinese in San Francisco has changed altogether. Most of the clubs and societies like the Six Companies before the fire had religious observances and kept idols and altars in their meeting places. Now the idols have been removed and their place taken by lecture platforms, and each hall now has maps on the walls and a library and reading room containing papers both American and Chinese. Before the fire every Chinese merchant had in his store an altar and an idol of the god of wealth. Now they have thrust out the idols and the altars and are trusting to themselves. Chinatown is now a very substantial section of the city."—Town Talk

Most of the clubs and societies like the Six Companies before the fire had religious observances and kept idols and altars in their meeting places. Now the idols have been removed and their place taken by lecture platforms, and each hall now has maps on the walls and a library and reading room containing papers both American and Chinese. Before the fire every Chinese merchant had in his store an altar and an idol of the god of wealth. Now they have thrust out the idols and the altars and are trusting to themselves. Chinatown is now a very substantial section of the city."—Town Talk

## BAPTIST CHURCHES IN JOINT SERVICE

Pleasing Musical Program Is  
Planned for Tomorrow  
Morning.

The members of the First Baptist Church will unite with the congregation of the First Baptist Church of this city tomorrow morning, when interesting ceremonies will be held. Rev. Mr. Voshburgh, pastor of the First Baptist Church, will conduct the services and preach the sermon. An interesting musical program has been arranged for the occasion, which will mark the union of the two bodies into one church.

For some years regular Baptists and the Free Baptists throughout the country have been seeking a closer co-operation, and the leaders of both denominations are looking for the concurrence of the day when these separated members of the Baptist family shall be one household of faith. The union of the Oakland churches is one of the first instances of actual organic union, but it is expected that many similar unions will take place in different cities of the United States.

### UNITED PRESBYTERIAN.

The First United Presbyterian Church, corner of Castro and Eighteenth streets; Rev. Paul Stewart, pastor—Morning subject, "The Christian Possessions"; "The land whither ye go to possess it, is a land which is good." Evening subject, "God's City." The streets of the city shall be full of boys and girls playing in the streets thereof."

### CONGREGATIONAL.

First Congregational Church, Twelfth and Clay streets; Charles R. Brown, pastor—Morning subject, "The High Office of Sympathy"; Evening subject, "The Young Woman's Opportunity."

Pilgrim Congregational Church, Franklin Avenue and East Sixteenth street;

Rev. Bert M. Palmer, pastor—Morning subject, "The Soul's Return to God"; Evening subject, "The Kings."

Fruitvale Congregational Church, Franklin Avenue and East Sixteenth street;

Rev. Bert M. Palmer, pastor—Morning subject, "The High Office of Practical Piety."

Fourth Congregational Church, corner Grove and Thirty-sixth streets; Rev. Frederick H. Maier, pastor—Preaching by the pastor, Morning, "May Day Sermon"; Evening, "Blunders in Supreme Moments."

Market Street Congregational Church; Griffith Griffiths, pastor—Morning subject, "The Basis of Christian Faith."

### METHODIST EPISCOPAL.

Melrose Methodist Episcopal Church, corner of Thirteenth and Wentworth avenues; J. O. Duncan, pastor—Morning subject, "The Ministry of Miss Eva M. Clarke, a native of India who will speak"; Evening, sermon by the pastor, Sunday school at 9:45 a. m.

First Methodist Episcopal Church, Fourteenth and Clay streets; George W. White, pastor; William C. Poole, assistant pastor—Preaching both morning and evening by the pastor, Morning subject, "Counterfeit Christianity"; Evening subject, "The Survival of the Unfittest." The evening subject will be the first in a series of five sermons on "Science and Religion."

Rev. George W. White, D. D., the pastor of the First Methodist Episcopal Church, corner Fourteenth and Clay streets, will tomorrow night commence a series of sermons on the general theme of "Science and Religion." The series will include five topics:

May 1, "The Survival of the Unfittest"; May 8, "The Reign of Love in the Realm of Law";

May 15, "The Human Ancestry, Ape or Adam?"

May 22, "The Human Destiny, Clouds or Crowns?"

May 29, "Darwinism After Fifty Years."

The Young Men's League of the First Methodist Episcopal Church held its semi-annual electric service last Thursday evening, with the following guest: J. Homer Woolsey, president; G. H. Chamberlin, vice-president; L. E. Landis, secretary; Bert Hutchison, treasurer; C. M. Pruner, caterer.

Norwegian-Danish M. E. Church, Twenty-eighth and San Pablo and Telegraph Avenue; Frank A. Scarvie, pastor—Morning subject, "The Christian's Glorious Hope"; Evening subject, "Urgent Business." The evening sermon will be illustrated by special music.

Shattuck Avenue Methodist Episcopal Church, W. W. Case, D. D., pastor—Morning subject, "Watchman, What of the Night?" Evening subject, "The Struggles of Life."

Centennial Methodist Episcopal Church, Ninth and Chester streets; Alfred J. Casper, pastor—Morning subject, "With God All Things Are Possible." The morning sermon will be the second of a series on "Christianity in Action." The evening sermon will be illustrated by tele-

### UNITARIAN.

First Unitarian, corner Fourteenth and Castro streets; William Day Simonds, minister—Service and sermon at 11 a. m.; Subject, "Salvation Theology"; "Don't You Believe in a God If There?" Introduction address, Mark Twain as a Refor-

REV. IDA B. ELLIOTT, who will conduct divine services tomorrow in the Rest Reading Rooms and Home.

The mode for the service being "Ode to Joy," by Beethoven and "Tantum Ergo" by Kluck, in B flat.

The morning sermon will be preached by Rev. T. Kennedy. The answering of queries by Rev. E. Dempsey will take the place of the evening sermon.

### BAPTIST.

First Baptist Church—Homer J. Voshburgh, pastor—Morning, "A Prayer of Christ's Answered"; May 1, "The ordinance of baptism and sermon, 'The Voice of the Turtle,' first in a series on 'Sermons for the Season.'

Beginning tomorrow evening, Rev. Homer J. Voshburgh, D. D., pastor of the First Baptist Church, will begin a series of sermons entitled, "Sermons for the Season," with special subjects as follows:

May 1, "Saloon Theology. 'Don't You Believe in a God If There?'" Introductory address, "Mark Twain as a Reformer."

May 8, "The Mother of Jesus and the Mother of Judas." Introductory address, "Norway's Grand Old Man."

May 15, Conference Union service; First Church, San Francisco.

Special announcement—Theodore Parker anniversary sermons:

May 22, "The Life Story of Theodore Parker."

May 29, "Theodore Parker's Absolute Religion."

Service begins promptly at 11 a. m.; Sunday school, 10 a. m.; religious study class at 12:15.

Note—Minister's study in church; hours, 10 a. m. to 4 p. m. (Monday excepted); Study phone, Oakland 2885; Minister's summer residence, Mill Valley.

Rev. Dr. Voshburgh, who received an invitation to deliver an address at the Northern Baptist convention, which will be called to order in Chicago, has declined to take part in the sessions owing to pressing duties in his church in this city.

First Free Baptist Church meets at First Baptist Church, Morning, 11 a. m.; members of the Free Baptist Church welcomed as a body into the First Baptist Church as members there; 5:30 p. m., B. Y. P. U. will receive the Christian Endeavor into their church as a body. Sunday school meets at First Church at 12:15 p. m.

Twenty-third Avenue Baptist Church, Twenty-third avenue and Seventeenth street; Clarence E. Maxfield, 11 a. m. worship and sermon, reception of new members and observance of the Lord's Supper; subject of sermon, "Followers With the Father and With the Son Jesus Christ."

In the evening, "The Old Book—Its Anteas and others will sing Miss Crosby songs. The fact that this writer of thousands of Christian hymns has been blind since she was six months of age will add interest to this occasion.

Mrs. Sturtevant Peet will give a drill on parliamentary usage.

The topic to be considered at this meeting is, "What may we do for our city in ethics and esthetics?"

**UNITED BRETHREN.**

United Brethren Church, Thirty-fourth and Adeline streets; Dr. M. R. Drury, pastor—Morning subject, "The Conservation of Faith." In the evening a Family singing service will be held in celebration of the ninetieth birthday of this noted hymn writer. Harry Price, Dr. Anestes and others will sing Miss Crosby songs. The fact that this writer of thousands of Christian hymns has been blind since she was six months of age will add interest to this occasion.

Rev. Loyal L. Wirt of the First Congregational Church will give his lecture, "A Trip Around the World" with stereopticon pictures Tuesday evening, May 3 at 8 o'clock.

**LUTHERAN.**

The Oakland Woman's Christian Temperance Union will hold its next regular meeting in the library of the Y. W. C. A. building on Monday, May 2 at 2:30 p. m.

The superintendents of the different departments of the work will give their monthly reports and Miss Bessie Wood will give a talk on current events.

Mrs. Sturtevant Peet will give a drill on parliamentary usage.

The topic to be considered at this meeting is, "What may we do for our city in ethics and esthetics?"

**CHRISTIAN.**

First Christian Church, Thirteenth and Jefferson streets—Rev. Thomas A. Boyer, pastor—Morning, "The Mind of the Master"; Evening, "The Old Book—Its Boundaries." Sunday school at 9:45 a. m.; Loyalty Sons and Daughters Club at Sunday school hour.

**FRUITVALE CHRISTIAN CHURCH.**

Fruitvale Avenue and East Twenty-second street; Rev. Frank L. McHatton, pastor—Morning subject, "The Only Christian"; Evening subject, "Lessons from Daniel." Sunday school, 9:45 a. m.; Christian Endeavor, 12:15 p. m.; even song, 8 p. m.; Sunday school 10 o'clock; Ladies' society meets Thursday 2 p. m.; Young People's Club, Wednesday, 7:45, midweek prayer meeting.

**CHRISTIAN SCIENCE.**

Emmanuel Presbyterian Church, Forty-ninth street, two blocks east of Telegraph Avenue; Rev. Alfred E. Street, pastor.

**UNITED METHODIST.**

First United Methodist Church, corner of Castro and Clay streets; William Day Simonds, minister—Service and sermon at 11 a. m.; Subject, "Salvation Theology"; "Don't You Believe in a God If There?" Introduction address, Mark Twain as a Refor-

## Right From the Box—

Crisp, Delicious,  
Golden-Brown

## Post Toasties

are ready to serve with the addition of cream, and a little sugar, if desired—also pleasing with fruit.

Post Toasties are made of selected, perfectly ripe white corn, and are as wholesome as they are delicious.

MRS. ADA DOW CURRIER, who will take a prominent part in the performance of "As You Like It," to be given by local society people.  
—Scharz, Photo.

**E**VEN though the summer vacation is barely here, preparations are already under way to usher in the dances that are to mark the social activities of the coming season. Girls who are not to attend many dances this coming winter are saving their acapances for the cotillions, the leading ones of which will be given under the Greenway direction in San Francisco.

And in passing, it might be remarked that among the smart sets there is no word more generally misspelled than this word "cotillon." As the French write it there is no "i" in the final syllable, and the word "cotillon" originally meant "petticoat" in French. "Cotillon" meant later a dance planned for women, and we have adopted the word "cotillon" from the French. So it really behoves us to spell it correctly.

It is the most popular dance for the young people in the New York smart set, and deservedly popular for married people are rarely included in the first set, or in any other set of the German, for that matter.

A new book appearing this spring is called "The Politician," and the political side is offset by very sprightly sketches of society in the exclusive circles of New York. And a sketch of a cotillion carries a bit of wise advice to the younger girls:

The hero of the story says: "I can always tell a debutante from a girl who has been out a year or two, by the way she treats her partners at a cotillion. A debutante never wastes time talking to the partner she is with, but spends it gazing out over the sea of dancers, penitely-wise in quest of Ulysses with a favor, perched on the edge of her chair, all raptive to spring. Men as individuals don't interest her, only collectively, as a means of proving to the other debutantes how popular she is."

But the girls who have been out a season are different. They've got some sense! That's why I'd rather dance with them; they know their business better—stick to the bird in the hand, you know, and devote every energy to making him think he's the one and only real thing. And the result, dear child, is that her partner comes back for another dance, and the debutante's partner doesn't."

All of which is specially good advice for the young girl whose debut is scheduled for the coming winter.

**WEST HAS DEVELOPED ALONG ALL LINES.** The West has developed along all lines in a most surprising fashion in the past few years. The center of political power has shifted to the Middle West—smart sets worth while are developed in all the large Western cities, successful writers come

from the West, and many of the fine novels of today have a Western environment. In Chicago, in the past week, many singers, who are well known here, have achieved a distinct success.

Madame Gadski, who has so many warm personal friends in Oakland, has been singing Aida in Chicago with great success. One reads of her: "Aida can be counted among her most remarkable undertakings. She sang the music with infinite charm and pathos, with a tenderness and beauty of tone that make Johanna Gadski one of the three or four great singers of our time. She made a superb Aida."

Alice Nielsen is also singing in Chicago, and one reads of her:

"The opera was 'Martha.' Miss Nielsen won an ovation after her singing of 'The Last Rose of Summer,' the audience insisting upon a repetition. Applause continued during sixteen measures of orchestral playing, so the conductor and artist returned to 'The Last Rose,' and gave it all over again. It was beautifully sung."

It is inspiring to read also of Madame Schumann Heink, the superb singer, so popular on this coast:

"Madame Schumann Heink, after exceeding her own records on the Pacific Coast, which, according to the local impression, were greater than any other artist, including Jenny Lind, is returning to New York and will arrive there late in April. Madame Schumann Heink has had a tour of four months, and during that time journeyed a greater number of miles, singing to a greater number of people and to larger audiences than ever before."

**GROWTH OF THE ARTIST SPIRIT HERE.**

It is interesting also to watch the growth of the artist spirit in the West, expressed nowhere so well as in its architectural expression. The building of the bungalow has been brought to such a high degree of excellence that the large Eastern cities are sending out skilled architects to study the problem in its various phases. We no longer build huge wooden barracks, with remarkable bay window excrescences for homes. Our homes are quite properly built for the climate, and they express in various ways artistic ideas of value.

Within the homes, one finds Chinese halls, wonderful wood paneling, and always a picture or two of unusual value. And there are mural decorations, such as those that adorned the walls of Pompeii and other palaces, in the wonderful early Italian days.

Mural decorations are planned as part of our many new homes. It is not such a very far cry to the days when instead of mural decorations there were the framed mottoes, in worsted work, which announced, "Welcome to our home."

We have the mottoes, just the same, in our gardens, in our halls, in our dining rooms. The sentiments are in wonderful color tones, framed in exquisite designs, and the thoughts they express linger in one's memory. Over the fireplace in one of our new homes is to appear the following inscription: "When you sit by the fire yourselves to warm, Take care that your tongue do your neighbors no harm."

A Hindu couplet has an appropriate motto for a fireplace: "In summer a fan, and a tale, not too long,

In winter a fire, a friend, and a song." A welcome in an old English hall-way is most heartily expressed:

"May ye live in cheer and mirth, Till a snail goes round the earthe; May this house protected be Till an ant drinks up the sea."

The hospitality which shares generously a home with friends is one of the finest things in the world, and the host who knows how to express a welcome heartily, and to bestow a god-speed is much loved by his friends.

#### FORM PLANS FOR SUMMER ITINERARY.

It is among members of the smart set that we meet those who can best afford to travel, and so many people are busy formulating plans for the summer's itinerary. And a paragraph in regard to one's plans is really illuminating:

"The shame of not knowing where one prefers going for the summer rapidly undermines all self-respect. To be entirely without preference is a state to confess to with confusion. Just amiable, calm friendship for all Europe, but not a leaving in any one direction which will settle one's summer, make up one's mind and establish one as a person of character.

It is a condition of mind which would leave one sitting on the end of the dock dangling one's legs in a lethargy of indecision until winter came and sent one scuttling towards home. If any one could conscientiously say that there was a single spot in all Europe one could afford to miss, that spot would be struck from the list and one's choice rendered so much easier. But every inch of ground has its claim on one's attention, so what, may be asked, is there to do, except sit on the end of the pier and see if some outgoing steamer does not catch one's fancy?"

A greater exodus than usual to the country is in prospect this year. Times have been better for one thing, and many families can afford much longer trips than usual. Many people are

nado. He has spent much time also in Paris studying music.

The wedding at the home of the Moons was a quiet one and was attended only by relatives. There were present the Moons, the sisters of the groom, Mrs. Alexander Hamilton and Mr. Harry Holbrook, and the groom's mother, Mrs. Spreckels. Mr. Spreckels, who is ill, sent congratulations from Coronado.

Mr. and Mrs. Claus Spreckels Junior will make their home in Southern California.

**SUMMER PLANS FOR DEPENDENTS.**

Nearly all the Oakland travelers who are going abroad this year have chosen the Mediterranean trip. For one reason, the ocean trip is longer, and the ports reached are more convenient. The Southern season formerly lasted from November to the end of May. But it has been extended well into July. The outward rush in May and June this year will be very great indeed.

The Eversons, who are being entertained by friends on the Hudson, are to sail early in May, reaching Europe by way of the Mediterranean.

Mrs. W. C. Ralston and Mrs. Lucie Hayes were among the passengers sailing for Genoa, by way of Gibraltar and Naples.

They sailed on the North German Lloyd steamer Barbarossa, and they will spend the next six months in a well planned tour of Europe.

Mrs. James Hume, who has been for the past two years president of the California Federation of Women's Clubs, is among those planning to go abroad this year. Mrs. Hume will join her son, who has been spending this year in study in London.

Mrs. William K. Vanderbilt Jr. is going to Europe this summer, taking with her three children, and the routine of servants which seems necessary to her comfort, and incidentally keep the children from having a good time.

Miss Jennie Blair, who is a great friend of Mrs. Vanderbilt's, is already in Europe. Mrs. Ostrich and her son will go abroad with Mrs. Vanderbilt, and they will represent a large family party of Americans abroad.

**THE WEDDING OF MISS ELLIS MOON.**

The wedding of Miss Ellis Moon and Mr. Claus Spreckels Junior took place quietly at the bride's home in San Jose on Tuesday. The wedding is a matter of interest to many people here, where Miss Ellis Moon has many friends. The bride was for many months a student at the Head School in Berkeley, and among her intimate

friends have been the Clays of Fruitvale and the Meeks of San Lorenzo. Mr. Claus Spreckels Junior has spent most of his life in Southern California, and for some years his parents have made their home at the Hotel Corral.

MRS. CLAUS SPRECKELS JR., who was, until her marriage this week, Miss Ellis Moon of San Jose.

have traveled far, all over the United States, out to Hawaii, all over Europe, and their travels have meant much to them. Mr. Maurer is a leading artist of the coast, whose fine work expresses rare artistic values. And he has a very sympathetic and appreciative helpmeet in his beautiful wife, who helps him along many lines of his life work.

**MISS ANNE MORGAN DISTINGUISHED WOMAN.**

Among the most distinguished women of the age is Miss Anne Morgan, the daughter of the greatest financier of the century, Pierpont Morgan. Mrs. Pierpont Morgan and her daughter, Miss Anne Morgan, have spent the early spring in California, having been guests in Pasadena, and having spent a week at the Fairmont. They were guests at the Crocker home in Burlingame on Wednesday and they left for their home in New York City on Thursday morning.

Probably no family in all the nation stands for better ideals than do the Morgans. Nothing is ever told to the general public of their benefactions, public and private, for there is nothing they dislike more than to have their generosity paraded. There is no ostentation about the Morgans; they are a most lovable family, simple to a degree.

Miss Anne Morgan is a splendid type of the forceful, energetic American young woman, with ideas of her own. She has a fine scorn of sham, of pretence, one of the exceedingly fine women who is an honor to American womanhood. Miss Morgan has a sympathetic insight into the needs of the American working woman. She appreciates the dignity of labor, the innate pride of the working woman, and the later responds to her efforts in a confiding fashion that is wonderful, and expresses a certain sisterhood, a community of human interests that rises far above any money measurements. Miss Morgan's efforts for the working girls settled the shirt-waist strike in New York, and because of her to many girls have come better advantages, wider opportunities. Her influence is inspiring—she is one of the richest women in America—but rich in those generous impulses of mind and heart that make for the happiness of others—that make for greatness of heart and soul.

Miss Carol Harriman is chairman of the Junior League which aids the College Alumnae settlement work in New York. Last summer the settlement sent more than one thousand women and children to the country. Some of them were taken on day trips, others for one week or longer.

**ONE OF THE LARGEST RECESSIONS OF YEAR.**

One of the largest receptions of the year is planned for May 6, the hostesses of the day being Mrs. Arthur H. Breed and Mrs. Harlon Bancroft. They are to entertain in the large Foster residence on Orchard street, and it is an ideal place in which to entertain a large number of guests.

Mrs. Breed and Mrs. Bancroft have a wide circle of friends and they are planning for them a delightful afternoon at one of the elaborate teas of the year.

**UNIQUE EVENING BEING PLANNED.**

Mr. and Mrs. Oscar Maurer have sent out cards for Sunday evening, May 6, having planned a most unique Sunday evening gathering for their friends.

They are to entertain the latter at their studios on Le Roy avenue, and they announce "Glimpses of the World Beautiful," a charming announcement and sure to be the foreword of a de-

Francisco, and the dates are from April 23 to May 14.

The pictures are wonderfully picturesque, full of exceeding human interest, representing wonderful street life in Mexico and also South American scenes.

In the collection on exhibition are three pictures owned by Mrs. P. A. Hearst, "Late Afternoon," "Street Corner, Tegucigalpa," "In the Cathedral Garden, Tegucigalpa," and "Puerta de la Recolección."

One of the pictures is also owned by Mrs. R. A. Clark, "Recuerdo de Guatemala."

The pictures are exceedingly beautiful, wonderful in tone and in color, showing a strong technique and bearing the sure stamp of genius. The subjects of the pictures lend themselves to rare color effects, making the pictures vital with life, full of the charm of the old Spanish countries, and full also of that strength which is characteristic of the true creative spirit. Mr. Borg is an artist to be reckoned with, whose genius bids fair to win recognition from an appreciative public.

**MRS. ROSENFIELD TO GIVE LUNCHEON.**

Among the hostesses of the May time will be Mrs. Henry Rosenfield, who has sent out invitations for May 16, when she will entertain her friends at luncheon and bridge.

Mr. and Mrs. Rosenfield have been spending the winter at the Hotel St. Francis, and Mrs. Rosenfield will entertain her friends there. She is exceedingly thoughtful of her many Oakland acquaintances, and they thoroughly enjoy her generous and hospitable efforts for their entertainment. Many informal dates are planned during each season by Mrs. Rosenfield, and at the end of the season she often entertains at an unusually large bridge party many of her friends. Mrs. Rosenfield is so cordial always, so sweet and generous to her friends that very few regrets ever reach her in response to the invitations she sends out.

**INTERPRETATION OF THE OPERA.**

Last evening Professor and Mrs. John Galen Howard were hosts in their artistic Berkeley home, entertaining a large number of friends. The main event of the evening was the interpretation of Claude Debussy's opera, "Pelleas and Melisande." Miss Kemble gave her impressions of the opera as she saw it in the French, and at the first London performance last May under Debussy's direction at Covent Garden. She is a most attractive speaker and the guests at the Howard home enjoyed an evening of most unusual interest.

**FIRST STEEL BOAT BUILT IN OAKLAND.**

Invitations of more than the usual degree of interest have been sent to many prominent families this week. One reads that: "The Moore & Scott Iron Works extends you a cordial invitation to be present at their shipyard, foot of Adeline street, Oakland, to witness the launching of the Associated Oil Company's oil carrying steamer, 'Condorina,' at 6:15 o'clock p.m. Saturday, April 30, 1912."

The invitation is a notable one, marking as it does the launching

# SOCIETY NEWS of the WEEK

MRS. LEROY B. HACKETT, a popular society matron of Oakland.

—Scharz, Photo.

the first steel boat in our city of Oakland. The "Coalinga" is to be christened by Miss Elizabeth Orrick, the charming young daughter of Mr. and Mrs. O. S. Orrick of Vernon Heights. Miss Orrick is the only sister of the late Irving Scott, who was the pioneer of the ship building development on this coast.

Miss Orrick is a niece of the late Irving Scott, and it is specially appropriate that she should be chosen to christen this new steel boat which is to further the wonderful oil interests which are rapidly bringing wealth and new laurels to our beloved California.

\* \* \*

MRS. HENRY TAYLOR GOES TO BOSTON.

Mrs. Henry W. Taylor and her daughter, Miss Bernice Taylor, left for the East last Saturday, going directly to Boston, where their stay will be indefinite. The Taylors have spent the entire winter at the Key Route Inn, and they have been most popular with a large circle of friends. Mr. and Mrs. Taylor and their daughter recently returned from an extended motor trip. They went first to Los Angeles, planning to motor from there into Mexico, but they found the Mexican roads in such poor condition that the motor trip was abandoned, and the party returned by rail to Oakland.

Among those who will leave early in the summer for New York will be Mrs. Grace Northrup Davis. Mrs. Davis will be away from California for a year, and during that time she will devote herself to musical study in the large Eastern centers.

\* \* \*

Mrs. Horace Hussey and Miss Evelyn Hussey will spend the summer in California this year, instead of going abroad as is their usual custom.

Business affairs will keep Mrs. Hussey home this year, so she is opening her picturesque country place at Rowan Ranch, which has been closed in recent years.

\* \* \*

MISS FLORENCE DUNHAM IS GUEST OF HONOR.

A number of prominent Oakland people went across the bay on Thursday to be guests of Mrs. C. O. G. Miller, who entertained at a large tea at her home on Pacific avenue. Mrs. Miller made her guest of honor Miss

Florence Dunham, who is leaving soon for a long trip abroad. She will be among those this summer who will make their way to the little Bavarian village of Oberammergau. Since the Dunhams sold their Oakland home some years ago Miss Florence has spent a great deal of her time in Europe. She has many friends in Paris and in Florence and has wandered far abroad.

Miss Mary Dunham has a very Picturesque country home in Los Gatos, and she spends a great deal of time there with her sister and the latter's little girls.

Mrs. C. O. G. Miller was assisted in receiving her guests by her daughter, Miss Marian Miller, and among those invited to her hospitable home to meet

Mrs. Dunham were Miss Mary Dunham, Misses Patrick, H. M. A. Miller, Mrs. Edward Brayford, Mrs. Harry East, Mrs. Watt, Mrs. William Watt, Mrs. Frank Requa, Mrs. A. S. Macdonald, Miss Osie Long, Miss Miller, Miss Powell, Mrs. George Mc-  
Miss Moore.

\* \* \*

MISS HOLLAND'S DANCE: A SUCCESS.

The dance planned by Miss Lola Holland for her young friends was one of the delightfully informal affairs of the late season. Miss Holland was assisted in receiving her guests by her mother, Mrs. Arthur Holland, and by her aunt, Mrs. Joseph Matthews, and all of them planned the details of the dance so perfectly that the young guests had the brightest and most enjoyable of good times.

The decorations were all suggestive of the springtime and were beautifully planned. Some of them were brought from the Santa Cruz mountains, bringing with them also the spirit of spring. Beautiful Lady Banketts nodded a welcome and roses bloomed with one effect in the heart of every artistic design.

An orchestra played delightful music and dancing was enjoyed by the young people in the large drawing room and library. The wide verandah lent taste to very picturesque effects, with hanging baskets gay-colored lanterns and rugs and easy-chairs. Late in the evening an elaborate supper was served under the able direction of Mary Hallahan.

It was an exceedingly attractive dance and nearly a hundred guests were entertained by Miss Holland, and

Mrs. George Baldwin, Miss Ruth Kales, Miss Rose Kales, Mrs. Everts, Miss Florinne Brown, Mrs. Henry Chase, Miss Alice Knowles.

\* \* \*

Miss Edith Warner is another bride-elect whose friends are glad to offer her graceful compliments, many and well-deserved. Miss Warner's engagement to Harold Burnside was recently announced and their wedding date is to be set for early in the summer. Miss Warner is a most accomplished girl, a fine violinist, and she has been a leading member of the well known Eurydice Club.

On Thursday Mrs. George Williams gave an elaborate luncheon, entertaining a dozen guests at her East Oakland home in honor of Miss Warner. The delightful luncheon was followed by an interesting game of bridge.

\* \* \*

MRS. GEORGE CHASE LUNCHEON HOSTESS.

Mrs. George Chase was the hostess on Thursday at a most elaborate luncheon, planned in honor of Miss Helen Dornin. The Chases have returned recently to their pictureque bungalow in the higher Piedmont hills and with much skill and good taste Mrs. Chase has made it one of the most attractive of the new homes on the hill slopes.

The luncheon was delightfully planned and Mrs. Chase presided at one of the most artistic tables seen here this year.

The Arthur Hollands are to open their country home, "D'u Alloch," at Brookdale early in May.

\* \* \*

MISS DOROTHY TAFT ENTERTAINS AT TEA.

Miss Dorothy Taft was also one of the hostesses of the week, entertaining informally at a tea, given at the family home on Harrison street. Miss Taft's guests were almost all chosen from the young girls who are still in school, and her guests of honor were Miss Edith Goodfellow, Miss Fairbanks and Miss Nellie Adams.

Miss Goodfellow and Miss Fairbanks are to spend the summer abroad and Miss Nellie Adams, the young daughter of Mrs. Frank Adams, has recently returned from a European trip.

Miss Dorothy Taft was assisted in receiving her guests by her sister, Mrs. Chrissie Taft, who is such a very interesting girl and an unusually attractive hostess.

\* \* \*

COMPLIMENTS TO SPRING BRIDES-ELECT.

The brides-elect of the spring time claim their due meed of attention and compliments along many lines are extended to girls who are much loved by friends and relatives.

Among the brides-elect for whom entertainments have been planned this week are Miss Ruth Kales, Miss Helen Dornin and Miss Edith Warner.

Mrs. George Jensen, who was formerly Anita Oliver, entertained at luncheon this week in honor of Miss Ruth Kales. The Jensens have a charming home on Adams Point, not far from the Oliver family home. It was made still more attractive by the beautiful decorations the hostess planned in honor of Miss Kales. No one really deserves the compliments planned for her better than charming Ruth Kales, whose sweetness of disposition has always endeared her to her friends.

Miss Jensen planned a pink luncheon and the decorations in pink Duchesse roses were exquisitely arranged in business in San Diego.

The young couple will make their home in Coronado.

Miss Frances Williamson is one of

the genuinely popular girls of the smart set, and is now being made the inspiration of much delightful entertaining, her engagement to George Franck, a well known and prominent young business man of this city, having been announced at a large tea recently given at the home of Mrs. Willard F. Williamson in Piedmont. Miss Williamson resides now in San Francisco, but the family home was formerly in this city.

Mrs. Leroy B. Hackett is an attractive young matron, who frequently entertains and who is prominent also in the Oakland Club.

Mrs. Ada Dow Currier is one of the leading spirits in the projected production of "As You Like It," to be given in the Claremont foothills May 30. Her home in Durant avenue, Berkeley, is a sort of a modern salon where assemble the members of the literary, artistic and musical sets at most delightfully informal affairs.

Mrs. Currier is a most interesting raconteur, and her friends love to hear her reminiscences of Julia Marlowe, Joseph Jefferson, Sarah Bernhardt and other celebrities of her stage who were her friends.

\* \* \*

MISS HUFF GIVING BRIDGE PARTY SERIES.

Miss Jennie Huff is giving a series of bridge parties in these late spring days and is asking her friends to spend a pleasant afternoon at the old family home of the Huffs, on Estudillo avenue, San Leandro.

The country brings its own special appeal to a secretary hired for the purpose. Now it has come to the point that the well-to-do are harassed at every turn until a man with an ordinary income—say, of a thousand dollars a month—is easily expected to give five hundred or a thousand a year to these miscellaneous charities. Some of them doubtless are worthy, but many of them are doing the work for which others were organized, and all are clamoring for building funds, endowments, or running expenses.

An amusing story is told of the way patronesses were secured for one of these charitable affairs which was in aid of a young ladies' seminary. The alumna of this particular school is a powerful body, and they were working tooth and nail for the success of the affair. They wished, naturally, to get a good list of patronesses—for each one of these charities is blissfully oblivious of the fact that any other charity has asked for anything at all this winter—and among the ladies asked was one who had removed her daughter from the school because, as she wrote to the principal, she had lost all confidence in the school. This particular lady was among those asked to sponsor the entertainment, but rather than go into all these naturally unpleasant details, she allowed the think-

met at one of the fashionable women's clubs. One was a charitable woman who serves on innumerable boards of directors and the other as a woman

who is found almost every afternoon at the bridge table. The charitable woman reproached the other for her waste of time, and the bridge player replied: "If you would learn bridge and spend your time that way you would do far less harm. Then you would be, at least, hurting only yourself."

The professional director looked her amazement at anyone holding this Philistine point of view. But on thinking it over a good many of those who had heard the passage at tongue decided that the bridge-playing woman was right. There is far too much duplication of charity work, and we are pauperizing the communities about us. Never in the history of San Francisco have there been so many appeals for charity as this year, and yet the community is prosperous and there are now few out of work. Excessive and undue charity is the form in which we are giving away to socialism.

They receive hundreds of begging letters daily, and generally turn such appeals over to a secretary hired for the purpose. Now it has come to the point that the well-to-do are harassed at every turn until a man with an ordinary income—say, of a thousand dollars a month—is easily expected to give five hundred or a thousand a year to these miscellaneous charities.

Some of them doubtless are worthy, but many of them are doing the work for which others were organized, and all are clamoring for building funds, endowments, or running expenses.

Hammerstein has given up the fight in New York and opposition opera is at an end. It is rather a pity, but it will lighten the hearts of the stockholders in the Metropolitan who have also lost heavily this year. This will make a difference with Joseph D. Redding and Victor Herbert, whose opera "Natoma," was to have been brought out by Hammerstein this spring, and this is probably the real reason why Hammerstein did not live up to his agreement with the composer and librettist. Knowing that he was to retire from the field, Hammerstein did not wish to sink any more money in productions which he could not use next season. "Natoma" will undoubtedly be produced by the Metropolitan people next year.

\* \* \*

NEW YORK'S NEW THEATER IS A SUCCESS.

Contrary to expectation, New York's New Theater, which is an endowed house, not run on merely commercial principles, has been a success. The place has made money despite certain architectural disadvantages, for the auditorium, it seems, is too large for dramatic offerings. The house is to be

(Continued on Next Page.)

## OAKLAND TRIBUNE

# FINE, NEW TRACT OPENS TOMORROW

Every Indication of a Big Demand for This Moderately Priced Property.

"Eastlawn" the magnificent subdivision of forty foot residential lots on East Fourteenth street and Standard avenue, Oakland, is to be formally opened tomorrow by the Frank K. Mott Co.

The sale of this property has attracted attention throughout the entire State and hundreds of buyers are arranging to secure holdings. It is the only place that was ever offered in Oakland at medium prices, furnished with high-class street and tract improvements and protected by building restrictions. Lots are to be sold at an average price of \$15 a front foot while the improvements are of the character generally supplied with property selling at \$6 and \$80 a front foot.

All of the street work is being done under the supervision of the city's superintendent of streets, five foot cement sidewalks, gutters, curbs, sanitary sewers, gas, water and electric lines are all provided and included in price.

"Eastlawn" is destined to break all the records in the State from a stand point of popularity, said J. I. Bull, manager of the Frank K. Mott Co., to day. "Never before have such splendid and costly improvements been furnished at such low prices per front foot. The tract is right on the car line with a fare to Oakland Alameda or Berkeley. It is within two blocks of the Southern Pacific railroad and arrangements are now being made for a station for commuters to San Francisco. It is within the city limit of Oakland, enjoys full police and fire protection and is close to good schools, etc."

"The great feature aside from the low prices and the splendid quality of the improvements is the building restrictions which we incorporate in our deed," continued Mr. Bull. "Every house must cost at least \$1,000. There will be no saloons, no shacks or ugly structures. In fact we have planned Eastlawn for a sort of bungalow park similar to those you see in Los Angeles. In making our prices so low we let a lot of the burden of maintenance off the builder and the man who wishes to enclose his property."

Mr. Bull stated that hundreds of people were calling up the San Francisco and Oakland offices for information and that he expected the sale today and tomorrow to be the greatest that was ever held in this part of the State.

## Urge Recovery of Railroad Lands

**WASHINGTON**, April 30.—Senator Chamberlain yesterday introduced a resolution calling upon the Attorney General to exercise authority in his department to recover lands in Oregon granted to railroads and disposed of or offered for sale in violation of the grant. The resolution recites that in one parcel there are 2,300,000 acres unvalued and in another 82,000 acres still in violation of the law.

Proceedings were begun under a former order of Congress to recover these lands and the resolution states the suits have been allowed to drag through the lack of attention by the Government. It also states that no suits have been brought for the recovery of lands under military road concessions and that all of these lands under the several grants are now controlled by the Harriman railroads.

**ONE CONDUCTOR WHO WAS CURED**  
Mr. Wilford Adams is his name and he writes about it: "Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Peleg's Kidney Balsam and a third hot 'pot' put me on my feet and I resumed work as conductor on the Lexington Ky. street railway. It gave me more relief than any medicine had ever done. I will do any thing in the world to get rid of it. Peleg's Kidney Balsam cures rheumatism by eliminating the uric acid from the blood." W. Shart.

## Many Accept Bids for Novel "Shirtwaist" Dance Tonight

NELLIE HATCHER, one of the pretty girls who worked hard for the success of "Shirt Waist" dance

A novel shirtwaist dance was given by Miss Texas Schmitt, secretary of the club at 111 S. Folsom Street, on April 21 last night. The organization, which is in the middle of the month, is the result of the meeting of the young "social leaders."

Miss Hatcher, president of the entertainment committee, panel the dance, and the grant money with Gog Schmitt. She was assisted by Mrs. Schmitt.

by Miss Texas Schmitt, secretary of the club at 111 S. Folsom Street, who tells us it is in the middle of the month, is the result of the meeting of the young "social leaders."

The first play billed was "Shakespear's Antony and Cleopatra" with Southern and Malvone, which does not seem from all that one can hear to have been a success either artistic or financial though the piece was well received and it must have been a treat for lovers of Shakespeare. The

next thing is an American play—that is, a play written by an American—called "The Cottage in the Air" and based on the charming book by the author of "Elizabeth and Her German Garden" and called "The Princess Priscilla's Fortune." The play was not a success.

Subsequent offerings however include a piece called "The Nigger in the Wood" which has been great successes and the latest play in which Judith Wynne Mathison ap-

peared has created a furor and has ended in the permanent detention of Miss Mathison as one of the actresses of the theater.

**SALOME NOT POPULAR IN SAN FRANCISCO**

Despite San Francisco's reputation as a wide open town the "Vision of Salome" was not popular there, and almost everyone who had raved over Maud Allan the week before regretted sincerely that she had done the dance. Many blamed her for giving it in San Francisco under the circumstances. That it seems to me is doing the

## CROCKER IS BUSY; CAN'T TAKE TRIP

Trustee of Hillsborough Is Tied Down by His Political Duties.

SAN FRANCISCO April 30.—The burdens of political warfare have fallen heavily upon the shoulders of Charles Templeton Crocker, city trustee of Hillsborough millionaire lumberman and motor car enthusiast who is prevented from taking a trip to Europe until such time as he can gain the consent of the Board of trustees of the town de luxe.

Being an office holder has already caused the plane of the young clubman who wants to be mayor of the Municipality of Millbrae and at the same time make his usual tour abroad.

Crocker has consulted his political counsel to ascertain whether his constituents would object if he neglected the duties of office for several months.

But opposition to Crocker's departure comes from a different source. His fellow trustees have informed the clubman that they are opposed to granting him a leave of absence at this early date in the history of the model town and that he should devote his energy to governing Hillsborough and formulating laws looking toward the betterment of the community.

Henry T. Scott, the Rev. W. A. Storer, George A. Howard and Norris Ladd, members of the Hillsborough board of trustees, are said to have advised Croker against taking a vacation.

Under the laws the millionaire trustee can absent himself from the town de luxe for a period of less than sixty days without the consent of the trustees.

The Hillsborough trustees will probably hold their first meeting next week at the 111 Cerito Clubhouse when a major with six fed

## SIX BIG GUSHERS IN MIDWAY FIELD

Promises That Several More Equal Performers Will Come In.

HANFORD April 30.—The new gusher on the Monterey-Coalinga Company holds in the Midway makes the sixth well to be drilled in the field since the latest strike is located about three-quarters of a mile from the property of the Monterey-Coalinga on section 14 and an indication point to a large well being struck on the company's property when the drill reaches the second sand.

The Monterey-Coalinga Company is making good progress with the development of its resources and the company is now on the Midway piece and the houses and derrick will be built at once. As soon as the machinery arrives from the Lone Pine well drilling operations will be commenced.

The Mohawk and the W. K. Wells in the vicinity are keeping up their average daily flow, the former between 1000 and 1500 barrels and the latter 1500.

Herget Is Satisfied With Kelly, He Says

SAN FRANCISCO April 30.—Superintendent Herget made the statement yesterday that there would be no objection in the board to the choice of Supervisor Kelly chairman of the finance committee for the position of acting mayor to succeed the recently elected Mayor McCarthy in the east. The choice will be made on Monday, as the mayor takes

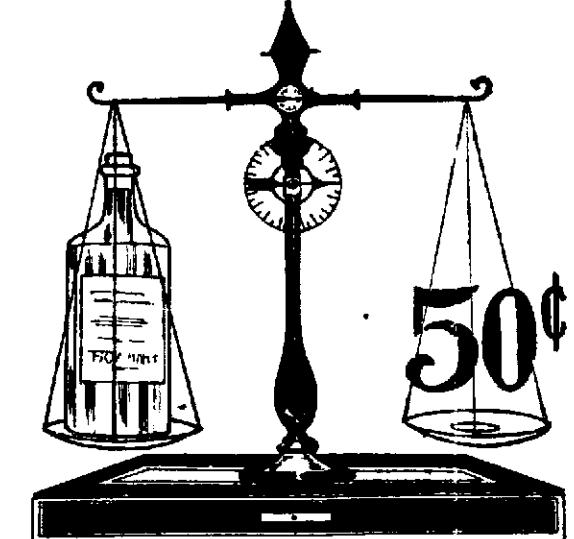

his departure tomorrow.

While many people have the idea that the chairman of the finance committee by virtue of his position as such succeeds without election to the mayor's place during that official's temporary absence, the charter does not so provide but authorizes the supervisors to elect whomsoever they choose. The invariable custom however is chosen the chairman of the finance committee.

Shea Starts Crusade Against Gamblers

SAN FRANCISCO April 30.—A vigorous crusade against gamblers is being carried on in the southern district by Captain Shea, who has detailed Police men T. C. Murphy and Arthur F. McQuade to look out for gambling resorts in the area, particularly in the following places: Brophy & Collins, 106 Fourth street; Ryberg, 130 Minna street; and Rosenblum, 694 Minna street, and 87 Third street.

On Wednesday they arrested Charles Brown and Charles Waller proprietors of a cigar stand at 33 Sixth street on a charge of accepting bets on the races by means of a handkerchief. Cases were filed in Police Judge Conroy yesterday and were continued till today.

## The full measure of real value

BOWMAN'S of today is the result of more than 30 years of honest business methods. It is a store where you can find every article of merit in the drug line and its accessories. Bowman's is the big drug store of Oakland, grown big because of satisfied customers. Make it your headquarters for drugs and toilet articles and you will know only what is best in those lines. Whatever you buy and whatever price you pay—the full measure of REAL VALUE is always obtained at

changed to make the auditorium smaller and to provide a larger number of cheap seats for the intelligent New York populace also wish to see the offerings at this theater.

The first play billed was "Shakespear's Antony and Cleopatra" with Southern and Malvone which does not seem from all that one can hear to have been a success either artistic or financial though the piece was well received and it must have been a treat for lovers of Shakespeare. The

next thing is an American play—that is, a play written by an American—"The Cottage in the Air" and based on the charming book by the author of "Elizabeth and Her German Garden" and called "The Princess Priscilla's Fortune." The play was not a success.

Subsequent offerings however include a piece called "The Nigger in the Wood" which has been great successes and the latest play in which Judith Wynne Mathison ap-

peared has created a furor and has ended in the permanent detention of Miss Mathison as one of the actresses of the theater.

Now people don't like it. Well, they have seen it and they have no one to blame but themselves. Everyone says that the dance is horrible, and yet they say that it is the most wonderful bit of pantomime work they have ever seen. Miss Allan gave the dance at two evening performances and again at the matinees at the Orpheum on Friday morning. She will not however, include it in her farewell to her home city on Sunday afternoon. I am told that Miss Allan receives four thousand dollars a week for her dancing.

**SOCIAL EVENTS OF THE WEEK**

There has been very little socials this week. Last week end Mr. and Mrs. Andrew Welsh entertained Mr. and Mrs. Henry Foster Dutton and Mr. and Mrs. John Drum, at their San Mateo home.

Mr. and Mrs. H. M. A. Miller are going on with their series of dinner parties at their home in Ross, most of them taking place on Wednesday evenings.

Bishop and Mrs. William Ford Nichols gave a small reception at the Episcopal residence in Webster street on Wednesday evening, the guests of honor being Dean and Mrs. J. Wilmer Gresham of Grace pro-cathedral. The invited guests included the members of the chapter and their wives and the members of the committee of the pro-cathedral which corresponds to a vestry and a few of the leading Episcopalians about the bay. The affair was very charming and informal and acquainted the Greshams with some of their new friends. Miss Claire Nichols and Mrs. Lansdale assisted in receiving the guests.

**CARDS ARE OUT FOR LUNCHEON.**

Cards are out for a large luncheon and bridge which Mrs. Henry Rosenfeld will give at the St. Francis Monday, May 16. The luncheon is at half after twelve, to give a long afternoon for bridge afterward. Mrs. Rosenfeld's large party last spring was a delightful affair, and as she is a clever and thoughtful hostess this one will be no less enjoyable.

**COMINGS AND GOINGS OF SOCIETY PEOPLE.**

W. Frank Pierce and Mrs. Charles D. Pierce, both of whom for many years made their homes in Oakland left last Tuesday on the Mongolia for Honolulu. They will probably be gone about a month. Mr. Pierce goes on

business and for his health, and Mrs.

**MISS SIMPSON'S ENGAGEMENT.**

The engagement announced this week of Miss Edith Simpson and Ro

Pike, while it did not occasion a great

deal of surprise, not being unexpected

as it caused a pleasurable flutter of excitement. She is charming, hand-

some talented and very independent.

Her father is the lumberman and her

mother died a year or so ago. Miss

Simpson is the close friend of Mrs.

Larry Harris (Lilac King) and was

her bridesmaid. Miss Simpson is at

present in New York with Mrs. Fuller,

Mr. Pike's sister, whose engagement

was also recently announced.

## Woman to Impersonate Venus

Hazel Cox to Lead Cast  
in Production of  
"The Skylark."

NEW YORK.—Hazel Cox, one of this city's most beautiful women, has been chosen to impersonate Venus in "The Skylark." When that play is staged it is expected the worshippers of the piece of marble that has awakened the fires of art inspection for centuries, will increase in numbers.

Here is what Auguste Rodin has to say of Venus:

"The sea, source of all primeval power, formed thee. Thou leadest us and rulest us by thy charm and by that repose which alone exerts true power."

From the furthest ends of the earth the crowds stream forth to admire thee, wondrous marble! In the enveloping twilight of thy hall still dost thou hear our weeping cries of applause, oh, undying Venus, once beloved of all thy contemporaries, now dost thou belong to us, to the Universe!

From amid the roar of great cities, poets, designers, the greatest artists thank the for many moments of happy refuge All bewildered, thou standest before their eyes as the unseeable. Time has merely shown its helplessness.

Time has merely shown its helplessness. Thou art no useless, fruitless statue, picture of some imaginary goddess of the empyrean. Ready for action thou breathest, thou art WOMAN—and that is thy glory.

Venus de Milo, the wonder-working sculptor who fashioned thee endowed thee with their breath of generous Nature, giving thee the awe of life itself—Oh, Venus triumphant gate of life Bridge of Truth, Crown of Grace! What beauty is in thy shaped torso, so thin upon thy strong limbs and in the half shadows that slumber over thy breasts and beauteous body, broad like the sea. Yes, thou art really Mother of Gods and Men.

To Venus de Milo is reflected in all the others of antiquity, each one has taken from her this or the other immortal beauty.

"In one, that is bare of all clothing, the deepening shadows make the flesh pulsate the more voluptuously the high a real pillar of life, is in the fullest sense of the word vibrant with warmth."

The shadow as worked out by the artist is like a tissue, which covers some features and reveals others. When more closely studied, it is seen that all these different shadow-clints are underscored by a single dark line, a line of strength. It is to be noted that all the antique masterpieces are executed thus. For this reason they give us an impression of soft completeness and lasting power.

When badly placed the effect of these shadows is an actual blasphemy against Nature. They are no longer elegant, but are merely hard and poor. Besides broad effects are the greatest. The Venus de Milo especially owes its powerful effect to this breadth. There is no shock, approach her step by step and you are convinced that she was modelled little by little, as if by the ceaseless labor of the sea.

"Is this not what the students meant when they said that Aphrodite rose from the sea?" And really their sculptures, which were made according to the laws of Nature, and worked out under her guidance, have managed to express in faultless perfection the infinite majesty of life."

### Tribune Patterns

All Patterns Ordered From  
THE TRIBUNE Will Be Mailed  
Within Twenty-Four Hours

From the Time the Orders Are  
Received in This Office.

LADIES' SEVEN-GORED SKIRT  
Tribune Pattern No. 3221

All Seams Allowed

The pictured model presents a design which will give to the figure the long slender lines which are now so fashionable, this effect being gained by the close-fitting seven gored which continue without fullness save at the center back, where an inverted box plait is formed, to below the knees; then a plaited blouse is attached, giving a flare at the feet. The front gore forms an unbroken panel from belt to hem. White cotton sateen is the material pictured, but the design is also suitable for development in Panama, Venetian or chiffon cloth, organdy, homespun, bunting, burl's velvet, blue, duck, cotton, diagonals or broadcloth. The pattern is in 5 sizes: 36, 38, 40, 42 inches waist measure. For 36, the skirt requires 5 1/2 yards of material; 36 inches wide, with nap; or 4% yards 36 inches wide without nap. Width of lower edge about 4 yards. Price of pattern, 10 cents.

HAZEL COX, selected as a model Venus of this century.

### WHAT WOMEN ARE DOING

The queen of Holland is one of the tallest of European queens. Like Queen Alexandra, she is an enthusiastic photographer, and whenever she goes she takes her camera with her. One day, a few months ago, her majesty saw a peasant woman carrying a pretty baby. She photographed them both, and on parting with them she shook hands with the mother and kissed the child. As head of the house of Orange Queen Wilhelmina possesses great wealth. Her large fortune was mainly acquired by King William—the first sovereign of the present dynasty—who was placed on the throne of the Netherlands by the congress of Vienna, after the fall of Napoleon Bonaparte in 1815.

The clubwomen of Georgia are arranging to introduce a bill in the legislature asking for compulsory education through the primary grades. The club-women propose to establish more modern schools as fast as they can gather the necessary funds and thereby bring elementary education within the reach of all children in the State. They will also try to have the State establish more schools in the mountain districts.

Mrs. Margaret Selenka, widow of the Dutch scholar Dr. Emil Selenka, has been chosen to lead a scientific expedition that will soon start for the Island of Java. The expedition is backed by the Dutch government and the Berlin Academy of Science. Its object is to continue the researches of Dr. Dubois.

Mr. Eugene F. Ware, attorney for the college, filed a petition with the clerk of the United States Circuit Court and asked that an injunction be granted restraining a biscuit company of Kansas City from labeling their chocolates "Vassar Chocolates."

The college authorities carefully selected Mr. Ware as their lawyer. Besides admiring beauty and wisdom and purity, Mr. Ware writes over the nome de plume "Ironquill" and is such a joyous optimist that he put forth poetry even during the period he was United States Pension Commissioner.

So Mr. Ware's petition is a gem. He recites that the college's particular objection is to the picture of a supposed college girl, which forms the enterprise on "Vassar Chocolate" boxes.

The picture is of a young woman in scholastic garb, wearing a "mortar board." The college complains that this picture provokes discussion and reproach, because many believe that if such garb is worn, it should be worn only by men.

Mr. Ware acknowledges that this argument is open to discussion by suffragettes.

Besides, Vassar's official corporate seal is imitated in the advertisement on the candy boxes. On the face of the seal is represented a woman with a book and a sprig of mire. In the background on a hill is a Greek temple. Over all are the words "Vassar Chocolates," substituted for Vassar College. Under the female figure, where, on the official seal, "Purity and Wisdom" should be, the defendants have placed the words, "Adverbs Fresh."

"The words 'Always Fresh' seem on the fictitious seal, to be applicable to the female figure above it, and is a matter of ridicule and reproach."

Mr. Ware appears to think a Vassar girl may be "fresh" when she enters college, but "always fresh"? Perish the thought!

Mr. Ware complains that Vassar, established with money which the estimable founder made in beer, has taken exalted rank and obtained a wide reputation; the name "Vassar" is worth a million dollars, because it represents high and thorough education, which is likely to be injured by use of the name on a candy box.

It is expected that the chocolate makers' defense will be that "always fresh" is intended as a delicate compliment to the Vassar girl; only another way of saying:

"Age cannot wither her nor custom stale her infinite variety."

### Vassar Students Not 'Fresh'

### Sayings of Mrs. Solomon

**B**EHOLD, my Daughter, now approacheth the season of WEDDINGS!

Lo, the house of the early spring bride is filled with commotion and preparation, with chiffons and lingerie and dressmakers and curiosity-seekers and people with FREE advice.

She floateth in her vanity and reveleth in her own IMPORTANCE.

For is she not about to lead a MAN unto the altar, even as a calf to the SACRIFICE? says Helen Rowland in the St. Louis Dispatch.

Yet, hearken unto ME. O thou Delirious One!

For a wise virgin seeketh SECOND-HAND knowledge, but a foolish damsel learneth only by her own EXPERIENCE.

Lo! I charge thee, ere thou weddest Harold, or Algernon, or Bertie, or anything that is called a "MAN," these things must thou KNOW and be SURE of within thy hearts.

That ONE meal of corned beef and cabbage a day WITHIN this man shall be more satisfying than three meals and pâté-de-bois-gras WITHOUT IT.

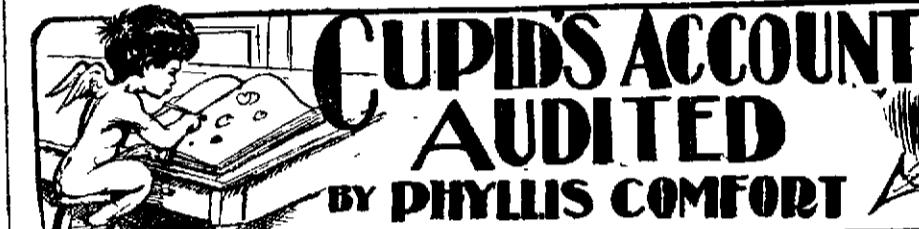

The sarcasm from his lips is sweeter than flattery from the lips of another.

That thou couldst LOVE him with a three days' beard upon his chin.

That thou couldst stand by and see the hairs of his head fall out one by one, and yet patiently KISS the bald spot.

That a peck on the cheek from him is more thrilling, yea, more RAPTUREOUS, than an ardent kiss from any other.

For, verily, verily, my Daughter, I say unto you, each and every one of these things shall be thy portion! Selah!

### To Manage a Misunderstanding.

Even if you have been so careless as to let a small misunderstanding grow into a monster by neglecting to clean it up promptly do not go around murmuring over it. Be glad you have sufficient force of character left to rid yourself of the hodge-podge.

"How shall I do it?" you say.

Just lay aside your pride and your cowardice, walk right up bravely to your sweetheart with whom you have quarreled and have it out with him or her.

Out with it. It is the only sure, sensible course.

ANOTHER ANXIOUS GIRL.

Dear Phyllis—I am 19 years of age and am deeply in love with a young man two years my senior. He works in the same office as I do and whenever he has any time to come to me he always has a long talk with me. On several occasions he brought me flowers and candy which I accepted as tokens of his regard but did not know if it was a present. Now of late he has acted as though he wanted to call on me but is afraid to ask. Now I have had many chances that he intends to move into my home. He is not very nice and my parents are anxious to make themselves of me. What I would like to know is how I should act proper for him to tell him as I am positive that his love will develop and as I said before I am waiting for such an opportunity.

ANXIOUS.

I like your sincerity. The young man is evidently interested in you, so I think you have no cause to feel the least anxiety.

Do not be in a hurry. He is probably studying you and will ask a little later to call on you. Do not appear over-eager. Simple, pleasant, natural and appreciative over his offerings of flowers, candy and attention. Be his friend first, the rest will follow if he is for you. Anxious girls are unattractive.

RELIGION AND SALARY.

Dear Miss Comfort—I am a young man, 22 years old next Sunday, and have been teaching school for a year. I am a Catholic and a Lutheran. I would like to marry this young lady, but she keeps saying that she could not support him and probably a family of \$15 per week, which I am earning in a large banking house in San Francisco. I have been working there four months and have been raised twice and expect to be raised again.

New dear Betty, will you kindly advise me if we could live happily on \$15 per week and of our relation ship making any difference in our marriage. Do you think she loves me?

Yours respectfully, H. E.

If religion is religion, it will not interfere with love. If love is love it cannot be changed by a difference of religious sentiment. Both true marriage and true

religion are based on love, therefore we will consider that matter disposed of.

But living on \$15 a week, that is different. If the young lady is very practical indeed, it may be done. Indeed it has been done and is being done all over this country by hundreds of couples. It requires excellent management and redoubtless common-sense on the part of both husband and wife. If this young lady wishes to marry in view of fine clothes and luxuries generally, I can only advise you to wait till you have a salary large enough to meet the demand. She may even love you and at same time set you too clearly into the future for both you and herself to permit you to take the burden of home life on so small a salary. I would advise you to remain engaged for some time to come. Anticipation is often sweeter than reality.

ROCHESTER.—The discussion of marriage as if it were something new in human history is one of the strange eccentricities of the modern thinker. There was a time when everybody, whatever may have been his views on other subjects, accepted marriage as one of those institutions which no sane human being would oppose or decry. In none of Shakespeare's plays is marriage treated as if it were merely a matter of taste or a debatable problem. Although Lord Bacon in his essay on "Marriage and Single Life" says that a man who married has "given hostages to fortune," while a single man can more freely undertake great enterprises, he did not even dream of questioning the fact that the married state was the natural condition of human beings. The first real attack on marriage as an institution was made by Goodwin, whose views were extremely unorthodox, and his son-in-law, Shelley, guilelessly adopted them without seeing their pernicious tendency. Among the writers of the Nineteenth Century Isham has been remarkable for his advanced views on the rights of women to a larger freedom after marriage than used to be considered advisable. Indeed, "A Doll's House," whatever be its dramatic value, is most unsatisfactory as if it were merely a matter of taste or a debatable problem. Although Lord Bacon in his essay on "Marriage and Single Life" says that a man who married has "given hostages to fortune," while a single man can more freely undertake great enterprises, he did not even dream of questioning the fact that the married state was the natural condition of human beings. The first real attack on marriage as an institution was made by Goodwin, whose views were extremely unorthodox, and his son-in-law, Shelley, guilelessly adopted them without seeing their pernicious tendency. Forty-Eight Rigs in Devil's Den District

HANFORD, April 30.—S. D. Montgomery reports that he counted about forty-eight rigs in the oil fields in the vicinity of Devil's Den town. The wells are mostly capped, and are taken from 100 to 1,500 feet deep. The prospectors have found oil and gas in the mineral character of the land. He says Devil's Den is a town of one good hotel, several other public places and about forty houses, and coming back he saw many teams in the Sunflower Valley and on the Kettleman Plains, hauling material for more rigs, also supplies.

**Cosmo Company Down in Oil Bearing Sands**

HANFORD, April 30.—Judge Carr and C. L. Barbour of Hanford report that the Cosmo in the Devil's Den country has gone into the oil sands at the 1000'. They are interested in several propositions around the Den and declare that it will be the coming country.

**Aged Vatican Rector Dies in Pope's Arms**

POME, April 30.—A typical figure of the Vatican passed yesterday with the death of Monsignor Giugliano Piffetti, who had been the sacristan, or parish priest, of the apostolic palace since the time of Pius IX.

The aged rector died in the arms of the pope, who had gone to the bedside now, learning that the end was near. The monsignor had served for fifty years under three popes.

The post of sacristan has existed for six centuries and is always conferred upon an Augustinian.

**Charter Makers Are to Name Candidates**

A meeting of the delegates to the Charter Convention is called for Monday night at the Chabot Assembly Hall. The important purpose of the convention is to nominate candidates for the fifteen freeholders to be chosen at the election on July 6.

The convention adopted its platform and the pledge of its nominees last Wednesday night. A full attendance is urged.

Inure the health of all the family

Always have a tonic in your home

By using it consistently, a good tonic is the greatest insurance against the ravages of many diseases that often result fatally. This is where forewarning is forearmed.

**Pabst Extract**

The Best Tonic

is accepted in all parts of the world as the standard of malt tonic value—it is the essence of absolute purity and nature's greatest aid to health. It is a predigested food in liquid form, containing the tissue-building properties of rich barley malt and the rare toning elements of the lupulin from choice hops combined in most palatable form.

The United States Government specifically classifies Pabst Extract as an article of medicine—not an alcoholic beverage.

Order a dozen bottles from your local druggist.

Insist upon it being Pabst

**Six Gushers in the Midway Oil Field Increase April Production****PACIFIC STATES HIT INTO BIG FLOW OF OIL**

Well Under Beam Is Putting Up Five Hundred Barrels Per Day.

**MANY DRILLS ARE DOWN IN THE OIL SANDS**

Coalinga District Is Making Great Showing in Production.

COALINGA, April 30.—No. 1 well of the Pacific States Petroleum Company on S-21-15 is doing from 500 to 600 barrels a day on the beam. It was brought in this week, and outside of the big performers it is one of the best wells in the district.

**OTHER WELLS.**

Reports from the other companies report great activity, and scores of drills are entering into the oil sands. The Aztec Oil Company, 7-20-15, has completed well No. 1, and is now on the beam making 100 barrels per day.

The Arizona Petroleum Company, 14-20-14, has completed well No. 6 and will be on the beam Monday.

The St. Clair Oil Company, 12-20-14, has completed well No. 4 and performed casing. Will be on the beam Monday.

The New York Coalinga Oil Company, 6-20-15, has completed well No. 7, which is now on the beam and producing.

The Associated National Thirty Oil Company, 22-19-15, has rig for well No. 7 completed, is rigging up. There are seven wells now producing on this 30 acres.

**Santa Fe Plans to Build Own Pipe Line**

SAN BERNARDINO (Cal.), April 30.—The Santa Fe Railroad plans to build a six-inch rifled pipe line designed to convey fuel oil from the Oildale fields to San Bernardino according to an announcement here. The line will be forty-eight miles in length, and will involve the expenditure of \$300,000. The company now hauls its oil to this city in tank cars. This method involves a heavy expense in view of the enormous quantity of oil transported annually.

**Forty-Eight Rigs in Devil's Den District**

HANFORD, April 30.—S. D. Montgomery reports that he counted about forty-eight rigs in the oil fields in the vicinity of Devil's Den town. **OIL NOTES**

Advices from Bakersfield are to the effect that the Lakeview gusher flow is still increasing. The stream of oil flowing from the well to the reservoirs last week was two feet wide and six inches deep. Last Monday the oil was flowing half an inch deeper in the trench. Probably this means an increase of an eighth of an inch in the flow. The column of oil is not rising so high above the ground, but the great gusher is certainly not losing its yielding power.

**Strike Gas Pocket in Wellman No. 10**

Sunset district Wellman No. 10 on Section 36-12-24, recently struck a big gas pocket at 600 feet. The gas pressure forced the bailer up through the derrick, breaking away heavily and scattering the stones and sand.

The pocket is 150 feet from the surface.

The gas is 100% pure and is being produced at 1000 barrels per day.

## UNEVEN MATCH RESULTS IN PUGILISTIC TRAGEDY

## Long Shots Win in Fields of Poor Caliber at the Oakland Track

## M'CARTHY NOT FITTED TO COPE WITH OWEN MORAN

**Undeveloped Boy Should Not Have Been Pitted Against Veteran of Ring, Declares Critic**

By EDDIE SMITH.

**O**VERMATCHED and incorrectly trained for a severe test of lasting power, Tommy McCarthy, one of the favorites of the San Francisco boxing fraternity, entered the ring to give battle to Owen Moran in a twenty-round boxing contest last night at the Dreamland pavilion and the result of the contest is indeed tragic. Both men fought gallantly and intelligently, but the young boxer had little chance to win. McCarthy was trying to all times to turn the tide of battle with a left hook to the body. At no time was he in a bad way, however, and at the end of the contest he was in a comparatively fresh condition. That is, he was leg weary and his arms hung heavily at his side, but he had not received any severe punishment to speak of and at the end of the contest there was little to be feared in the matter of a beating.

The ending came at the beginning of the sixteenth round and was brought about in the following manner. Both men walked to the center of the ring and raising their guard advanced within striking distance. Moran had been working with his left hand throughout the contest, with an occasional jab for the head with the right. Owing to the inexperience of McCarthy he was at sea every time Moran feinted at him and with each feint he threw open his guard in such a manner that the shifty little Britisher had a clear way for the landing of a punch.

**HOW THE PUNCH LANDED.**

In the sixteenth round Tommy had tried nobly and was none too lively on his feet. McCarthy feinted as the men came together and opened up his guard by throwing both hands wide from his side in such a manner as to be ready to counter with either right or left if Moran should advance. At the same time Tommy stepped back and in doing so brought both of his feet in such a manner that it was an easy matter to put him off his balance, and at the same time made it almost impossible for him to land a counter or get away from the Britisher's blow.

Moran, noting the position of the tired boxer, took one step forward, and, with a feint with his left hand to draw the attention of McCarthy, he left with a straight right to the head. It hit fair on the chin and McCarthy, with his imperfect balance, fell over backward in such a manner that his head struck the floor with a resounding bump. When he had recovered his breath he instantly landed a good cross for the floored pugilist. The finishing punch was not an extraordinarily hard one, and several of its kind had been landed during the contest, but when it hit McCarthy in the face the red-haired boy was off his feet once and the bump on his head was the cause of the fractured skull.

**FATHER WAS UNWISE.**

The ending came about in such a manner that no one could be blamed, for McCarthy had received little punishment that would warrant the stopping of the contest. The referee, however, saw nothing to prevent the fall had been within a foot of the man knocked down. The one person to be censured for the unfortunate ending of the contest last night was the man who had reluctantly agreed to let such a worthy opponent as the experienced Moran. The fatal blow last night is the first for a period of four years and two months, the last being the unfortunate ending of Harry Tenny after a boutting at the hands of Frank Neil. In this contest the trainer and trainers for Tenny were absolutely at blame, they sent the little fellow into the ring untrained and drove him on to a beating when it was apparent to most any one in the audience that he had no chance to win. In the battle of the day night was not the case, and had it not been for the poor footing McCarthy had on the floor he would not have been injured.

During the four years that has elapsed since the fatal blow last night, there has been two other disastrous boxing contests about the State of California, during that time. The ending of the contest of last night was one of those unfortunate endings that must occasionally come to all rough sports and can be blamed to no one nor can it be said that because of the injury to McCarthy the great briton had received no such beating as could easily be given.

In the preliminaries of last night George Peterson was awarded the decision over Dent Bowers and Terri Mustain was knocked out in the second round by Jack Davis. When the several heavy weights in Oakland a few days back, Davis showed well last night and may come to the front again.

**ST. MARY'S TRACK MEN SHOW WELL IN MEET**

**Athletes of Local College Figure Prominently at Gaelic Games.**

Hobart, the Olympic Club sprinter, carried away honors in the miler race at the Original Gymnasium, his victory giving the bandoneon club a record of two consecutive wins. The bandoneon club, which has won the miler race for two consecutive years, is the advance of Burke and McDowell of St. Mary's College, who gained second and third place. The miler race, "Ring of the Wings," was started from scratch and won by Hobart. He covered the half mile in easy style, but lost ground through the breaking of his shoe laces, which caused him to stop on the third lap. Don Benedict of St. Mary's College placed in the seventh the half dash with Cudgel of the Olympic Club second and Stewart of St. Mary's third.

In the relay race, for teams of four runners, the Olympic Club won from the Puffins and Acme clubs. The results are as follows:

Half dash—Won by Hobart (St. Mary's) second and St. Peter's third. Time, 1:23.5. 1/2 dash, first—Won by St. Peter's (St. Peter's) second and Hobart (Olympic) third. Time, 0:08. Heat—Won by Caldwell (Olympic), Don Benedict (St. Mary's) second and St. Peter's (St. Peter's) third. Time, 0:07. Final heat—Won by Don Benedict (St. Mary's) (Olympic) second and St. Peter's (St. Peter's) third. Time, 0:07.5. Half relay—Won by Hobart (Olympic) second, Don Benedict (St. Mary's) first, Cudgel (Olympic) third and McDonald (St. Peter's) fourth. Time, 1:32.

The relay race was a battle of left hooks, both men using this punch most of the time for the body and head. McCarthy:

**JACK JOHNSON ARRIVES AND PREDICTS A VICTORY**

Jack Johnson arrived last night in San Francisco from Los Angeles and immediately went to the Seal Rock House, where he is to do his training for the Jeffries contest. When reached this morning on the phone, Jack seemed in the best of spirits and talked freely of his condition and chances in the contest.

"I shall start light work in a few days, but will not get down to hard training for some little time," said Jack. "I know just how much work I can stand and no one knows better than myself that two months of active training will send me into the ring stale. I do not want to reduce too much for Jeffries, and would like to go into the ring weighing about 200 pounds if I can. I have never trained more than three weeks in my life, and to put in more time than that at this time would be a bad move on my part."

"The public need not worry about my condition, for I have a great deal more at stake than they have, and I shall be ready to jump into the ring fit to defend the title. The people can judge for themselves from my showing in the ring tonight at Dreamland whether or not I shall be in good condition."

"I want to say that I am very sorry at the ending of the McCarthy-Moran contest, but feel that it is one of the sad endings that must come to contestants in all rough sports once in a while. Men are killed in football, baseball and polo games every once in a while, and the percentage of boxers killed is less than any other game."

Johnson says he will have his automobile here in a few days, and from then on will devote most of his time to riding about the country. Tonight at the Dreamland pavilion, Johnson is to appear with his sparring partners in a boxing exhibition during which the fans will have a chance to see him in action.

IF SAN FRANCISCO YACHT CLUB made its season today when an afternoon entertainment was given at the clubhouse at Sausalito. The afternoon was devoted to dancing and the jackets were decked with colors. At 8:30 the guests of the club will leave and the members will sit down in a selected dinner and "lock hospital" atmosphere.

Jimmy Fitzgerald, the Canadian long distance champion, will be pitted against Jim Stanner of the San Francisco Yacht Club in a sprint race at the Presidio athletic grounds, in San Francisco, tomorrow at 3 p.m.

In the Three C League Sunday next the Watsonville team will play Watsonville at the latter place, with Harry Walker as umpire. The Watsonville team will play Santa Cruz, with Jim Neeson as umpire. The Yachters journeyed to Yachter Sunday and easily defeated the home team by a score of 9 to 3. The pitching of Stanner and the home run of G. L. Walker with men on bases, were the features. The Yachters will play the Sullivan team tomorrow at the park in San Francisco.

WESTERN LEAGUE—At Wichita—Jantzen 11, Wichita 17. At Topeka—Des Moines 4, Topeka 11. At Denver—Denver 8, Omaha 2.

Pitcher Lively's arm is not right and he may not pitch for the Oaks this week.

Neither pitcher used a man in yesterday's game, but both showed splendid control and the fact that the opposing batsmen were always hitting the ball kept the infielders on the toes. Cuthbert was the star in the Oaks' side, taking care of fourteen chances. Lindsay had nine on the Vernon side.

SOUTHERN LEAGUE—At Memphis—Memphis 8, Chattanooga 4. At New Orleans—New Orleans 2, Birmingham 1. At Atlanta—Atlanta 3, Nashville 0. At Mobile—Mobile 1, Montgomery 7.

# OAKLAND PROTESTS GAME ON UMPIRE'S DECISION

## In invaders Continue Winning Streak, Taking Another From Fresno

LEADERS DEFEAT RAISIN EATERS AGAIN

Bloomfield, in Fine Form, Allows Visiting Batsmen But Four Hits.

STANDING OF THE CLUBS.

Club	Won	Lost	Pct.
Oakland	10	5	.667
Stockton	10	7	.558
San Francisco	8	6	.571
Sacramento	8	8	.500
San Jose	8	9	.471
Fresno	1	13	.077

Oakland yesterday defeated the Raisin Eaters, 10-5, in the aggregation of last night's games at the State League grounds, winning a victory in the sixth game was Oakland's from the beginning, the local team making twelve bobbles off the delivery of Oscar Jones, who officiated for the visitors.

Bloomfield held the Fresno batters to four lonely hits, scattered throughout many innings. In the second inning the Oaklanders scored two runs on Strawn's single, Mortkin's triple and Hackett's well-executed squeeze. Keller scored, Bloomfield singled. Smith bunted and Kelly's fumble of Garibaldi's drive scored Bloomfield in the fourth.

Fresno's only run was made in the seventh, when Finney singled and was forced by Dickinson. In trying to complete the double Strawn threw the ball to the bleacher fence, a boy tossing it back to Keller. The score was as follows:

The score.—FRESNO.

# Here are some of the reasons why The Kurtzmann Piano at \$335

is one of the greatest values  
among pianos to-day

BECAUSE the durability of its beautiful mellow tone is surpassed by no other piano near its price.

BECAUSE it is built of choicest materials by skilled workmen.

BECAUSE the Kurtzmann—before the public since 1848—is so excellent a piano that the demand has necessitated constant enlargement of the factories.

We make a liberal allowance for used Pianos.

Easy terms of payment if desired.

## EVERYTHING READY FOR OPENING OF CARNIVAL

Eagles' Fete Starts Monday at  
Fruitvale With Spectacular  
Parade.

QUEEN'S CORONATION  
WILL BE A FEATURE

150 Babies Entered for Prizes  
in Show; Mothers to  
Exhibit Infants.

With a spectacular parade which is to be replete with novelties, the Eagles' Carnival at Fruitvale will open Monday morning, and after the sounding of the first gun of revelry joy is to reign supreme for six long days. There are no breaks in the elaborate program which has been prepared by an entertainment committee of upwards of a hundred of the town's more progressive business men and with baby shows, doll shows, booths, dancing. May fêtes and all the hundred and one other modes of entertainment which have been provided, all will be completely supplanted for time at least.

A great deal of effort has been exerted to make the Eagles' one. The six days of the under the superintendence of W. B. Bridge, who is marshal and

Santa Rosa and  
turn.

Tickets will be sold on May 5-6-7, at account of the infant May 8th, the Southern

## DEMANDS FORTUNE IN DAMAGE SUIT

Horton Charges Remillard  
Brick Company With  
Breach of Contract.

Claiming that he was discharged in violation of a contract, Edward Horton has brought suit in the Superior Court against the Remillard Brick Company to recover \$65,000 damages.

In his complaint Horton alleges that in 1906 he and the company entered into a contract by which he was to be employed for a period of ten years, the salary to be \$300 at the beginning and to increase from time to time in stipulated amounts. In addition to the salary he was to receive a percentage of the profits of the business, he alleges.

Everything went well, according to Horton, until last May, when he was dismissed by the company and the amount for which he is suing is based upon what he claims he would have earned in salary and percentages if he had been allowed to continue with the company under the terms of the alleged agreement.

### Big Production of Wells at Fullerton

LOS ANGELES, April 30.—In the Fullerton oil fields, the Petroleum Development (Santa Fe) has seven sections of tools at work, one in working up, four locations have been selected and forty-five wells are being drilled and completed daily. Depths are between 2,700 and 3,200 feet, but No. 9 was sunk to a depth of 4,200 feet in the hope of increased production. The effort was a failure, no oil being found below the first production

## ACCUSE TWO MEN OF CLEVER THEFT

It Was a New Game That Pair  
Worked, But Successful  
for a Time.

HAYWARD, April 30.—Going the old game of trying on a suit of clothes and running out with it one better, Thomas Martin and William Murray are accused of stealing clothes from an establishment in this place by means of a trick more clever.

Martin and Murray entered the clothing store known as the Jesse H. Wood company Thursday afternoon, and the former tried on an expensive suit of clothes, while Murray wandered around the premises admiring the various articles offered for sale. In the course of his wandering he incidentally filled an empty suit case that he carried with two suits of clothes and other articles, valued at \$50.00, according to the claim of the proprietor, who was engrossed in informing Martin of the great bargain that was offered him, and which he finally decided did not exactly suit him.

When the two strangers had gone the loss of the articles was noticed and a warrant was issued for the arrest of the men. They were located in Fruitvale yesterday and have been taken into custody on a charge of petty larceny.

Good results always follow the use of palm's Rishine Pill. This gives prompt relief in all cases of kidney and bladder disorders, are healing, strengthening and antiseptic. Try them. Wishart's Drug Store.

## INTENDING SUICIDE, BAKERSFIELD MAN DIES FROM DISEASE

BAKERSFIELD, April 30.—After bidding his friends good-bye and leaving a note for the proprietor of the Union stables saying that he wished news of his death sent to his mother at San Luis Obispo, Abraham Alairance went out to Hunt Park here to commit suicide. His dead body was found a few hours later. Beside it was an empty bottle, supposed to have contained poison, but upon an autopsy being made it was found Alairance had died of fatty degeneration of the heart. There was no sign of poison in the stomach and the bottle had contained only sweetened alcohol.

### Pawns Skeleton of His Mother-in-Law

SAN JOSE, April 30.—The skeleton of the mother-in-law of J. D. Scott of Los Angeles, which is an unredeemed pledge in a local pawnshop, was advertised for sale yesterday by Nat B. Weinberg of 25 Pine street.

Nine months ago Scott brought the bones of his wife's mother to Weinberg's place and raised \$5. He said that he had carried the skeleton with him for many years.

The woman was bitten by a rattlesnake in San Miguel Island in 1868, while in lonely parts of the mountains. The bleached bones were found several months later.

## CADET CORPS TO MARCH IN PARADE

Berean Organization Will Make  
Showing at Opening of  
Eagle Carnival.

FITCHBURG, April 30.—The members of Berean Cadet Corps of the University of California will make their address before the Association yesterday physical strength, he said. "I am school athletics as strongly. Football is a strong man's play." The organization is the division of the group one of the greatest country. Professor, therefore, the course given in the university for play round school and in the shown by a great crime where players introduced. The grounds into three and large, especially special features.

Sergeants: Irwin Moore, Royce Welch, Alfred Smith, Walter Woods. Corporals: Howard Pelletier, Harry Mitchell, Frank Mitchell, Henry De Worack.

Musicians: Willie Gillis, Privates: Chester Wood, Aubrey Briggs, Leslie Douglas, Ronald Fay, Frank Lockabee, Charles Mitchell, Earl Nelson, Wm. Burns, Carlisle Partridge, Tony Perry, Norman Taylor, James Nixon, Donald Gillis, Chester Mecham, Fred Martin, Willie Wyllie, Earl Pippin, Walter McVay, Harvey Goodwin, Lester Boyle, Horace McVay, Harold Perity, Earl Douglas, Frank Barrett, Lester Wilson, and Harvey Fair.

## PROFESSO CONDEN

Says Straining  
Mark

Magee, professor of the University of California, condemned high school address before the Association yesterday physical strength, he said. "I am school athletics as strongly. Football is a strong man's play." The organization is the division of the group one of the greatest country. Professor, therefore, the course given in the university for play round school and in the shown by a great crime where players introduced. The grounds into three and large, especially special features.

The Berkeley T unambiguously bidreduction of "A" for May 30 under the direction of Mr. Maxine Bodeback, who was the biggest catch taken in Berkeley, men in the open grounds to the older ones represented were named by the Berkeley team association, with Miss P school as chairman.

INDORIE

## What Prominent Men Say About "Eastlawn"

"Eastlawn is already a proven success. It was made so the day your firm decided to carry out your present plans. Oakland needs just such a residential subdivision. I congratulate you upon your enterprise."

JOHN MITCHELL  
Western Electric Vehicle Co.

"I am satisfied that 'Eastlawn' is a good proposition."

CHAS. A. SMITH, Cashier,  
Security Bank & Trust Co.

"The mere fact that the Frank K. Mott Company planned and are responsible for 'Eastlawn' assures its future. The splendid work you are doing upon the streets and the fine improvements being installed, offers double insurance."

A. DEKINS,  
Orchard Van & Storage Co.

"The thought and care you have given to 'Eastlawn' backed by your experience in such matters assures its success. Good street work is paramount, and I understand you have spared no expense in this important feature. The sale should be a success—your enterprise deserves it."

C. G. TAYLOR,  
Eureka, Cal.

"No one can make a mistake in buying Oakland realty. 'Eastlawn' is planned on the right lines, and every purchaser of a lot can consider himself fortunate. Your efforts will be appreciated by the investors in a very substantial manner."

H. B. MEHRMANN,  
Public Administrator.

"'Eastlawn' looks good to me. Tell Crown I will take lots 19 and 20."

W. A. MCAREN,  
S. Telephone Co., Eureka.

"With the era of industrial and commercial expansion upon which this city has entered, the investor cannot go amiss anywhere in Oakland, and the avidity with which new tracts placed upon the market are being taken up is an evidence of the wise policy of the Frank K. Mott Company in the improvement of such a property as 'Eastlawn' by the paving of streets and the putting in of sewers and sidewalks, making it in every way one of the most attractive subdivisions in the City of Oakland."

A. A. DENISON,

Secretary Chamber of Commerce. "The success of 'Eastlawn' is a foregone conclusion. The only thing in doubt is who will get there too late to secure a lot. I do not believe it will be surprised to see \$100,000 worth of this property sold Saturday and Sunday."

THEO GIER,  
President Bank of Germany.

"You have an ideal combination in 'Eastlawn'—low prices, very easy terms, fine street work, complete improvements, protective building restrictions and perfect transportation."

HENRY P. DALTON,  
Assessor Alameda County.

"Anybody buying a lot in 'Eastlawn' today will double his money inside of two years."

EDWIN STEARNS,  
Ex-Sec'y Oak. Chamber of Commerce.

## EASTLAWN

# Is Open

### A Serious Talk to Every Reader of The Tribune

Tonight and tomorrow you are brought face to face with an important problem.

We are offering you an unusual opportunity in Eastlawn to make a sound investment with very little money.

Other attractions of May Day are tempting you. It is a day of pleasure seeking—of picnics and of jaunts.

You must make a decision right now between business and pleasure.

Which are you going to choose?

Are you going to be guided by your better judgment and look into this proposition, or are you going to be tempted to spend the day in profitless pleasure?

If Eastlawn is as we have described it, you owe it to yourself and your family and your future to investigate it thoroughly. If it is not as represented, you stand to lose your time, while we stand to lose upwards of \$250,000, for no concern can expect the public to buy a misrepresented proposition.

We have said that we are furnishing with every lot the kind of street work you find on

tracts costing \$45 and \$50 per front foot. If this is so, these lots, located as they are, are exceedingly cheap at our opening prices of \$16 per front foot.

We have said that building restrictions, prohibiting shacks, shanties and saloons have been incorporated in our deeds. If this is so, it means an attractive neighborhood.

In brief, if the advertising we have done during the past ten days reflects conditions truthfully, then it is your duty to look at the property at once.

That is all we have to say.

Our story has been told, and we thank you for reading our announcements and trust you will profit by them. All we can do is to offer you the opportunity. You must be the judge, but in being the judge, you must be fair to both sides, and at least investigate before you draw your conclusions. The importance of the opening sale tomorrow warrants your giving this matter careful thought.

We shall expect to see you at the tract.

### How to Reach the Property

FROM OAKLAND—Take the Elmhurst, San Leandro or Hayward car at Twelfth and Broadway and get off at the tract. Tell the conductor to stop at Seminary avenue. "Eastlawn" is just the other side of Melrose and fronts on East Fourteenth street. Car fare 5c.

FRANK K. MOTT CO., 1060 Broadway, Oakland

Phones—Oakland 147. Home A2957.

SAN FRANCISCO OFFICE—1202-1203 Chronicle Building. Phone Kearny 5571.

TRACT OFFICE—East Fourteenth Street and Seminary Avenue, Oakland. Phone Elmhurst 70.
